Rose Lane

Proposed change

- 1 A cycle track on Cattle Market Street from Rose Lane.
- 2 Narrowing Rose Lane to two lanes of traffic along its entire length and removal of current bus lane.
- 3 Providing wider pavements and an off-carriageway cycle track.
- 4 Landscaping and loading bays.

Reason for proposal

Joins up with the existing facility on Golden Ball Street.

Provides a consistent carriageway width in Rose Lane and creates space for pedestrian and cycle improvements. The changes to the King Street and St Vedast junctions with Rose Lane (see Prince of Wales Road map) would improve flow for all traffic, allowing removal of the existing bus lane.

Connects to proposed cycling infrastructure on Cattle Market Street.

Improves loading facilities for businesses while also improving the look of the area.
