Update for Costessey, A1074 / Norfolk Showground roundabout redesign

Unfortunately the construction works to reshape the A1074 / Norfolk Showground roundabout scheduled to start on 20 January have had to be postponed. The postponement is due to a delay in obtaining the necessary technical and legal requirements from Highways England to work on their network.

The developer funded changes to the junction are required as part of the planning conditions for the nearby Taylor Wimpey housing development for which approval was granted in April 2014.

The work will now take place at a later date which will be publicised nearer the time.
