Marriott’s Way surface improvements at Aylsham, between Mileham Drive and Woodgate Crossing

A project is starting on 9 March to improve the surface of the Marriott’s Way Norfolk Trail at Aylsham, between Mileham Drive and Woodgate Crossing.

A new all-season surface will be provided making the route accessible for everyone, all the year round. The old uneven surface, which can get waterlogged in periods of wet weather, will be made wider where necessary and replaced with a new solid base topped with a surface dressed stone surface which will be in keeping with the natural feeling of the route.

The work will start on Monday 9 March and is expected to take about 3 weeks to complete, weather permitting.

The locations of the surfacing improvements can be found on the map below. To allow the project to be carried out safely and swiftly the section of the route where work is underway will be temporarily closed. A fully signed diversion route will be in place. The County Council thanks people for their patience while this path surface improvement work is carried out.

The work which will cost £135,850 will be carried out by Norfolk County Council’s Community and Environmental Services Department and their contractors.

For Further Information
Andrew Middleton, Project Officer, 0344 800 8020.
The section highlighted in red on the map above is the closed area of Marriott’s Way. The route highlighted in blue is the suggested diversion route.
