

**NORFOLK MINERALS SITE ALLOCATIONS DPD: SINGLE ISSUE  
SILICA SAND REVIEW (THE PLAN) EXAMINATION**

Inspector: Jonathan Manning BSc (Hons) MA MRTPI  
Programme Officer: Annette Feeney

19 July 2017

Dear Caroline Jeffery,

**Norfolk Minerals Site Specific Allocations Development Plan Document:  
Silica Sand Single Issue Review – Areas of Search E**

I have now had the opportunity to consider all of the written representations made in relation to AoS E since the Hearing sessions. I am content that I now have sufficient evidence to come to a suitable view on this matter, without the need for an additional hearing session.

It would be appreciated if the Council could draft the suggested Main Modifications (MMs) set out on Pages 7 and 8 of the document '*Statement by Norfolk County Council - Response to Historic England's Statement of March 2017 regarding Area of Search E*', for public consultation, along with any other MMs that have already been discussed. In addition, I would also like to request that a MM is drafted for the supporting text to AoS E to make reference to the need for the relevant assessments in support of any planning application, to have regard to the historic landscape character of the wider area, to an extent agreed with Norfolk County Council/Historic Environment Services.

Yours sincerely,

*Jonathan Manning*
