For Immediate Release

13 February 2020

Road closure on A149 Caister Bypass for road resurfacing

Work will begin on Saturday 29 February to carry out road resurfacing of A149 Caister Bypass roundabout at the northern end of the Caister Bypass. The work will take two days to complete subject to suitable weather conditions.

The resurfacing is being carried out over a weekend to minimise disruption on this busy route.

During the resurfacing works it will be necessary to close the roundabout and Caister Bypass at this location to all through traffic for the duration of the work.

Fully signed official diversion routes will be in operation while the work is underway, between 9.00 am Saturday and 6.00 am Monday.

Vehicular and pedestrian access to businesses and properties within the limits of the closure will be maintained.

The County Council would like to thank people for their patience while these works to replace the existing damaged road surface are carried out.

The work which will cost £70,000 will be carried out by Norfolk County Council’s Community & Environmental Services Department and their contractors.
