Distance	3.25 miles
Details	Minor gradient, 60% soft 

Walk instructions

Leave the Market Place via Pudding Pie Alley (beside the Kings Arms) and turn left into Back Street, then first right under the brick arch into Bar Lane. At the end, turn right onto the road.

Walk straight over two crossroads into Broomhill Lane.

Take the path on the right, immediately after the last house on the right, and follow the path until it opens out into Park Lane. Continue ahead at the estate T-junction to the Dereham Road.

Cross Dereham Road to the path opposite, turn left and walk along the grassy path through the trees adjacent to Dereham Road (this permissive path is a safer alternative to walking along the busy road; it's not a public footpath but is available for you to enjoy by permission of the landowner). Continue ahead ignoring all other tracks until reaching Catchback Lane, the bridleway at the junction with the road.

Turn right onto this bridleway and follow the track as it winds down to the road for nearly a mile.

On reaching the road, turn left, go under the railway bridge and climb the stile and steps on the left up to Marriott's Way. Turn left onto Marriott's Way. Pass the Station Café, go under a bridge, briefly leave the track and turn right, then left and cross Cawston Road to rejoin Marriott's Way almost opposite.

After a quarter of a mile, leave Marriott's Way through a gate on the right (shortly after walking over a road bridge) and follow the footpath down to the road. Turn left on to the road, then right onto another public footpath almost opposite. At the end of this footpath, turn right then immediately left into Richmond Rise.

Cross the road at the T-junction to the footpaths opposite, and take the left hand path (Bar Lane).

Turn right at the end and follow the path between the trees adjacent to the Norwich Road. Cross the road when the path finishes, and turn left into Church Street then right to walk through the church yard and out into the Market Place.

Reepham via Marriott's Way and Catchback Lane

An enjoyable walk circling the town via pleasant quiet back streets behind the church and a lovely old country track called Catchback Lane.

- The Reepham town sign shows groups of various items including three churches and was designed by the pupils of Reepham High School. It is based on the myth that three sisters were responsible for building a church each here. However, the medieval churches were built over a span of several generations for the three different parishes which meet in the churchyard. A fragment of Hackford All Saints Church can be found in one corner of the churchyard.
- In 1882, railway stations opened at Reepham and Whitwell.

The railway brought cheaper products to the area from larger works elsewhere and it contributed to the downfall of many small local industries thriving in the town at the time.
