1 Corrections to the Applicant's Responses to the Examining Authority's (ExA's) First Written Questions (Document Reference NCC/EX/5)

1.1 *Correction of an inconsistency in the way measurements of areas of land are cited (in hectares / acres) in the Applicant's response to the ExA's Question 3.5.*

1.1.1 The Applicant has recently reviewed its responses to the ExA's First Written Questions. Two measurements in paragraph 3.5.10 of the Applicant's response to the ExA's Question 3.5 were given in acres instead of hectares.

1.1.2 This correction resolves that inconsistency by providing area measurements in hectares (ha) throughout paragraph 3.5.10.

1.1.3 The whole of paragraph 3.5.10 of the Applicant's Response to Question 3.5 of the ExA's First Written Questions (NCC/EX/5) is deleted and is replaced with the following (with the changed figures in bold):

- *The majority of the affected land is agricultural. The largest individual agricultural acquisition covers 45.23ha out of a total Estate of around 400ha. 97% of this is permanent acquisition. The next largest acquisitions are **20.13ha** (89% permanent) and **16.05ha** (99% permanent).*
