For Immediate Release

Bridge on bridleway at Southery - temporarily closed to equestrians until further notice.

Following a report from a local horse-rider and subsequent inspection of this bridge, it has been identified that the timber bridge on PROW and bridleway route ‘Methwold-BR15’ is currently unsafe for equestrian use.

Walkers will still be able to use the path as usual but unfortunately the bridleway will be closed to horses at the bridge. This means that equestrians will only be able to use the route on a ‘to-the-bridge and back’ basis. This restriction to horses is temporary, for safety reasons until a replacement bridge can be installed. We currently do not have a date for when this bridge replacement will be carried out.

The County Council thanks people for their patience and apologise for any inconvenience.
