

84 miles

Norfolk Coast Path

www.norfolktrails.co.uk

The Norfolk Coast Path runs for 84 miles from Hunstanton to Hopton-on-Sea. Much of this walking trail runs through the dramatic landscape of the Norfolk Coast Area of Outstanding Natural Beauty. Originally the trail ended at Cromer, but as of October 2016 Norfolk's first and second stretches of the England Coast Path have opened, extending the Norfolk Coast Path to Sea Palling and again to Hopton-on-Sea.

Passing through seaside towns, picturesque villages and areas rich in wildlife, heritage and geological interest, this trail has something for everyone, no matter what time of year.
