# Design a new cover for a book

Covers are designed to make us want to pick up the book and start reading straight away

A cover design might include:
- A picture about the story - a character or characters, a scene from the plot or the setting perhaps
- The title
- The author's name
- A blurb - a short description of the book
- Comments or reviews of the book from other authors or famous people
- The name of the publisher
- A barcode
- A price

Blurb

Book reviews and comments

Publishers Logo

Use the template overleaf to design your own cover for a book. Choose a favourite title or story you know well, like a fairy story or a book you have recently read.
The cover you design could be aimed at your own age group or at a younger age group so consider the type of cover that might appeal to you and your friends or younger brothers and sisters.
Before you start have a closer look at a few book covers in the library to get some ideas.
