10 July 2023

Temporary Road closures for New Pedestrian Crossing on Dereham Road

Works will start on (or soon after) Monday 24th July 2023 in Costessey to provide an upgraded pedestrian crossing at the junction of Dereham Road and Richmond Road. There will also be improvements to the surrounding pavements and also around the junction of East Hills Road and Richmond Road.

To complete these works safely, some temporary road closures and a speed limit restriction will be in place.

Details of these are outlined below and will be signed on the ground. All timings are approximate and subject to change. Closures may not be in operation for the entire duration of the times specified.

To minimise disruption, work has been programmed to mostly take place throughout the school summer holidays and the County Council thanks people for their patience while these improvements are carried out.

This project has been funded as part of the £32m awarded to Norwich through the government's Transforming Cities initiative and will provide improved and safer facilities for everyone that walks, wheels or cycles on this busy off road route which provides connection to shops and amenities across the wider area.

Temporary two way traffic lights:

A1047 - Dereham Road

At the location of the traffic lights/pedestrian crossing adjacent to Richmond Road

From: 24th July to 27th September 2023.

Temporary Road Closures:
