Drainage improvement on the southern side of The Butts in Kenninghall

Work will begin on Monday 17 Feb 2020 to alleviate the surface water flooding on Crown Meadow in Kenninghall. Additional drainage will be installed on the southern side of The Butts in Kenninghall, drainage repair and maintenance work will be carried out and a raised section at the junction of Garboldisham Road and Crown Meadow will be added as an extra measure to help ensure water flows into the drains as intended. The works will take 5 and a half weeks to complete subject to suitable weather conditions.

During works the road will be closed on the 3 March for three days to through traffic but access will be granted to residents and businesses. It will be necessary to close short lengths of the pavement as works progress. The extents of the road closure will be from Tye Cottage, Market place to the junction of Crown Courtyard, Market Place. Please see attached for road closure and diversion plan.

The County Council thanks people for their patience and cooperation while this drainage improvement work is carried out.

The work which will cost £37,000 and will be carried out by Norfolk County Council’s Community and Environmental Services Department and their contractors.
