Prince of Wales Road area improvements: Phase 6 Agricultural Hall Plain
Resurfacing Works – Market Avenue Closure
www.norfolk.gov.uk/princeofwalesroad

Start: 06:00 Sunday 08 March 2020
Expected completion: 18:00 Friday 13 March 2020

Following recent work in the Agricultural Hall Plain and Bank Plain area to improve pedestrian and cycling facilities, we will be carrying out six days of resurfacing work beginning on Sunday 08 March.

We have also planned some works to coincide with the resurfacing which will look to improve the road layout around the entrance to the Castle Quarter car park. The new arrangement will provide a dedicated queuing lane for the car park to alleviate the current conflict between buses and car park traffic.

Traffic Management
Road closures will be in place day and night for the full duration of the works on Market Avenue, Castle Meadow (northbound) and Bank Plain. In addition, Upper King Street will be closed at its junction with Prince of Wales Road from 6am Sunday 8th March until 6am Monday 9th March.

Access for pedestrians and cyclists will be maintained throughout but, unfortunately, there will be some disruption to vehicle access for residents during this time.

Access for bus and taxis to and from Castle Meadow will be restricted on Sunday 8th March only.

Evening access to the Market Avenue entrance of the Castle Quarter Car Park will be restricted between Sunday 8 March and Wednesday 11 March (See attached plan for exact timings) but all vehicles will be able to exit via level N and Farmers Avenue. The Car Park 2 entrance on Farmers Avenue will be unaffected throughout the duration of works.
How will it affect me?
The enclosed plan shows the extent of the area affected.

We will provide gatemen at several locations throughout the duration of the work who will be able to advise you of the best way to access your property during this time. Please see the enclosed plan to find your nearest gateman.

Noisy work
We will be working around the clock to complete the works in the shortest amount of time possible and minimise the impact of the closure. Some of the work will be noisy but every effort will be made to keep noise to a minimum and our contractor will ensure the noisiest work is completed by 11pm each evening.

Funding:
- £2.34m has been secured from the first phase of central government’s Transforming Cities Fund to continue improvements in the area already delivered through investment from New Anglia Local Enterprise Partnership’s Local Growth Fund. An additional £235k is being funded from local developer contributions.

Contacts:
- Norfolk County Council: David Wardale, Project Engineer, 0344 800 8020

- Contractor: Tarmac

Background
This work is being delivered by Norfolk County Council and Norwich City Council through the Transport for Norwich (TfN) strategy. The TfN strategy is an overarching programme of strategic works to improve accessibility by all modes of transport around the city. It not only aims to encourage the use of more sustainable modes of transport, such as public transport, cycling and walking, but also includes capacity enhancement of the strategic road network and new road building, in particular the Broadland Northway (Northern Distributor Road). The aim of the strategy within the urban area is to stabilise traffic levels and to cater for increased demands for travel by more sustainable means.
Market Avenue Agricultural Hall Plain
6am Sunday 8 March - 6pm Friday 13 March

Market Avenue, Cattle Market Street, Agricultural Hall Plain and Upper King Street closed for resurfacing
