Prince of Wales Road area improvements: Traffic Management Update - Night Closures on Agricultural Hall Plain
www.norfolk.gov.uk/princeofwalesroad

Start: Monday 03 February 2020  
Expected completion: Friday 14 February 2020

Ongoing Improvement Works on Agricultural Hall Plain:

As part of the ongoing Prince of Wales Road area improvement works, Agricultural Hall Plain will be closed overnight to motorised traffic accessing Prince of Wales Road for two weeks from Monday 3 February 2020. Working overnight on this section of carriageway will ensure that disruption to traffic in peak hours can be kept to a minimum. The closure will be in place between 19:00 – 06:00 Mondays to Fridays only. A signed localised diversion route will be provided, and traffic will be able to access Prince of Wales Road from Upper King Street as usual.

We would like to thank all those affected for their patience while work takes place.

Funding:
• £2.34m has been secured from the first phase of central government’s Transforming Cities Fund to continue improvements in the area already delivered through investment from New Anglia Local Enterprise Partnership’s Local Growth Fund. An additional £235k is being funded from local developer contributions.

Contacts:
• Norfolk County Council: David Wardale, Project Engineer, 0344 800 8020
• Norwich City Council: Bruce Bentley, Principal Transportation Planner, 0344 980 3333.

• Contractor: Tarmac
Background
This work is being delivered by Norfolk County Council and Norwich City Council through the Transport for Norwich (TfN) strategy. The TfN strategy is an overarching programme of strategic works to improve accessibility by all modes of transport around the city. It not only aims to encourage the use of more sustainable modes of transport, such as public transport, cycling and walking, but also includes capacity enhancement of the strategic road network and new road building, in particular the Broadland Northway (Northern Distributor Road). The aim of the strategy within the urban area is to stabilise traffic levels and to cater for increased demands for travel by more sustainable means.

If you need this report in large print, audio, Braille, alternative format or in a different language please contact 0344 800 8020 and ask for Kath Waipole or textphone 0344 800 8011 and we will do our best to help.
