This page has been left intentionally blank

## **Introduction**

The document contains the Applicant's submission under Regulation 5 of the Infrastructure Planning (Compulsory Acquisition) Regulations 2010 with regard to the compulsory acquisition request in respect of additional land required for the proposed Drayton Lane / Reepham Road 4 arm roundabout modification.

The roundabout proposal was raised in the Second Round of Questions and responded to in Q1.4 and plans included within Appendix A2 to the Applicants Response to Examining Authority's Second Written Questions in Sections 1-3 (Document Ref NCC/EX/52).

At the Issue Specific Hearing on 18 September 2014 the Applicant agreed to proceed to submit the Drayton Lane/Reepham Road roundabout as a modification to the Development Consent Order.

## **1.0 Supplemental Book of Reference**

### **1. SUMMARY**

- 1.1 This document is submitted in relation to the application for a Development Consent Order by Norfolk County Council to the Secretary of State, under the Planning Act 2008.
- 1.2 The application is for the Norfolk County Council (Norwich Northern Distributor Road (A1067 to A47(T))) Order, to grant development consent for the construction of a new highway running west to east, to south, between the A1067 Fakenham Road and the A47 Trunk Road at Postwick, including improvements to the existing highway network to the north and north east of Norwich.
- 1.3 Applicants for Development Consent Orders are required by Regulations 5(2)(d) and 7 of the Infrastructure Planning (Applications Prescribed Forms and Procedure) Regulations 2009 (the Regulations) to provide a Book of Reference as part of their application.
- 1.4 This Supplemental Book of Reference is required to accompany the submission made under regulation 5 of The Infrastructure Planning (Compulsory Acquisition) Regulations 2010 and lists the additional plots of land over which the Applicant is seeking powers to purchase, or to acquire rights, compulsorily in the Development Consent Order for the scheme. It also lists any rights over the Order land which may be interfered with, suspended or extinguished and those outside the development that might have a statutory claim for compensation due to the use of the development.

## **2.0 INTRODUCTION**

- 2.1 The Supplemental Book of Reference should be read in conjunction with the Supplemental Land Plan.
- 2.2 The Application Land Plans (Document Ref 2.2) and Book of Reference (Document Ref 4.3) adopt a plot numbering system which includes a reference to the relevant sheet of the Land Plans. As this Supplemental Book of Reference relates to the area covered by Sheet 4 of 12 a numbering system linked to this general approach has been adopted. The land included within this proposed additional land includes a small area of land which was included in the original DCO Application, but which was removed in the design change made to the Drayton Lane / Reepham Road junction post submission (Document Ref 5.13). Whilst included in the DCO Application, as it has since been removed (and this change has been accepted into the Examination by the Examining Authority), it has been included so as to ensure that all parties are clear that it is now to be included again.
- 2.3 The Supplemental Book of Reference contains five Parts, which are described below.

## **3.0 DESCRIPTION**

- 3.1 Part 1: Persons within Category 1 and 2  
Contains the names and addresses for service of persons within Categories 1 and 2 (7(1)(a) of the Regulations).  
A person is within Category 1 if the Applicant, after making diligent inquiry, knows that the person is an owner, lessee, tenant (whatever the tenancy period) or occupier of the land.  
A person is within Category 2 if the Applicant, after making diligent inquiry, knows that the person has an interest in the land, has the power to sell and convey the land, or to release the land.

### 3.2 Part 2: Persons within Category 3

Contains the names and addresses for service of persons within Category 3 (7(1)(b) of the Regulations).

A person is within Category 3 if the applicant thinks that, if the order sought by the application were to be made and fully implemented, the person would or might be entitled –

- (a) as a result of the implementing of the order;
- (b) as a result of the order having been implemented; or
- (c) as a result of use of the land once the order has been implemented to make a “relevant claim”.

A “relevant claim” means a claim under section 10 of the Compulsory Purchase Act 1965, part 1 of the Land Compensation Act 1973 or section 152(3) of the Planning Act 2008.

There are no entries in this part of the Supplemental Book of Reference.

### 3.3 Part 3: Existing Rights

Contains the names of all those entitled to enjoy easements or other private rights over land which it is proposed shall be extinguished, suspended or interfered with (7(1)(c) of the Regulations).

### 3.4 Part 4: Crown Land

Specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which the application is being made (7(1)(d) of the Regulations).

There are no entries in this part of the Supplemental Book of Reference.

### 3.5 Part 5: Special Category Land

Specifies land the acquisition of which is -

- (i) subject to special parliamentary procedure;
- (ii) special category land (forming part of a common or open space, National Trust land or fuel or field garden allotment); or

(iii) replacement land.

There are no entries in this part of the Supplemental Book of Reference.

**PART 1:**

Names and addresses for service of each person within Categories 1 and 2 of Section 57 of the Planning Act 2008

## Qualifying persons under regulation 7(1)(a) of the Infrastructure Planning (Applications: Prescribed Forms and Procedures) Regulations 2009

		CATEGORY 1 Owner, Lessee, Tenant (whatever the tenancy period), or Occupier				CATEGORY 2 Person interested in the land, has the power to sell and convey the land, or to release the land

	No entries		

## **2.0 Supplemental Land Plan**

This document is submitted in relation to the application for a Development Consent Order by Norfolk County Council to the Secretary of State, under the Planning Act 2008.

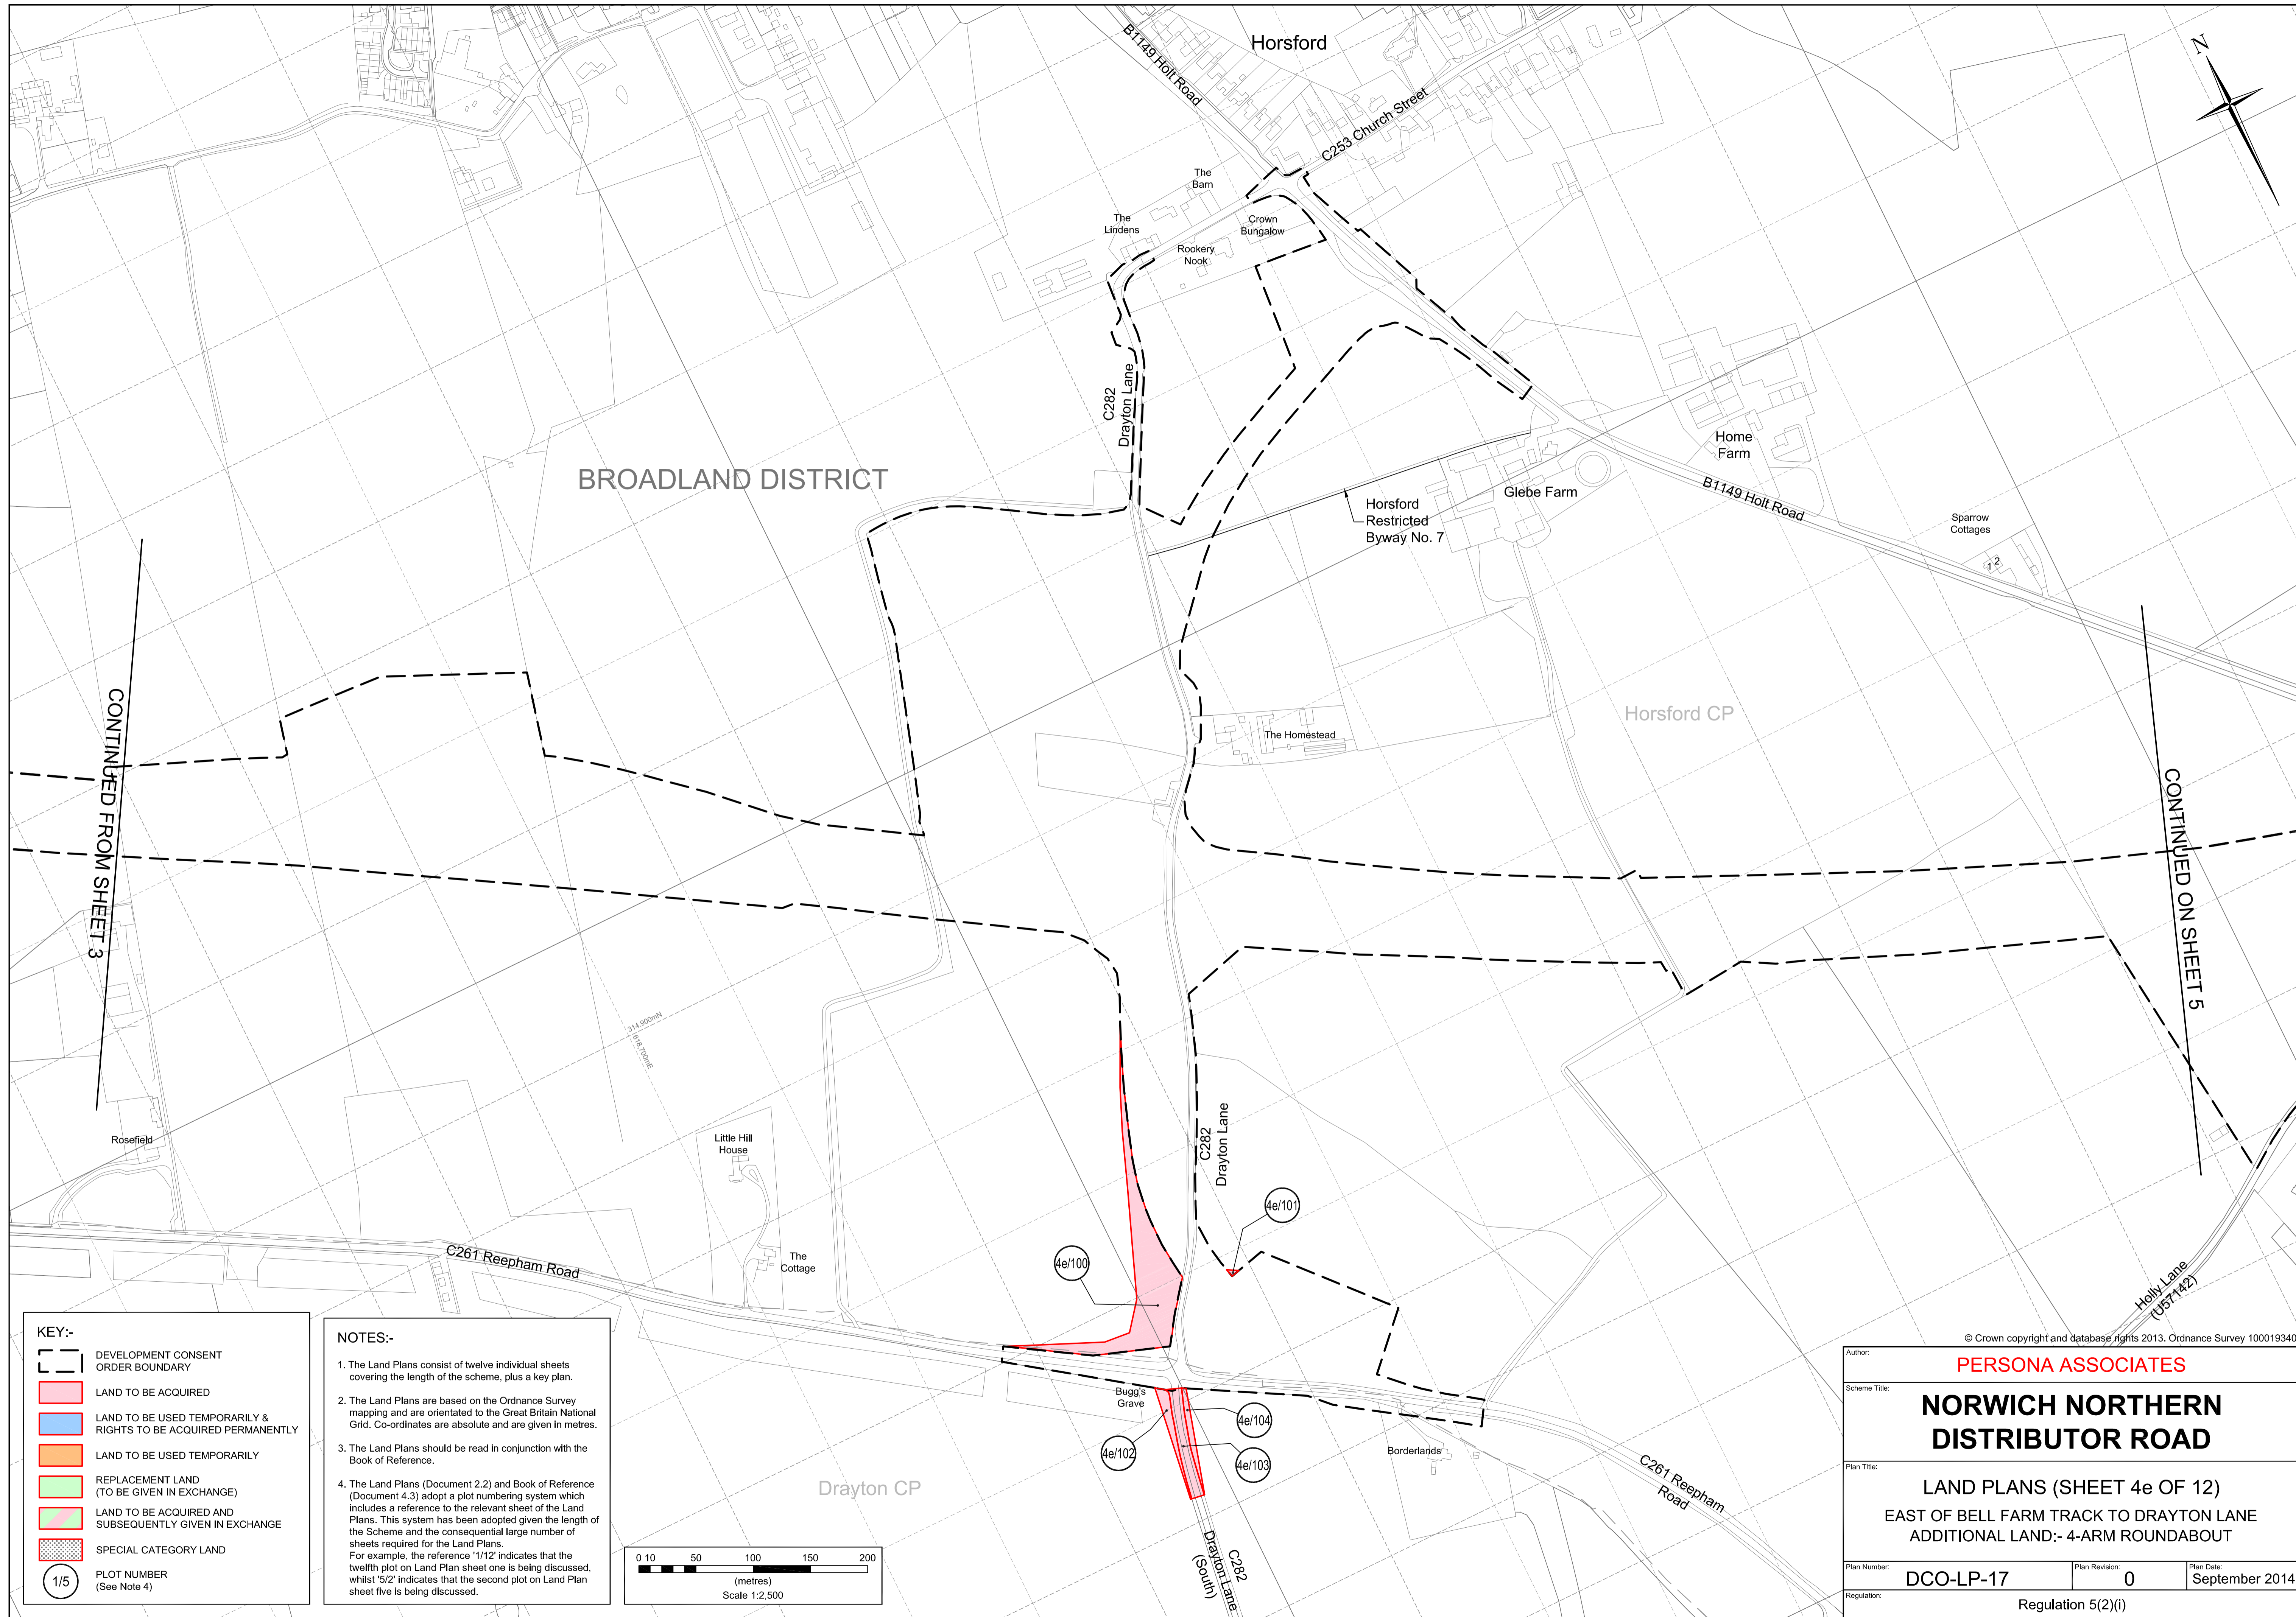

- 1.2 The application is for the Norfolk County Council (Norwich Northern Distributor Road (A1067 to A47(T))) Order, to grant development consent for the construction of a new highway running west to east, to south, between the A1067 Fakenham Road and the A47 Trunk Road at Postwick, including improvements to the existing highway network to the north and north east of Norwich.

A supplemental Land Plan is required to accompany the submission made under regulation 5 of The Infrastructure Planning (Compulsory Acquisition) Regulations 2010.

The Application Land Plans (Document Ref 2.2) and Book of Reference (Document Ref 4.3) adopt a plot numbering system which includes a reference to the relevant sheet of the Land Plans.

### SCHEDULE OF PLANS

Drawing No.	Drawing Title	Revision
DCO-LP-17	Land Plans (Sheet 4a of 12)  East of Bell Farm Track to Drayton Lane	0

**KEY:-**

- DEVELOPMENT CONSENT ORDER BOUNDARY
- LAND TO BE ACQUIRED
- LAND TO BE USED TEMPORARILY & RIGHTS TO BE ACQUIRED PERMANENTLY
- LAND TO BE USED TEMPORARILY
- REPLACEMENT LAND (TO BE GIVEN IN EXCHANGE)
- LAND TO BE ACQUIRED AND SUBSEQUENTLY GIVEN IN EXCHANGE
- SPECIAL CATEGORY LAND
- PLOT NUMBER (See Note 4)

**NOTES:-**

1. The Land Plans consist of twelve individual sheets covering the length of the scheme, plus a key plan.
2. The Land Plans are based on the Ordnance Survey mapping and are orientated to the Great Britain National Grid. Co-ordinates are absolute and are given in metres.
3. The Land Plans should be read in conjunction with the Book of Reference.
4. The Land Plans (Document 2.2) and Book of Reference (Document 4.3) adopt a plot numbering system which includes a reference to the relevant sheet of the Land Plans. This system has been adopted given the length of the Scheme and the consequential large number of sheets required for the Land Plans. For example, the reference '1/12' indicates that the twelfth plot on Land Plan sheet one is being discussed, whilst '5/2' indicates that the second plot on Land Plan sheet five is being discussed.

### **3.0 Statement of Reasons**

A Statement of Reasons (Document Ref 4.1) was included within the application made by Norfolk County Council ('NCC') to the Secretary of State for Transport under the Planning Act 2008 ('PA 2008'). The application is for the Norfolk County Council (Norwich Northern Distributor Road (A1067 to A47(T))) Order ('the DCO').

A supplemental Statement of Reasons is required to accompany the submission made under Requirement 5 of The Infrastructure Planning (Compulsory Acquisition) Regulations 2010.

Given the minor nature of the modification the Applicant is content that the details of the application Statement of Reasons (Document Ref 4.1) remain relevant for this submission.

Corresponding versions of Appendix 1 and Appendix 2 of that document are included with this submission to detail the reasons for the additional land and progress on obtaining consent for the inclusion of this land within the Development Consent Order and compulsory acquisition.

## **Appendix 1: Details of the purpose in seeking acquisition powers**

1. The specific purposes for which each plot of land subject to compulsory purchase powers is required are set out in Tables 1 and 1A below. The first column of these tables uses the plot numbers shown in the Supplemental Book of Reference (Section 1) and on the Land Plan (Section 2). The second column of the tables refers to the works as described in Schedule 1 of the DCO (Application Document Ref 3.1) and as shown on the Works Plans (Application Document Reference 2.3).
2. Tables 1 and 1A detail the additional land that is to be acquired freehold by the Applicant. The purpose of acquiring the land referred to in Table 1 is to enable the Applicant to construct on that land the permanent works, described in Schedule 1 of the DCO. The two tables list the same plot numbers: Table 1 lists them by Work Number and Table 1A by the use to which they will be put. The terms used in the second column of Table 1A are explained at the end of Table 1A.

**TABLE 1**

<b>Acquisition of Land</b>	
<b>No on Land Plans</b>	<b>Purpose for which land is required</b>
4e/100, 4e/101, 4e/102, 4e/103 and 4e/104	Work No.7

**TABLE 1A**

<b>Acquisition of Land</b>	
<b>No on Land Plans</b>	<b>Purpose for which land is required</b>
4e/100	Required for a) New highway (Non-NDR) b) Mitigation / landscaping works
4e/101	Required for new drainage lagoon
4e/102 and 4e/104,	Required for new highway (Non –

	NDR)
4e/103	Required for re-use of existing public highway for Non – NDR alignment

In Table 1A above:

**“Mitigation / Landscaping”** means areas of earth bunds and areas of existing woodland or woodland, grassland and scrubland creation.

**“New highway (Non - NDR)”** means areas of new carriageway that do not form part of either the NDR Alignment or A47(T) Alignment, as described in the Application Statement Of Reasons (Document Ref 4.1). In this instance it relates to improvements to side roads connecting into the NDR Alignment at Drayton Lane.

**“Drainage Lagoon”** means areas included within the proposed new lagoons.

**“Re-use of existing public highway for Non – NDR Alignment”** means areas of existing public highway land, which will remain as public highway, but will not be part of either the NDR Alignment or the A47(T) Alignment, as described in the Application Statement Of Reasons (Document Ref 4.1).

---

## Appendix 2

---

### **Negotiations with owners of interests in additional land areas**

## **Part 1: Overview**

This Appendix provides a summary of the current position in the Applicant's negotiations with each of the affected land owners with regard to obtaining consent for the inclusion of the additional land within the Development Consent Order and compulsory acquisition.

Although negotiations are ongoing with all persons with an interest in land affected by the Scheme, the Applicant has concluded that acquisition by agreement will not occur in all cases or within the necessary timescales to ensure that the programme for the construction of the Scheme is met.

The Applicant remains open to acquiring the required interests in the land by agreement and negotiations with this objective are ongoing.

## **Part 2: Landowner Interest Details**

### **Plot 4e/100**

Comprises agricultural land. west of the C282 Drayton Lane and north of the C261 Reepham Road.

This plot is owned by Norwich School and tenanted by Drayton Farms Ltd.

The land is required for the Scheme to be developed as part of the new Drayton Lane link road, Drayton Lane/Reepham Road Roundabout and for environmental mitigation measures.

Negotiations are ongoing with the landowner and tenant and both parties have confirmed their agreement to the inclusion of this land within the Development Consent order and compulsory acquisition.

### **Plot 4e/101**

Comprises agricultural land. east of the C282 Drayton Lane and north of the C261 Reepham Road

The land is owned by Mrs R Foley and tenanted by D N C Farms Limited.

The land is required for the Scheme for the construction of a new drainage lagoon.

Negotiations are ongoing with the landowner and tenant and both parties have confirmed their agreement to the inclusion of this land within the Development Consent order and compulsory acquisition.

### **Plots 4e/102 and 4e104**

Comprises two areas of agricultural land either side of the C282 Drayton Lane south of the C261 Reepham Road.

These plots are owned and occupied by Drayton Farms Ltd. In respect of Plot 4e/102 the mines and minerals are reserved to the Church Commissioners for England.

The land is required for the Scheme to be developed as part of the Drayton Lane/Reepham Road Roundabout alignment.

Negotiations are ongoing with the landowner. Both the landowner and Church Commissioners have confirmed their agreement to the inclusion of their interests within the Development Consent order and compulsory acquisition.

Plot 4e/102 is subject to rights in favour of two parties for use of an irrigation pipeline. These parties consent to the inclusion of their interests has not yet been obtained.

Plot 4e/102 is also subject to a restrictive covenant but this does not constitute an "interest in land" requiring consent to inclusion in the Development Consent order and compulsory acquisition.

#### **Plots 4e/103**

Comprises part of the current alignment of the C282 Drayton Lane, over which the Applicant enjoys highway rights.

As landowner on either side of the road Drayton Farms Limited is the presumed owner of any subsoil interest in this plot.

As stated in paragraph 4.4 above Drayton Farms Limited have confirmed their consent to their interests being included in the Development Consent Order and compulsory acquisition.

Both the owner and access right holders have appointed surveyors to act on their behalf and negotiations are ongoing with regard to acquiring their interests.

## **4.0 Funding Statement**

A Funding Statement (Document Ref 4.2) was included within the application made by Norfolk County Council ('NCC') to the Secretary of State for Transport under the Planning Act 2008 ('PA 2008'). The application is for the Norfolk County Council (Norwich Northern Distributor Road (A1067 to A47(T))) Order ('the DCO').

A supplemental Funding Statement is required to accompany the submission made under Requirement 5 of The Infrastructure Planning (Compulsory Acquisition) Regulations 2010.

Given the minor nature of the modification the Applicant is content that the details of the application Funding Statement (Document Ref 4.2) remains relevant for this submission.

## Draft Development Consent Order Including Text for Reepham Road / Drayton Lane 4 Arm Roundabout

---

Planning Act 2008

*PINS Reference Number: TR010015*

*Document Reference: Appendix A*

*Author: Norfolk County Council*

Revision	Date	Description
1	23 September 2014	Reepham Road/Drayton Lane 4 arm roundabout variant for consultation

Page not used.

## **INTRODUCTION**

This document is Norfolk County Council's draft of the development consent order (DCO) produced for the purposes of consultation under the Infrastructure Planning (Compulsory Acquisition) Regulations 2010. It shows – in highlight text – the amendments required to the draft DCO in order to be able to incorporate the change at the Reepham Road / Drayton Lane junction to a 4 arm roundabout.

Changes are required to Schedule 1 (Authorised development), Schedule 2 (Requirements), Schedule 3 (Streets subject to permanent alteration of layout) and Schedule 6 (Streets to be stopped up).

This information has been previously submitted to the Examining Authority in Document Ref NCC/EX/52 Applicant's response to Second Written Questions.

#### CONTENTS

##### PART 1

##### PRELIMINARY

1. Citation and commencement
2. Interpretation

##### PART 2

##### PRINCIPAL POWERS

3. Development consent etc. granted by the Order
4. Maintenance of authorised development
5. Limits of deviation
6. Benefit of the Order
7. Consent to transfer benefit of the Order

##### PART 3

##### STREETS

8. Power to alter layout, etc., of streets
9. Street works
10. Construction and maintenance of new, altered or diverted streets and other structures
11. Classification of roads
12. Stopping up of streets and private accesses
13. Public rights of way
14. Temporary prohibition or restriction of use of streets
15. Access to site during construction
16. Agreements with street authorities

##### PART 4

##### SUPPLEMENTAL POWERS

17. Discharge of water
18. Protective work to buildings
19. Authority to survey and investigate the land

## PART 5

### POWERS OF ACQUISITION

20. Compulsory acquisition of land
21. Compulsory acquisition of land – incorporation of the mineral code
22. Power to override easements and other rights
23. Time limit for exercise of authority to acquire land compulsory
24. Compulsory acquisition of rights
25. Private rights
26. Application of the Compulsory Purchase (Vesting Declarations) Act 1981
27. Acquisition of subsoil only
28. Acquisition of part of certain properties
29. Rights under or over streets
30. Temporary use of land for carrying out the authorised development
31. Temporary use of land for maintaining authorised development
32. Special category land
33. Statutory undertakers
34. Apparatus and rights of statutory undertakers in stopped up streets
35. Recovery of costs of new connections

## PART 6

### OPERATIONS

36. Felling or lopping of trees

## PART 7

### MISCELLANEOUS AND GENERAL

37. Application of landlord and tenant law
38. Operational land for purposes of the 1990 Act
39. Defence to proceedings in respect of statutory nuisance
40. Protective Provisions
41. Certification of plans etc.
42. Service of notices
43. Traffic Regulation
44. Prohibition of entry, prohibition of motor vehicles, weight restrictions and speed limits
45. Procedure in relation to certain approvals etc.
46. Arbitration

- SCHEDULE 1 - Authorised development
- SCHEDULE 2 - Requirements
- SCHEDULE 3 - Streets subject to permanent alteration of layout
- SCHEDULE 4 - Streets subject to street works

- SCHEDULE 13 - Protective provisions
- PART 1 - For the protection of railway interests
- PART 2 - For the protection of National Grid
- PART 3 - For the protection of Anglian Water
- PART 4 - For the protection of electricity suppliers
- PART 5 - For the protection of operators of electronic communications code operators
- SCHEDULE 14 - Speed limits and traffic regulation measures
- PART 1 - Speed limits
- PART 2 - Traffic regulation measures
- PART 3 - Speed limit revocations and variations
- PART 4 - Weight limit variations

An application has been made to the Secretary of State in accordance with the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 and Part 5 of the 2008 Act for an Order under sections 37, 114, 115, 117(4), 120 and 122 of the 2008 Act.

The application was examined by a panel (appointed by the Secretary of State) in accordance with Chapter 4 of Part 6 of the 2008 Act, and the Infrastructure Planning (Examination Procedure) Rules 2010.

The panel, having considered the representations made and not withdrawn and the application together with accompanying documents, in accordance with section 83 of the 2008 Act, has submitted a report to the Secretary of State.

The Secretary of State, having considered the representations made and not withdrawn, and the report of the appointed panel, has decided to make an Order granting development consent for the development described in the application [with modifications which in the opinion of the Secretary of State do not make any substantial change to the proposals comprised in the application].

The Secretary of State is satisfied, in accordance with section 131(5) of the 2008 Act, that the fuel allotment land is required for the widening or drainage of an existing highway or partly for the widening and partly for the drainage of an existing highway, and that the giving of exchange land is unnecessary, whether in the interests of persons, if any, entitled to rights of common or other rights or in the interests of the public.

The Secretary of State is satisfied –

- (a) in accordance with section 131(3)(a) and section 131(4) of the 2008 Act, that the Marriott's Way replacement open space land will be given for the Marriott's Way open space land and that such replacement land will vest in the prospective seller and subject to the same rights, trusts and incidents as attach to the Marriott's Way open space land; and
- (b) in accordance with section 132(2)(a) and section 132(3) of the 2008 Act, that that part of the Marriott's Way open space land over which rights are to be compulsorily acquired (being plots 2/26, 2/28 and 2/29 in the book of reference and which are so numbered and shown delineated and coloured blue and stippled black on the land plans) when burdened with the Order right and will be no less advantageous than it was before to the following persons –
  - (i) the persons in whom it is vested,
  - (ii) other persons, if any, entitled to rights of common or other rights, and
  - (iii) the public.

The Secretary of State, in exercise of the powers conferred by sections 114, 115, 120 and 122 of, and paragraphs 1 to 3, 10 to 17, 19, 20, 23, 26, 36 and 37 of Part 1 of Schedule 5 to, the 2008 Act, makes the following Order-

## PART 1

### PRELIMINARY

#### **Citation and commencement**

1. This Order may be cited as the Norfolk County Council (Norwich Northern Distributor Road (A1067 to A47(T))) Order 201[●] and comes into force on [●] 201[●].

#### **Interpretation**

2.—(1) In this Order—

“the 1961 Act” means the Land Compensation Act 1961;

“the 1965 Act” means the Compulsory Purchase Act 1965;

“the 1980 Act” means the Highways Act 1980;

“the 1984 Act” means the Road Traffic Regulation Act 1984;

“the 1990 Act” means the Town and Country Planning Act 1990;

“the 1991 Act” means the New Roads and Street Works Act 1991;

“the 2008 Act” means the Planning Act 2008;

"address" includes any number or address used for the purposes of electronic transmission;

“Anglian Water” means Anglian Water Services Limited (Company No. 02366656) whose registered office is at Anglian House, Ambury Road, Huntingdon, Cambridgeshire PE29 3NZ;

“apparatus” has the same meaning as in Part 3 of the 1991 Act;

“authorised development” means the development described in Schedule 1 (authorised development) and any other development authorised by this Order, which is development within the meaning of section 32 of the 2008 Act;

“the book of reference” means the book of reference certified by the Secretary of State as the book of reference for the purposes of this Order;

"bridleway" has the same meaning as in the 1980 Act;

“building” includes any structure or erection or any part of a building, structure or erection;

“carriageway” has the same meaning as in the 1980 Act;

“compulsory acquisition notice” means a notice served in accordance with section 134 of the 2008 Act;

“cycle track” has the same meaning as in the 1980 Act;

“electronic transmission” means a communication transmitted –

(a) by means of an electronic communications network; or

(b) by other means but while in electronic form;

“environmental impact assessment” means the assessment of the environmental impact of the authorised development, the findings of which are recorded in the environmental statement;

“the environmental statement” means the environmental statement submitted under regulation 5(2)(a) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 and certified as such by the Secretary of State for the purposes of this Order;

“footpath” and “footway” have the same meaning as in the 1980 Act;

“fuel allotment land” means that land numbered as plot 10/45 in the book of reference and which is so numbered and shown delineated, and coloured pink and stippled black on the land plan;

“highway” and “highway authority” have the same meaning as in the 1980 Act;

“the highway classification plans” means the plans certified as the highway classification plans by the Secretary of State for the purposes of this Order;

“the land plans” means the plans certified as the land plans by the Secretary of State for the purposes of this Order;

“the landscaping plans” means the plans certified as the landscaping plans by the Secretary of State for the purposes of this Order;

"limits of deviation" means the limits of deviation for each numbered work shown on the works plans and as set out in article 5;

“maintain” includes inspect, repair, adjust, alter, remove, clear, refurbish, reconstruct and improve, and any derivative of “maintain” is to be construed accordingly;

“Marriott’s Way open space land” means:

(a) plot 2/27 in the book of reference and which is so numbered and shown delineated and hatched pink on the land plans;

(b) plots 2/23, 2/25, 2/34 and 2/37 in the book of reference and which are so numbered and shown delineated and hatched pink and green and stippled black on the land plans; and

(c) plots 2/26, 2/28 and 2/29 in the book of reference and which are so numbered and shown delineated and coloured blue and stippled black on the land plans;

"Marriott's Way replacement open space land" means:

(a) that land numbered as plot 2/27a in the book of reference and which is so numbered and shown delineated and coloured green and stippled black on the land plan;

(b) plots 2/23, 2/25, 2/34 and 2/37 in the book of reference and which are so numbered and shown delineated and hatched pink and green and stippled black on the land plans; and

(c) plots 2/26, 2/28 and 2/29 in the book of reference and which are so numbered and shown delineated and coloured blue and stippled black on the land plans;

"National Grid" means National Grid Gas plc (Company No. 02006000) whose registered office is at 1-3 Strand, London, WC2N 5EH;

"the NDR classified road" means the highway which the undertaker proposes to construct, as the A1270 Principal Road, as described in Part 2 of Schedule 5 to this Order;

"Network Rail" means Network Rail Infrastructure Limited (Company No. 02904587) whose registered office is at Kings Place, 90 York Way, London, N1 9AG;

"numbered work" means each numbered work comprised in the authorised development and to be located within the corresponding numbered area shown on the works plan and "work number" is to be construed accordingly;

"Order land" means the land shown on the land plans which is within the limits of land to be acquired or used permanently or temporarily and described in the book of reference;

"the Order limits" means the limits shown on and described as "The Development Consent Order (DCO) Boundary" on the works plans and within which the authorised development may be carried out;

"owner", in relation to land, has the same meaning as in section 7 of the Acquisition of Land Act 1981;

"relevant planning authority" means the County planning authority for the area in which the land to which the provisions of the Order apply is situated;

"requirements" means those matters set out in Schedule 2 to this Order;

"restricted byway" has the same meaning as in Part 2 of the Countryside and Rights of Way Act 2000;

"Secretary of State" means the Secretary of State for Transport;

"the sections" means the sections shown on the plans certified as the section plans by the Secretary of State for the purposes of this Order;

"statutory undertaker" means any person falling within section 127(8) of the 2008 Act;

"street" means a street within the meaning of section 48 of the 1991 Act, together with land on the verge of a street or between two carriageways, and includes any footpath and "street" includes any part of a street;

"street authority", in relation to a street, has the same meaning as in Part 3 of the 1991 Act;

"the street plans" means the plans certified as the street plans by the Secretary of State for the purposes of this Order;

"tree preservation order" has the meaning given in section 198 of the 1990 Act;

"the tribunal" means the Lands Chamber of the Upper Tribunal;

"trunk road" means a highway which is a trunk road by virtue of—

- (a) section 10 or 19(1) of the 1980 Act; or
- (b) an order or direction under section 10 of the 1980 Act; or
- (c) an order granting development consent; or
- (d) any other enactment;

“undertaker” means the person who has the benefit of this Order in accordance with article 6;

“watercourse” includes all rivers, streams, ditches, drains, canals, cuts, culverts, dykes, sluices, sewers and passages through which water flows except a public sewer or drain; and

“the works plans” means the plans certified as the works plans by the Secretary of State for the purposes of this Order.

(2) References in this Order to rights over land include references to rights to do or to place and maintain anything in, on or under land or in the air-space above its surface.

(3) All distances, directions and lengths referred to in this Order are approximate and distances between points on a work comprised in the authorised development are taken to be measured along that work.

(4) All areas described in square metres in the book of reference are approximate.

(5) References in this Order to numbered works are references to the works as numbered in Schedule 1.

(6) References in this Order to points identified by letters or numbers are to be construed as references to points so lettered or numbered on the works plans, the land plans or the street plans (as specified in each case).

(7) The expression "includes" is to be construed without limitation.

(8) References to plots in this Order are references to the plots shown on the land plans and detailed in the book of reference.

## PART 2

### PRINCIPAL POWERS

#### **Development consent etc. granted by the Order**

**3.—**(1) Subject to the provisions of this Order and to the requirements, the undertaker is granted development consent for the authorised development to be carried out within the Order limits.

(2) Subject to article 5, the numbered works must be constructed in the lines or in the situations shown on the works plans or within the limits of deviation and, subject to the provisions of the requirements, in accordance with the drawings specified in the requirements.

(3) In constructing or maintaining the authorised development, the undertaker may deviate from the lines or situations shown on the works plans within the limits of deviation.

#### **Maintenance of authorised development**

**4.—**(1) Except to the extent that this Order or an agreement made under this Order provides otherwise and subject to the provisions of this Order and to the requirements, the undertaker is authorised to and may at any time maintain the authorised development.

(2) Maintenance includes, so far as is necessary or expedient for the purposes of, or purposes ancillary to, the construction or operation of the authorised development, carrying out works to alter the position of apparatus below ground level, including mains, sewers, drains and cables including below ground structures associated with that apparatus within the Order limits.

(3) This article only authorises the carrying out of maintenance works within the Order limits.

### Limits of deviation

5.—(1) In carrying out the authorised development, the undertaker may deviate vertically and laterally within the limits of deviation specified in paragraphs (2) and (3) below.

(2) Except as provided for specifically in paragraph (3) below, the undertaker may deviate vertically and laterally within the following limits of deviation:

<i>(1)</i> <i>Numbered work</i>	<i>(2)</i> <i>Elements of numbered work to which limits apply</i>	<i>(3)</i> <i>Upwards vertical limit of deviation</i>	<i>(4)</i> <i>Downwards vertical limit of deviation</i>	<i>(5)</i> <i>Horizontal limit of deviation</i>
Work numbers 1 to 24 (inclusive)	Carriageway and adjacent verges, footways, footpaths, bridleways and cycle tracks	Zero	-0.25 metres	Within Order limits
Work numbers 1 to 24 (inclusive)	Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks)	+0.25 metres	Zero	Within Order limits

(3) The undertaker may deviate vertically within the following limits of deviation:

<i>(1)</i> <i>Numbered work</i>	<i>(2)</i> <i>Elements of numbered work to which limits apply</i>	<i>(3)</i> <i>Vertical limit of deviation</i>
Work numbers 2, 3 and 4	<p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks in work numbers 2 and 4 that are within 550 metres of the centre point of work number 3(ii) (Fir Covert Roundabout).</p> <p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within work number 3.</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) in work numbers 2 and 4 that are within 550 metres of the centre point of work number 3(ii).</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways</p>	+ or - 0.5 metres

<i>(1)</i> <i>Numbered work</i>	<i>(2)</i> <i>Elements of numbered work to which limits apply</i>	<i>(3)</i> <i>Vertical limit of deviation</i>
	and cycle tracks) within work number 3.	
Work numbers 4, 5 and 6	<p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks in work numbers 4 and 6 that is within 250 metres of the centre point of work number 5(ii) (Reepham Round Roundabout).</p> <p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within work number 5.</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) in work numbers 4 and 6 that are within 250 metres of the centre point of work number 5(ii).</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) within work number 5.</p>	+ or - 0.5 metres
Work numbers 6, 7 and 8	<p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks in work numbers 6 and 8 that is within 250 metres of the centre point of work number 7(ii) (Drayton Lane Roundabout).</p> <p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within work number 7.</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) in work numbers 6 and 8 that are within 250 metres of the centre point of work number 7(ii).</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) within work number 7.</p>	+ or - 0.5 metres
Work numbers 10, 11 and 12	<p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks in work numbers 10 and 12 that is within 550 metres of the centre point of work number 11(ii) (Airport Roundabout).</p> <p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within work number 11.</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) in work numbers 10 and 12</p>	+ or - 0.5 metres

<i>(1)</i> <i>Numbered work</i>	<i>(2)</i> <i>Elements of numbered work to which limits apply</i>	<i>(3)</i> <i>Vertical limit of deviation</i>
	<p>that are within 550 metres of the centre point of work number 11(ii).</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) within work number 11.</p>	
<p>Work numbers 14, 15 and 16</p>	<p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks in work numbers 14 and 16 that is within 250 metres of the centre point of work number 15(ii) (Wroxham Road Roundabout).</p> <p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within work number 15.</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) in work numbers 14 and 16 that are within 250 metres of the centre point of work number 15(ii).</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) within work number 15.</p>	<p>+ or - 0.5 metres</p>
<p>Work numbers 16, 17 and 18</p>	<p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks in work numbers 16 and 18 that is within 250 metres of the centre point of work number 17(ii) (Salhouse Road Roundabout).</p> <p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within work number 17.</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) in work numbers 16 and 18 that are within 250 metres of the centre point of work number 17(ii).</p> <p>Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) within work number 17.</p>	<p>+ or - 0.5 metres</p>
<p>Work number 18</p>	<p>Roundabout circulatory carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks in work number 18(iii) (Plumstead Road Roundabout North).</p> <p>Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within 120 metres of the centre point of Plumstead</p>	<p>+ or - 0.5 metres</p>

<i>(1)</i> <i>Numbered work</i>	<i>(2)</i> <i>Elements of numbered work to which limits apply</i>	<i>(3)</i> <i>Vertical limit of deviation</i>
	Road Roundabout within work number 18(iii). Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) in work number 18 within 120 metres of the centre point of Plumstead Road Roundabout within work number 18(iii).	
Work number 21	Roundabout circulatory carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within work number 21(iv) (Postwick North East Roundabout). Carriageway and other non carriageway features such as adjacent verges, footways, footpaths, bridleways and cycle tracks within 135 metres of the centre point of the roundabout within work number 21(iv). Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) within work number 21(iv). Earthworks, bunds and banks (and including any associated footways, footpaths, bridleways and cycle tracks) within 135 metres of the centre point of the roundabout within work number 21(iv).	+ or - 0.5 metres

### **Benefit of the Order**

6.—(1) Subject to paragraph (2) and article 7 (consent to transfer benefit of the Order), the provisions of this Order conferring powers on the undertaker have effect solely for the benefit of Norfolk County Council.

(2) Paragraph (1) does not apply to the following works for which consent is granted by this Order for the benefit of the undertaker and statutory undertakers:

- (a) work number 2(vii); and
- (b) paragraphs (d) and (e) of schedule 1.

### **Consent to transfer benefit of the Order**

7.—(1) The undertaker may—

- (a) transfer to another person (“the transferee”) any or all of the benefit of the provisions of this Order and such related statutory rights as may be agreed in writing between the undertaker and the transferee; or
- (b) grant to another person (“the lessee”) for a period agreed between the undertaker and the lessee any or all of the benefit of the provisions of this Order and such related statutory rights as may be so agreed.

(2) Where an agreement has been made in accordance with paragraph (1) references in this Order to the undertaker, except in paragraph (3), include references to the transferee or the lessee.

(3) The exercise by a person of any benefits or rights conferred in accordance with any transfer or grant under paragraph (1) is subject to the same restrictions, liabilities and obligations as would apply under this Order if those benefits or rights were exercised by the undertaker.

(4) The consent of the Secretary of State is required for the exercise of the powers in paragraph (1) except where the transfer or grant is made to the Secretary of State.

## PART 3 STREETS

### **Power to alter layout, etc., of streets**

8.—(1) The undertaker may for the purposes of the authorised development alter the layout of or carry out any works in the street specified in column (1) of Schedule 3 (streets subject to permanent alteration of layout) in the manner specified in relation to that street in column (2).

(2) Regardless of the specific powers conferred by paragraph (1) but subject to paragraph (3), the undertaker may, for the purposes of constructing and maintaining the authorised development, alter the layout of any street within the Order limits and, without limitation on the scope of this paragraph, the undertaker may—

- (a) increase the width of the carriageway of the street by reducing the width of any kerb, footpath, footway, cycle track or verge within the street;
- (b) alter the level or increase the width or any kerb, footway, cycle track or verge;
- (c) reduce the width of the carriageway of the street; and;
- (d) make and maintain passing place.

(3) The undertaker must restore any street that has been temporarily altered under this article to the reasonable satisfaction of the street authority.

(4) The powers conferred by paragraph (2) must not be exercised without the consent of the street authority.

(5) If a street authority which receives an application for consent under paragraph (4) fails to notify the undertaker of its decision before the end of the period of 28 days beginning with the date on which the application was made, it is deemed to have granted consent.

(6) Paragraphs (3), (4) and (5) do not apply where the undertaker is the street authority for a street in which the works are being carried out.

### **Street works**

9.—(1) The undertaker may, for the purposes of the authorised development, enter on so much of any of the streets specified in Schedule 4 (streets subject to street works) as is within the Order limits and may—

- (a) break up or open the street, or any sewer, drain or tunnel under it;
- (b) tunnel or bore under the street;
- (c) place apparatus in the street;
- (d) maintain apparatus in the street or change its position; and
- (e) execute any works required for or incidental to any works referred to in sub-paragraphs (a), (b), (c) and (d).

(2) Where the undertaker is not the street authority, the provisions of sections 54 to 106 of the 1991 Act apply to any street works carried out under paragraph (1).

(3) The undertaker must restore any street that has been temporarily altered under this article to the reasonable satisfaction of the street authority.

(4) The powers conferred by paragraph (1) must not be exercised without the consent of the street authority, but such consent must not be unreasonably withheld.

### **Construction and maintenance of new, altered or diverted streets and other structures**

**10.**—(1) Subject to paragraph (2) and article 11 (classification of roads), the streets authorised to be constructed, altered or diverted under this Order are to be public highways and are to be maintained by and at the expense of the highway authority.

(2) Where a street which is not and is not intended to be a public highway is constructed, altered or diverted under this Order, the street (or part of the street as the case may be) will, when completed to the reasonable satisfaction of the street authority, unless otherwise agreed, be maintained by and at the expense of the undertaker for a period of 12 months from its completion and at the expiry of that period by and at the expense of the street authority.

(3) In any action against the undertaker in respect of loss or damage resulting from its failure to maintain a street to which paragraph (2) applies, section 58 of the 1980 Act applies as if that street were a highway maintainable at the public expense.

(4) The undertaker must maintain at its expense the following parts of the authorised development:

- (a) the structure of the bridge over the NDR classified road comprised in work number 4(vi);
- (b) the structure and surface of the bridge over the NDR classified road comprised in work number 6(iii); and
- (c) the structure and surface of the bridge over the NDR classified road comprised in work number 16(iv).

### **Classification of roads**

**11.**—(1) From the date on which the undertaker notifies the Secretary of State that the roads described in Part 1 of Schedule 5 (classification of roads) (referred to in this article as “the New A47 Trunk Road Postwick Interchange Slip Roads”) are completed and open for through traffic—

- (a) those roads are classified as trunk roads for the purposes of any enactment or instrument which refers to highways classified as trunk roads; and
- (b) the Secretary of State is highway authority for the New A47 Trunk Road Postwick Interchange Slip Roads.

(2) On the date on which the road described in Part 2 of Schedule 5 is completed and open for traffic is to be classified as the A1270.

(3) On the date on which the road described in Part 4 of Schedule 5 is completed and open for traffic is to be classified as the A140.

(4) Each of the roads described in paragraphs (2) and (3) will, from the respective dates in those paragraphs, be classified -

- (a) as a principal road for the purpose of any enactment or instrument which refers to highways classified as principal roads; and

- (b) as a classified road for the purpose of any enactment or instrument which refers to highways classified as classified roads,

as if such classification had been made under section 12(3) of the 1980 Act.

(5) On the:

- (a) day before the date on which the road described in Part 2 of Schedule 5 is completed and open for traffic, the road described in Part 3 of Schedule 5 is to be removed of its B1149 classified road status and number and is to be an unclassified road; and
- (b) date on which the road described in Part 2 of Schedule 5 is completed and open for traffic, the road described in Part 3 of Schedule 5, is to be classified as the A1270 and is to be classified -
  - (i) as a principal road for the purpose of any enactment or instrument which refers to highways classified as principal roads; and
  - (ii) as a classified road for the purpose of any enactment or instrument which refers to highways classified as classified roads,

as if such classification had been made under section 12(3) of the Highways Act 1980.

(6) On the:

- (a) day before the date on which the road described in (a) of Part 5 of Schedule 5 is completed and open for traffic, the road described in (b) of Part 5 of Schedule 5 is to be removed of its C829 classified road status and number and is to be an unclassified road; and
- (b) date on which the road described in (a) of Part 5 of Schedule 5 is completed and open for traffic both it, and the road described in (b) of Part 5 of Schedule 5, are together to be classified as the A1194 and will be classified -
  - (i) as a principal road for the purpose of any enactment or instrument which refers to highways classified as principal roads; and
  - (ii) as a classified road for the purpose of any enactment or instrument which refers to highways classified as classified roads,

as if such classification had been made under section 12(3) of the Highways Act 1980.

### **Stopping up of streets and private access**

**12.—**(1) Subject to the provisions of this article, the undertaker may, in connection with the carrying out of the authorised development, stop up each of the streets and private access specified in columns (2) and (3) of Parts 1, 2 and 3 of Schedule 6 (streets and private accesses to be stopped up) to the extent specified in column (4) of those Parts of that Schedule.

(2) No street or private accesses specified in columns (2) and (3) of Parts 1 and 2 of Schedule 6 (being a street or private access to be stopped up for which a substitute is to be provided) may be wholly or partly stopped up under this article unless—

- (a) the new street or private access (as applicable) to be substituted for it, which is specified in column (5) of Parts 1 and 2 of Schedule 6, has been completed to the reasonable satisfaction of the street authority and is open for use; or
- (b) a temporary alternative route for the passage of such traffic as could have used the street or private access (as applicable) to be stopped up is first provided and subsequently maintained by the undertaker, to the reasonable satisfaction of the street authority, between the commencement and termination points for the stopping up of the street or private access (as applicable) until the completion and opening of the new street or private access (as applicable) in accordance with sub-paragraph (a).

(3) No street or private access specified in columns (2) and (3) of Part 3 of Schedule 6 (being a street or private access to be stopped up for which no substitute is to be provided) may be wholly or partly

stopped up under this article unless the condition specified in paragraph (4) is satisfied in relation to all the land which abuts on either side of the street or private access (as applicable) to be stopped up.

(4) The condition referred to in paragraph (3) is that—

- (a) the undertaker is in possession of the land; or
- (b) there is no right of access to the land from the street concerned; or
- (c) there is reasonably convenient access to the land otherwise than from the street or private access concerned; or
- (d) the owners and occupiers of the land have agreed to the stopping up.

(5) Where a street or private access has been stopped up under this article—

- (a) all rights of way over or along the street or private access (as applicable) so stopped up are extinguished; and
- (b) the undertaker may appropriate and use for the purposes of the authorised development so much of the site of the street or private access (as applicable) as is bounded on both sides by land owned by the undertaker.

(6) Any person who suffers loss by the suspension or extinguishment of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(7) This article is subject to article 33 (apparatus and rights of statutory undertakers in land acquired or used).

### **Public rights of way**

**13.** (1) Subject to paragraph (2) the undertaker may in connection with the carrying out of the authorised development stop up the sections of the public rights of way, which are each a section of a restricted byway, described in (a) of Parts 1, 2 and 3 of Schedule 7 (public rights of way) and with effect from the date that each of those sections of the public rights of way described in (a) of Parts 1, 2 and 3 of Schedule 7 are physically stopped up by the undertaker in connection with the carrying out of the authorised development, the public rights of way over each of those sections will be extinguished.

(2) If the undertaker stops up the public rights of way described in (a) of Parts 1, 2 and 3 of Schedule 7, it will construct alternative replacement sections of public rights of way, as described in (b) of Parts 1, 2 and 3 of Schedule 7 and with effect from the date of opening of each alternative replacement section of public right of way to the public following the completion of the works relating thereto, public rights of way of that same type, namely of a restricted byway, over each of the alternative sections so constructed will be deemed to be created.

### **Temporary prohibition or restriction of use of streets**

**14.—**(1) The undertaker, during and for the purposes of carrying out the authorised development, may temporarily stop up, alter, divert, prohibit or restrict any street and may for any reasonable time—

- (a) divert the traffic from the street; and
- (b) subject to paragraph (3), prevent all persons from passing along the street.

(2) Without prejudice on the scope of paragraph (1), the undertaker may use any street where the use has been prohibited or restricted under the powers conferred by this article and within the Order limits as a temporary working site.

(3) The undertaker must provide reasonable access for pedestrians going to or from premises abutting a street affected by the temporary stopping up, alteration, diversion prohibition or restriction of a street under this article if there would otherwise be no such access.

(4) Without prejudice to the generality of paragraph (1), the undertaker may temporarily stop up, alter, divert, prohibit or restrict the use of the streets specified in columns (1) and (2) of Schedule 8

(temporary prohibition or restriction of the use of streets) to the extent specified in column (3) of that Schedule.

(5) The undertaker must not temporarily stop up, alter, divert, prohibit or restrict the use of—

- (a) any street specified in paragraph (4) without first consulting the street authority; and
- (b) any other street without the consent of the street authority which may attach reasonable conditions to any consent.

(6) Any person who suffers loss by the suspension of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(7) If a street authority fails to notify the undertaker of its decision within 28 days of receiving an application for consent under paragraph (5)(b) that street authority are deemed to have granted consent.

### **Access to site during construction**

**15.** The undertaker may, for the purposes of the construction of the authorised development—

- (a) form and lay out means of access, or improve existing means of access, in the location specified in columns (1) and (2) of Schedule 9 (construction access to and from works); and
- (b) with the approval of the relevant planning authority after consultation with the highway authority, form and lay out such other means of access or improve existing means of access, at such locations within the Order limits as the undertaker reasonably requires for the purposes of the authorised development.

### **Agreements with street authorities**

**16.—(1)** A street authority and the undertaker may enter into agreements with respect to—

- (a) the construction of any new street including any structure carrying the street;
- (b) the strengthening, improvement, repair or reconstruction of any street under the powers conferred by this Order;
- (c) the maintenance of the structure of any bridge or tunnel carrying a street;
- (d) any stopping up, alteration, diversion, prohibition or restriction (in respect of all cases either temporary or permanent) of a street authorised by this Order; or
- (e) the carrying out in the street of any of the works referred to in article 9(1) (street works).

(2) Such an agreement may, without prejudice to the generality of paragraph (1)—

- (a) make provision for the street authority to carry out any function under this Order which relates to the street in question;
- (b) include an agreement between the undertaker and street authority specifying a reasonable time for the completion of the works; and
- (c) contain such terms as to payment and otherwise as the parties consider appropriate.

## **PART 4**

### **SUPPLEMENTAL POWERS**

#### **Discharge of water**

**17.—(1)** The undertaker may use any watercourse or any public sewer or drain for the drainage of water in connection with the carrying out or maintenance of the authorised development and for that

purpose may lay down, take up and alter pipes and may, on any land within the Order limits, make openings into, and connections with, the watercourse, public sewer or drain subject to obtaining consent as provided for in paragraph (3).

(2) Any dispute arising from the making of connections to or the use of a public sewer or drain by the undertaker pursuant to paragraph (1) is to be determined as if it were a dispute under section 106 of the Water Industry Act 1991 (right to communicate with public sewers).

(3) The undertaker must not discharge any water into any watercourse, public sewer or drain except with the consent of the person to whom it belongs; and such consent may be given subject to such terms and conditions as that person may reasonably impose but such consent must not be unreasonably withheld.

(4) The undertaker must not make any opening into any public sewer or drain except—

- (a) in accordance with plans approved by the person to whom the sewer or drain belongs; and
- (b) where that person has been given the opportunity to supervise the making of the opening.

(5) Except as authorised under this Order, the undertaker must not, in carrying out or maintaining works, damage or interfere with the bed or banks of any watercourse forming part of a main river.

(6) The undertaker must take such steps as are reasonably practicable to secure that any water discharged into a watercourse or public sewer or drain pursuant to this article is as free as may be practicable from gravel, soil or other solid substance, oil or matter in suspension.

(7) This article does not authorise the entry into controlled waters of any matter whose entry or discharge into controlled waters is prohibited by section 85(1), (2) or (3) of the Water Resources Act 1991 (offences of polluting water).

(8) In this article—

- (a) “public sewer or drain” means a sewer or drain which belongs to the Homes and Communities Agency, the Environment Agency, a harbour authority within the meaning of section 57 of the Harbours Act 1964 (interpretation), an internal drainage board, a joint planning board, a local authority, a National Park Authority, a sewerage undertaker or an urban development corporation; and
- (b) other expressions, excluding watercourse, used both in this article and in the Water Resources Act 1991 have the same meaning as in that Act.

### **Protective work to buildings**

**18.—**(1) Subject to the following provisions of this article, the undertaker may at its own expense carry out such protective works to any building lying within the Order limits as the undertaker considers necessary or expedient.

(2) Protective works may be carried out—

- (a) at any time before or during the carrying out in the vicinity of the building of any part of the authorised development; or
- (b) after the completion of that part of the authorised development in the vicinity of the building at any time up to the end of the period of 5 years beginning with the day on which that part of the authorised development is first opened for use.

(3) For the purpose of determining how the functions under this article are to be exercised the undertaker may enter and survey any building falling within paragraph (1) and any land within its curtilage.

(4) For the purpose of carrying out protective works under this article to a building the undertaker may (subject to paragraphs (5) and (6))—

- (a) enter the building and any land within its curtilage; and

- (b) where the works cannot be carried out reasonably conveniently without entering land which is adjacent to the building but outside its curtilage, enter the adjacent land (but not any building erected on it).

(5) Before exercising—

- (a) a right under paragraph (1) to carry out protective works to a building;
- (b) a right under paragraph (3) to enter a building and land within its curtilage;
- (c) a right under paragraph (4)(a) to enter a building and land within its curtilage; or
- (d) a right under paragraph (4)(b) to enter land,

the undertaker must, except in the case of emergency, serve on the owners and occupiers of the building or land not less than 14 days' notice of its intention to exercise that right and, in a case falling within sub-paragraph (a) or (c), specifying the protective works proposed to be carried out.

(6) Where a notice is served under paragraph (5)(a), (c) or (d), the owner or occupier of the building or land concerned may, by serving a counter-notice within the period of 10 days beginning with the day on which the notice was served, require the question as to whether it is necessary or expedient to carry out the protective works or to enter the building or land to be referred to arbitration under article 47 (arbitration).

(7) The undertaker must compensate the owners and occupiers of any building or land in relation to which rights under this article have been exercised for any loss or damage arising to them by reason of the exercise of those rights.

(8) Where—

- (a) protective works are carried out under this article to a building; and
- (b) within the period of 5 years beginning with the day on which the part of the authorised development carried out in the vicinity of the building is first opened for use it appears that the protective works are inadequate to protect the building against damage caused by the carrying out or use of that part of the authorised development,

the undertaker must compensate the owners and occupiers of the building for any loss or damage sustained by them.

(9) Nothing in this article relieves the undertaker from any liability to pay compensation under section 10(2) of the 1965 Act (compensation for injurious affection).

(10) Any compensation payable under paragraph (7) or (8) is determined, in case of dispute, under Part 1 of the 1961 Act (determination of questions of disputed compensation).

(11) In this article “protective works” in relation to a building means—

- (a) underpinning, strengthening and any other works the purpose of which is to prevent damage which may be caused to the building by the carrying out, maintenance or use of the authorised development; and
- (b) any works the purpose of which is to remedy any damage which has been caused to the building by the carrying out, maintenance or use of the authorised development.

### **Authority to survey and investigate the land**

**19.—**(1) The undertaker may for the purposes of this Order enter on any land shown within the Order limits or which may be affected by the authorised development and—

- (a) survey or investigate the land;
- (b) without prejudice to the generality of sub-paragraph (a), make trial holes in such positions on the land as the undertaker thinks fit to investigate the nature of the surface layer and subsoil and remove soil samples;

- (c) without prejudice to the generality of sub-paragraph (a), carry out ecological or archaeological investigations on such land; and
  - (d) place on, leave on and remove from the land apparatus for use in connection with the survey and investigation of land and making of trial holes.
- (2) No land may be entered or equipment placed or left on or removed from the land under paragraph (1) unless at least 14 days' notice has been served on every owner and occupier of the land.
- (3) Any person entering land under this article on behalf of the undertaker—
- (a) must, if so required entering the land, produce written evidence of their authority to do so; and
  - (b) may take with them such vehicles and equipment as are necessary to carry out the survey or investigation or to make the trial holes.
- (4) No trial holes may be made under this article—
- (a) in land located within the highway boundary without the consent of the highway authority; or
  - (b) in a private street without the consent of the street authority.
- (5) The undertaker must compensate the owners and occupiers of the land for any loss or damage arising by reason of the exercise of the authority conferred by this article, such compensation to be determined, in case of dispute, under Part 1 (determination of questions of disputed compensation) of the 1961 Act.

## PART 5

### POWERS OF ACQUISITION

#### **Compulsory acquisition of land**

**20.**—(1) The undertaker may acquire compulsorily so much of the Order land as is required for the authorised development or to facilitate it, or is incidental to it, or is required as replacement land for the special category land referred to in article 32 (special category land) and may use any land so acquired for the purposes authorised by this Order or for any other purposes in connection with or ancillary to the authorised development.

(2) As from the date on which a compulsory acquisition notice under section 134(3) of the 2008 Act is served or the date on which the Order land, or any part of it, is vested in the undertaker, whichever is the later, that land or that part of it which is vested (as the case may be) will be discharged from all rights, trusts and incidents to which it was previously subject.

(3) This article is subject to article 24 (compulsory acquisition of rights) and article 30 (temporary use of land for carrying out the authorised development).

#### **Compulsory acquisition of land – incorporation of the mineral code**

**21.** Part(s) 2 and 3 of Schedule 2 to the Acquisition of Land Act 1981 (minerals) are incorporated in this Order subject to the modifications that—

- (a) paragraph 8(3) is not incorporated; and
- (b) for “the acquiring authority” substitute “the undertaker”.

#### **Power to override easements and other rights**

**22.**—(1) Any authorised activity which takes place on land within the Order limits (whether the activity is undertaken by the undertaker or by any of its servants or agents) is authorised by this Order for the purposes of this article if it is authorised by this Order apart from this article and is done in accordance with the terms of this Order, notwithstanding that it involves-

- (a) an interference with an interest or right to which this article applies; or
- (b) a breach of a restriction as to the user of land arising by virtue of a contract.

(2) In this article “authorised activity” means—

- (a) the erection, construction or carrying out, or maintenance of any building or work on land;
- (b) the erection, construction, or maintenance of anything in, on, over or under land; or
- (c) the use of any land.

(3) The interests and rights to which this article applies are any easement, liberty, privilege, right or advantage annexed to land and adversely affecting other land, including any natural right to support and include restrictions as to the user of land arising by the virtue of a contract having that effect.

(4) Nothing in this article authorises interference with any right of way or right of laying down, erecting, continuing or maintaining apparatus on, under or over land which is—

- (a) a right vested in or belonging to statutory undertakers for the purpose of the carrying on of their undertaking, or
- (b) a right conferred by or in accordance with the electronic communications code on the operator of an electronic communications code network.

(5) Where any interest or right to which this article applies is interfered with or any restriction breached by any authorised activity in accordance with the terms of this article the interest or right is extinguished, abrogated, suspended, overridden or discharged at the time that the interference or breach in respect of the authorised activity in question commences.

(6) In respect of any interference, breach, extinguishment, abrogation or discharge in pursuance of this article, compensation—

- (a) is payable under section 7 or 10 of the 1965 Act; and
- (b) is to be assessed in the same manner and subject to the same rules as in the case of other compensation under those sections where—
  - (i) the compensation is to be estimated in connection with a purchase under that Act; or
  - (ii) the injury arises from the execution of works on or use of land acquired under that Act.

(7) Nothing in this article is to be construed as authorising any act or omission on the part of any person which is actionable at the suit of any person on any grounds other than such an interference or breach as is mentioned in paragraph (1).

(8) Nothing in this article is to be construed as restricting the entitlement of any person to compensation.

(9) Where a person deriving title under the undertaker by whom the land in question was acquired or appropriated—

- (a) is liable to pay compensation: and
- (b) fails to discharge that liability,

the liability is enforceable against the undertaker.

### **Time limit for exercise of authority to acquire land compulsorily**

**23.—**(1) After the end of the period of 5 years beginning on the day on which this Order is made—

- (a) no notice to treat may be served under Part 1 of the 1965 Act; and

- (b) no declaration may be executed under section 4 of the Compulsory Purchase (Vesting Declarations) Act 1981 as applied by article 26 (application of the Compulsory Purchase (Vesting Declarations) Act 1981).

(2) The authority conferred by article 30 (temporary use of land for carrying out the authorised development) ceases at the end of the period referred to in paragraph (1), save that nothing in this paragraph prevents the undertaker remaining in possession of land after the end of that period, if the land was entered and possession was taken before the end of that period.

### **Compulsory acquisition of rights**

**24.—**(1) Subject to paragraph (2), the undertaker may acquire compulsorily such rights over the Order land or may impose restrictive covenants affecting the Order land as may be required for any purpose for which that land may be acquired under article 20 (compulsory acquisition of land) by creating them as well as by acquiring rights already in existence.

(2) In the case of the Order land specified in column (1) of Schedule 10 (land in which only new rights etc. may be acquired) the undertaker's powers of compulsory acquisition are limited to the acquisition of such wayleaves, easements or new rights in the land and the imposition of restrictive covenants, as may be required for the purpose specified in relation to that land in column (3) of that Schedule.

(3) As from the date on which a compulsory acquisition notice is served or the date on which any new right is vested in the undertaker, whichever is the later, the land over which any new right is acquired is discharged from all rights, trusts and incidents to which it was previously subject so far as their continuance would be inconsistent with the exercise of that new right.

(4) Subject to section 8 of the 1965 Act, as substituted by paragraph 5 of Schedule 11 (modification of compensation and compulsory purchase enactments for creation of new rights), where the undertaker acquires a right over land or the benefit of a restrictive covenant under paragraph (1) or paragraph (2), the undertaker is not required to acquire a greater interest in that land.

(5) Schedule 11 has effect for the purpose of modifying the enactments relating to compensation and the provisions of the 1965 Act in their application in relation to the compulsory acquisition under this article of a right over land by the creation of a new right or the imposition of a restrictive covenant.

(6) In any case where the acquisition of new rights or the imposition of restrictive covenants under paragraph (1) is required for the purposes of diverting, replacing or protecting the apparatus of a statutory undertaker, the undertaker may transfer the power to acquire such rights to the statutory undertaker in question.

(7) The exercise by a statutory undertaker of any power in accordance with a transfer under paragraph (6) is subject to the same restrictions, liabilities and obligations as would apply under this Order if that power were exercised by the undertaker.

### **Private rights**

**25.—**(1) Subject to the provisions of this article, all private rights over land subject to compulsory acquisition under this Order are extinguished—

- (a) as from the date of acquisition of the land by the undertaker, whether compulsorily or by agreement; or
- (b) on the date of entry on the land by the undertaker under section 11(1) of the 1965 Act (power of entry),

whichever is the earliest.

(2) Subject to the provisions of this article, all private rights over land subject to the compulsory acquisition of rights under this Order are extinguished in so far as their continuance would be inconsistent with the exercise of the right—

- (a) as from the date of acquisition of the right by the undertaker, whether compulsorily or by agreement; or
- (b) on the date of entry on the land by the undertaker under section 11(1) of the 1965 Act (power of entry) in pursuance of the right,

whichever is the earliest.

(3) Subject to the provisions of this article, all private rights over land owned by the undertaker are extinguished on commencement of any activity authorised by this Order which interferes with or breaches such rights.

(4) Subject to the provisions of this article, all private right over land of which the undertaker takes temporary possession under this Order are suspended and unenforceable for as long as the undertaker remains in lawful possession of the land and so far as their continuance would be inconsistent with the exercise of the temporary possession of that land.

(5) Any person who suffers loss by the extinguishment or suspension of any private right under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(6) This article does not apply in relation to any right to which section 138 of the 2008 Act (extinguishment of rights, and removal of apparatus, of statutory undertakers etc.) or article 33 (statutory undertakers) applies.

(7) Paragraphs (1) to (3) have effect subject to—

- (a) any notice given by the undertaker before—
  - (i) the completion of the acquisition of the land or the acquisition of rights over land,
  - (ii) the undertaker's appropriation of it,
  - (iii) the undertaker's entry onto it, or
  - (iv) the undertaker's taking temporary possession of it,
 that any or all of those paragraphs do not apply to any right specified in the notice; and
- (b) any agreement made at any time between the undertaker and the person in or to whom the right in question is vested or belongs.

(8) If any such agreement as is referred to in paragraph (7)(b)—

- (a) is made with a person in or to whom the right is vested or belongs; and
- (b) is expressed to have effect also for the benefit of those deriving title from or under that person,

it is effective in respect of the persons so deriving title, whether the title was derived before or after the making of the agreement.

(9) Reference in this article to private rights over land includes reference to any trusts or incidents to which the land is subject.

### **Application of the Compulsory Purchase (Vesting Declarations) Act 1981**

**26.—**(1) The Compulsory Purchase (Vesting Declarations) Act 1981 applies as if this Order were a compulsory purchase order.

(2) The Compulsory Purchase (Vesting Declarations) Act 1981, as so applied, has effect with the following modifications.

(3) In section 1 (application of Act), for subsection (2) substitute—

"(2) This section applies to any Minister, any local or other public authority or any other body or person authorised to acquire land by means of a compulsory purchase order."

(4) In section 3 (preliminary notices), for subsection (1) substitute—

“(1) Before making a declaration under section 4 with respect to any land which is subject to a compulsory purchase order, the acquiring authority must include the particulars specified in subsection (3) in a notice which is—

- (a) given to every person with a relevant interest in the land with respect to which the declaration is to be made (other than a mortgagee who is not in possession); and
- (b) published in a local newspaper circulating in the area in which the land is situated.”.

(5) In that section, in subsection (2), for “(1)(b)” substitute “(1)” and after “given” insert “and published”.

(6) In that section, for subsections (5) and (6) substitute—

“(5) For the purposes of this section, a person has a relevant interest in land if—

- (a) that person is for the time being entitled to dispose of the fee simple of the land, whether in possession or in reversion; or
- (b) that person holds, or is entitled to the rents and profits of, the land under a lease or agreement, the unexpired term of which exceeds one month.”.

(7) In section 5 (earliest date for execution of declaration)—

- (a) in subsection (1), after “publication” insert “in a local newspaper circulating in the area in which the land is situated”; and
- (b) subsection (2) is omitted.

(8) In section 7 (constructive notice to treat), in subsection (1)(a), the words “(as modified by section 4 of the Acquisition of Land Act 1981)” are omitted.

(9) References to the 1965 Act in the Compulsory Purchase (Vesting Declarations) Act 1981 are construed as references to that Act as applied by section 125 of the 2008 Act to the compulsory acquisition of land under this Order.

### **Acquisition of subsoil only**

**27.—**(1) The undertaker may acquire compulsorily so much of, or such rights in, the subsoil of the land referred to in paragraph (1) of article 20 (compulsory acquisition of land) as may be required for any purpose for which that land may be acquired under that provision instead of acquiring the whole of the land.

(2) Where the undertaker acquires any part of, or rights in, the subsoil of land under paragraph (1), the undertaker is not required to acquire an interest in any other part of the land.

(3) Paragraph (2) does not prevent article 28 (acquisition of part of certain properties) from applying where the undertaker acquires a cellar, vault, arch or other construction forming part of a house, building or manufactory.

### **Acquisition of part of certain properties**

**28.—**(1) This article applies instead of section 8(1) of the 1965 Act (other provisions as to divided land) (as applied by section 125 of the 2008 Act) where—

- (a) a notice to treat is served on a person (“the owner”) under the 1965 Act (as so applied) in respect of land forming only part of a house, building or manufactory or of land consisting of a house with a park or garden (“the land subject to the notice to treat”); and
- (b) a copy of this article is served on the owner with the notice to treat.

(2) In such a case, the owner may, within the period of 21 days beginning with the day on which the notice was served, serve on the undertaker a counter-notice objecting to the sale of the land subject to the notice to treat which states that the owner is willing and able to sell the whole (“the land subject to the counter-notice”).

(3) If no such counter-notice is served within that period, the owner must sell the land subject to the notice to treat.

(4) If such a counter-notice is served within that period, the question whether the owner must sell only the land subject to the notice to treat is, unless the undertaker agrees to take the land subject to the counter-notice, to be referred to the tribunal.

(5) If on such a reference the tribunal determines that the land subject to the notice to treat can be taken—

- (a) without material detriment to the remainder of the land subject to the counter-notice; or
- (b) where the land subject to the notice to treat consists of a house with a park or garden, without material detriment to the remainder of the land subject to the counter-notice and without seriously affecting the amenity and convenience of the house,

the owner must sell the land subject to the notice to treat.

(6) If on such a reference the tribunal determines that only part of the land subject to the notice to treat can be taken—

- (a) without material detriment to the remainder of the land subject to the counter-notice; or
- (b) where the land subject to the notice to treat consists of a house with a park or garden, without material detriment to the remainder of the land subject to the counter-notice and without seriously affecting the amenity and convenience of the house,

the notice to treat is deemed to be a notice to treat for that part.

(7) If on such a reference the tribunal determines that—

- (a) the land subject to the notice to treat cannot be taken without material detriment to the remainder of the land subject to the counter-notice; but
- (b) the material detriment is confined to a part of the land subject to the counter-notice,

the notice to treat is deemed to be a notice to treat for the land to which the material detriment is confined in addition to the land already subject to the notice, whether or not the additional land is land which the undertaker is authorised to acquire compulsorily under this Order.

(8) If the undertaker agrees to take the land subject to the counter-notice, or if the tribunal determines that—

- (a) none of the land subject to the notice to treat can be taken without material detriment to the remainder of the land subject to the counter-notice or, as the case may be, without material detriment to the remainder of the land subject to the counter-notice and without seriously affecting the amenity and convenience of the house; and
- (b) the material detriment is not confined to a part of the land subject to the counter-notice,

the notice to treat is deemed to be a notice to treat for the land subject to the counter-notice whether or not the whole of that land is land which the undertaker is authorised to acquire compulsorily under this Order.

(9) Where, by reason of a determination by the tribunal under this article, a notice to treat is deemed to be a notice to treat for less land or more land than that specified in the notice, the undertaker may, within the period of 6 weeks beginning with the day on which the determination is made, withdraw the notice to treat; and, in that event, must pay the owner compensation for any loss or expense occasioned to the owner by the giving and withdrawal of the notice, to be determined in case of dispute by the tribunal.

(10) Where the owner is required under this article to sell only part of a house, building or manufactory or of land consisting of a house with a park or garden, the undertaker must pay the owner compensation for any loss sustained by the owner due to the severance of that part in addition to the value of the interest acquired.

## **Rights under or over streets**

**29.**—(1) The undertaker may enter upon and appropriate so much of the subsoil of, or air-space over, any street within the Order limits as may be required for the purposes of the authorised development and may use the subsoil or air-space for those purposes or any other purpose ancillary to the authorised development.

(2) Subject to paragraph (3), the undertaker may exercise any power conferred by paragraph (1) in relation to a street without being required to acquire any part of the street or any easement or right in the street.

(3) Paragraph (2) does not apply in relation to—

- (a) any subway or underground building; or
- (b) any cellar, vault, arch or other construction in, on or under a street which forms part of a building fronting onto the street.

(4) Subject to paragraph (5), any person who is an owner or occupier of land in respect of which the power of appropriation conferred by paragraph (1) is exercised without the undertaker acquiring any part of that person's interest in the land, and who suffers loss by the exercise of that power, are entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(5) Compensation is not payable under paragraph (4) to any person who is an undertaker to whom section 85 of the 1991 Act (sharing cost of necessary measures) applies in respect of measures of which the allowable costs are to be borne in accordance with that section.

## **Temporary use of land for carrying out the authorised development**

**30.**—(1) The undertaker may, in connection with the carrying out of the authorised development—

- (a) enter on and take temporary possession of:
  - (i) the land specified in columns (1) and (2) of Schedule 12 (land of which temporary possession may be taken) for the purpose specified in relation to that land in column (4) of that Schedule relating to the part of the authorised development specified in column (5) of that Schedule; and
  - (ii) any other Order land in respect of which no notice of entry has been served under section 11 of the 1965 Act (powers of entry) (other than in connection with the acquisition of rights only) and no declaration has been made under section 4 of the 1981 Act (execution of declaration);
- (b) remove any buildings and vegetation from that land; and
- (c) construct temporary works (including the provision of means of access) and buildings on that land.

(2) Not less than 14 days before entering on and taking temporary possession of land under this article the undertaker must serve notice of the intended entry on the owners and occupiers of the land.

(3) The undertaker may not, without the agreement of the owners of the land, remain in possession of any land under this article:

- (a) in the case of plots [2/●], after the new rights have been created pursuant to article 24; and
- (b) in the case of any other land, after the end of the period of one year beginning with the date of completion of the relevant part of the authorised development.

(4) Before giving up possession of land of which temporary possession has been taken under this article, the undertaker must remove all temporary works and restore the land to the reasonable satisfaction of the owners of the land; but the undertaker is not required to replace a building removed under this article.

(5) The undertaker must pay compensation to the owners and occupiers of land of which temporary possession is taken under this article for any loss or damage arising from the exercise in relation to the land of the provisions of any power conferred by this article.

(6) Any dispute as to a person's entitlement to compensation under paragraph (5), or as to the amount of the compensation, is to be determined under Part 1 of the 1961 Act.

(7) Nothing in this article affects any liability to pay compensation under section 10(2) of the 1965 Act (further provisions as to compensation for injurious affection) or under any other enactment in respect of loss or damage arising from the carrying out of the authorised development, other than loss or damage for which compensation is payable under paragraph (5).

(8) The undertaker may not compulsorily acquire under this Order the land referred to in paragraph (1)(a)(i) except that the undertaker is not precluded from—

- (a) acquiring new rights over any part of that land under article 24 (compulsory acquisition of rights); or
- (b) acquiring any part of the subsoil (or rights in the subsoil) of that land under article 27 (acquisition of subsoil only).

(9) Where the undertaker takes possession of land under this article, the undertaker is not required to acquire the land or any interest in it.

(10) Section 13 of the 1965 Act (refusal to give possession to acquiring authority) applies to the temporary use of land pursuant to this article to the same extent as it applies to the compulsory acquisition of land under this Order by virtue of section 125 of the 2008 Act (application of compulsory acquisition provisions).

(11) Nothing in this article prevents the taking of temporary possession more than once in relation to any land specified in Schedule 12.

### **Temporary use of land for maintaining authorised development**

**31.—**(1) Subject to paragraph (2), at any time during the maintenance period relating to any part of the authorised development, the undertaker may—

- (a) enter on and take temporary possession of any land within the Order limits if such possession is reasonably required for the purpose of maintaining the authorised development; and
- (b) construct such temporary works (including the provision of means of access) and buildings on the land as may be reasonably necessary for that purpose.

(2) Paragraph (1) does not authorise the undertaker to take temporary possession of—

- (a) any house or garden belonging to a house; or
- (b) any building (other than a house) if it is for the time being occupied.

(3) Not less than 28 days before entering on and taking temporary possession of land under this article the undertaker must serve notice of the intended entry on the owners and occupiers of the land.

(4) The undertaker may only remain in possession of land under this article for so long as may be reasonably necessary to carry out the maintenance of the part of the authorised development for which possession of the land was taken.

(5) Before giving up possession of land of which temporary possession has been taken under this article, the undertaker must remove all temporary works and restore the land to the reasonable satisfaction of the owners of the land.

(6) The undertaker must pay compensation to the owners and occupiers of land of which temporary possession is taken under this article for any loss or damage arising from the exercise in relation to the land of the provisions of this article.

(7) Any dispute as to a person's entitlement to compensation under paragraph (6), or as to the amount of the compensation, is to be determined under Part 1 of the 1961 Act.

(8) Nothing in this article affects any liability to pay compensation under section 10(2) of the 1965 Act (further provisions as to compensation for injurious affection) or under any other enactment in respect of loss or damage arising from the maintenance of the authorised development, other than loss or damage for which compensation is payable under paragraph (6).

(9) Where the undertaker takes possession of land under this article, the undertaker is not required to acquire the land or any interest in it.

(10) Section 13 of the 1965 Act (refusal to give possession to acquiring authority) applies to the temporary use of land pursuant to this article to the same extent as it applies to the compulsory acquisition of land under this Order by virtue of section 125 of the 2008 Act (application of compulsory acquisition provisions).

(11) In this article “the maintenance period”, in relation to any part of the authorised development, means the period of 5 years beginning with the date on which that part of the authorised development is first opened for use.

### **Special Category Land**

**32.—**(1) On the giving of notice by the undertaker to the relevant planning authority pursuant to this paragraph and subject to the undertaker having first complied with paragraph (1) of requirement 23 (Alternative Route for Marriott's Way), the Marriott's Way open space land will vest in the undertaker and will be discharged from all rights, trusts and incidents to which it was previously subject.

(2) Prior to the opening of the NDR classified road for public use the undertaker must obtain certification from the relevant planning authority that a scheme for the provision of the Marriott's Way replacement open space land as open space has been implemented to its satisfaction, and on the provision of such certificate the Marriott's Way replacement open space land will vest in the persons in whom the Marriott's Way open space land was vested immediately before it was vested in the undertaker and will be subject to the same rights, trusts and incidents as attached to the Marriott's Way open space land.

(3) As from the date on which this Order becomes operative or the date on which the fuel allotment land, or any part of it, is acquired by or vested in the undertaker, whichever is the later, the fuel allotment land will be discharged from all rights, trusts and incidents to which it was previously subject.

### **Statutory undertakers**

**33.—**Subject to the provisions of Schedule 13 (Protective provisions), the undertaker may—

- (a) acquire compulsorily the land belonging to statutory undertakers shown on the land plans within the limits of the land to be acquired and described in the book of reference;
- (b) extinguish or suspend the rights of, remove or reposition the apparatus belonging to statutory undertakers shown on the land plan and described in the book of reference; and
- (c) acquire compulsorily the new rights over land belonging to statutory undertakers shown on the land plan and described in the book of reference.

### **Apparatus and rights of statutory undertakers in stopped up streets**

**34.—**(1) Where a street is stopped up under article 12 (stopping up of streets and private accesses) any statutory utility whose apparatus is under, in, on, along or across the street has the same powers and rights in respect of that apparatus, subject to the provisions of this article, as if this Order had not been made.

(2) Where a street is stopped up under article 12 (stopping up of streets and private accesses) any statutory utility whose apparatus is under, in, on, over, along or across the street may, and if reasonably requested to do so by the undertaker must—

- (a) remove the apparatus and place it or other apparatus provided in substitution for it in such other position as the utility may reasonably determine and have power to place it; or

- (b) provide other apparatus in substitution for the existing apparatus and place it in such position as described in sub-paragraph (a).

(3) Subject to the following provisions of this article, the undertaker must pay to any statutory utility an amount equal to the cost reasonably incurred by the utility in or in connection with—

- (a) the execution of the relocation works required in consequence of the stopping up of the street; and
- (b) the doing of any other work or thing rendered necessary by the execution of the relocation works.

(4) If in the course of the execution of relocation works under paragraph (2)—

- (a) apparatus of a better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was;

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by the undertaker, or, in default of agreement, is not determined by arbitration to be necessary, then, if it involves cost in the execution of the relocation work exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which, apart from this paragraph, would be payable to the statutory utility by virtue of paragraph (3) is to be reduced by the amount of that excess.

(5) For the purposes of paragraph (4) -

- (a) an extension of apparatus to a length greater than the length of existing apparatus is not to be treated as a placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole is to be treated as if it also had been agreed or had been so determined.

(6) An amount which, apart from this paragraph, would be payable to a statutory utility in respect of works by virtue of paragraph (3) (and having regard, where relevant, to paragraph (4)) will, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the utility any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, be reduced by the amount which represents that benefit.

(7) Paragraphs (3) to (6) do not apply where the authorised development constitutes major highway works, major bridge works or major transport works for the purposes of Part 3 of the 1991 Act, but instead—

- (a) the allowable costs of the relocation works are to be determined in accordance with section 85 of that Act (sharing of cost of necessary measures) and any regulations for the time being having effect under that section; and
- (b) the allowable costs are to be borne by the undertaker and the statutory utility in such proportions as may be prescribed by any such regulations.

(8) In this article –

“apparatus” has the same meaning as in Part 3 of the 1991 Act;

“relocation works” means work executed, or apparatus provided, under paragraph (2); and

“statutory utility” means a statutory undertaker for the purposes of the 1980 Act or a public communications provider as defined in section 151(1) of the Communications Act 2003.

### **Recovery of costs of new connections**

**35.—**(1) Where any apparatus of a public utility undertaker or of a public communications provider is removed under article 33 (statutory undertakers) any person who is the owner or occupier of premises to which a supply was given from that apparatus is entitled to recover from the undertaker compensation in respect of expenditure reasonably incurred by that person, in consequence of the removal, for the purpose of effecting a connection between the premises and any other apparatus from which a supply is given.

(2) Paragraph (1) does not apply in the case of the removal of a public sewer but where such a sewer is removed under article 33 (statutory undertakers) any person who is—

- (a) the owner or occupier of premises the drains of which communicated with the sewer; or
- (b) the owner of a private sewer which communicated with that sewer,

is entitled to recover from the undertaker compensation in respect of expenditure reasonably incurred by that person, in consequence of the removal, for the purpose of making the drain or sewer belonging to that person communicate with any other public sewer or with a private sewerage disposal plant.

(3) This article does not have effect in relation to apparatus to which article 34 (apparatus and rights of statutory undertakers in land acquired or used) or part 3 of the 1991 Act applies.

(4) In this paragraph –

“public communications provider” has the same meaning as in section 151(1) of the Communications Act 2003; and

“public utility undertaker” has the same meaning as in the 1980 Act.

## **PART 6 OPERATIONS**

### **Felling or lopping of trees**

**36.—**(1) The undertaker may fell or lop any tree or shrub near within or overhanging any part of the authorised development, or cut back its roots, and may enter onto any land to carry out such felling or lopping, if it reasonably believes it to be necessary to do so to prevent the tree or shrub—

- (a) from obstructing or interfering with the construction of the authorised development or any apparatus used in connection with the authorised development; or
- (b) from constituting a danger to other persons using the development.

(2) Save in the case of emergency the undertaker must, not less than 14 days before entering any land pursuant to paragraph (1), serve notice of the intended entry on the owners and occupiers of the land.

(3) In carrying out any activity authorised by paragraph (1), the undertaker must do no unnecessary damage to any tree or shrub and must pay compensation to any person for any loss or damage arising from such activity.

(4) Any dispute as to a person's entitlement to compensation under paragraph (3), or as to the amount of compensation, is to be determined under Part 1 of the 1961 Act.

## PART 7

### MISCELLANEOUS AND GENERAL

#### **Application of landlord and tenant law**

**37.**—(1) This article applies to—

- (a) any agreement for leasing to any person the whole or any part of the authorised development or the right to operate the same; and
- (b) any agreement entered into by the undertaker with any person for the construction, maintenance, use or operation of the authorised development, or any part of it,

so far as any such agreement relates to the terms on which any land which is the subject of a lease granted by or under that agreement is to be provided for that person's use.

(2) No enactment or rule of law regulating the rights and obligations of landlords and tenants prejudices the operation of any agreement to which this article applies.

(3) Accordingly, no such enactment or rule of law applies in relation to the rights and obligations of the parties to any lease granted by or under any such agreement so as to—

- (a) exclude or in any respect modify any of the rights and obligations of those parties under the terms of the lease, whether with respect to the termination of the tenancy or any other matter;
- (b) confer or impose on any such party any right or obligation arising out of or connected with anything done or omitted on or in relation to land which is the subject of the lease, in addition to any such right or obligation provided for by the terms of the lease; or
- (c) restrict the enforcement (whether by action for damages or otherwise) by any party to the lease of any obligation of any other party under the lease.

#### **Operational land for purposes of the 1990 Act**

**38.** Development consent granted by this Order is to be treated as specific planning permission for the purposes of section 264(3)(a) of the 1990 Act (cases in which land is to be treated as operational land for the purposes of that Act).

#### **Defence to proceedings in respect of statutory nuisance**

**39.**—(1) Where proceedings are brought under section 82(1) of the Environmental Protection Act 1990 (summary proceedings by persons aggrieved by statutory nuisances) in relation to a nuisance falling within paragraph (g) of section 79(1) of that Act (noise emitted from premises so as to be prejudicial to health or a nuisance) no order is to be made, and no fine may be imposed, under section 82(2) of that Act if—

- (a) the defendant shows that the nuisance—
  - (i) relates to premises used by the undertaker for the purposes of or in connection with the construction or maintenance of the authorised development and that the nuisance is attributable to the carrying out of the authorised development in accordance with a notice served under section 60 (control of noise on construction sites), or a consent given under section 61 (prior consent for work on construction sites) or 65 (noise exceeding registered level), of the Control of Pollution Act 1974; or
  - (ii) is a consequence of the construction or maintenance of the authorised development and that it cannot reasonably be avoided; or
- (b) the defendant shows that the nuisance is a consequence of the use of the authorised development and that it cannot reasonably be avoided.

(2) Section 61(9) (consent for work on construction site to include statement that it does not of itself constitute a defence to proceedings under section 82 of the Environmental Protection Act 1990) of the

Control of Pollution Act 1974 and section 65(8) of that Act (corresponding provision in relation to consent for registered noise level to be exceeded), does not apply where the consent relates to the use of premises by the undertaker for the purposes of or in connection with the construction or maintenance of the authorised development.

### **Protective Provisions**

**40.** Schedule 13 (protective provisions) has effect.

### **Certification of plans etc**

**41.—**(1) The undertaker must, as soon as practicable after the making of this Order, submit to the Secretary of State copies of—

- (a) the book of reference;
- (b) the land plans;
- (c) the works plans;
- (d) the landscaping plans;
- (e) the street plans;
- (f) the general arrangement drawings;
- (g) the sections;
- (h) the highway classification plan;
- (i) the environmental statement; and
- (j) any other plans or documents referred to in this Order.

for certification that they are true copies of the documents referred to in this Order.

(2) A plan or document so certified is admissible in any proceedings as evidence of the contents of the document of which it is a copy.

### **Service of notices**

**42.—**(1) A notice or other document required or authorised to be served for the purposes of this Order may be served—

- (a) by post;
- (b) by delivering it to the person on whom it is to be served or to whom it is to be given or supplied; or
- (c) with the consent of the recipient and subject to paragraphs (6) to (8), by electronic transmission.

(2) Where the person on whom a notice or other document to be served for the purposes of this Order is a body corporate, the notice or document is duly served if it is served on the secretary or clerk of that body.

(3) For the purposes of section 7 of the Interpretation Act 1978 as it applies for the purposes of this article, the proper address of any person in relation to the service on that person of a notice or document under paragraph (1) is, if that person has given an address for service, that address and otherwise—

- (a) in the case of the secretary or clerk of that body corporate, the registered or principal office of that body, and,
- (b) in any other case, the last known address of that person at that time of service.

(4) Where for the purposes of this Order a notice or other document is required or authorised to be served on a person as having an interest in, or as the occupier of, land and the name or address of that person cannot be ascertained after reasonable enquiry, the notice may be served by—

- (a) addressing it to that person by the description of "owner", or as the case maybe "occupier" of the land (describing it) and
- (b) either leaving it in the hands of the person who is or appears to be resident or employed on the land or leaving it conspicuously affixed to some building or object on or near the land

(5) Where a notice or other document required to be served or sent for the purposes of this Order is served or sent by electronic transmission the requirement is to be taken to be fulfilled only where—

- (a) the recipient of the notice or other document to be transmitted has given consent to the use of electronic transmission in writing or by electronic transmission;
- (b) the notice or document is capable of being accessed by the recipient;
- (c) the notice or document is legible in all material respects; and
- (d) in a form sufficiently permanent to be used for subsequent reference.

(6) Where the recipient of a notice or other document served or sent by electronic transmission notifies the sender within seven days of receipt that the recipient requires a paper copy of all or any part of that notice or other document the sender must provide such a copy as soon as reasonably practicable.

(7) Any consent to the use of an electronic transmission by a person may be revoked by that person in accordance with paragraph (8).

(8) Where a person is no longer willing to accept the use of electronic transmission for any other purposes of this Order—

- (a) that person must give notice in writing or by electronic transmission revoking any consent given by that person for that purpose; and
- (b) such revocation is final and takes effect on a date specified by the person in the notice but that date must not be less than 7 days after the date on which the notice is given.

(9) This article does not exclude the employment of any method of service not expressly provided for by it.

(10) In this article "electronic transmission" means a communication transmitted—

- (a) by means of electronic communications network; or
- (b) by other means but while in electronic form.

### **Traffic regulation**

**43.**—(1) Subject to the provisions of this article, and the consent of the traffic authority in whose area the road concerned is situated, the undertaker may, for the purposes of the authorised development—

- (a) revoke, amend or suspend in whole or in part any order made, or having effect as if made, under the 1984 Act;
- (b) permit, prohibit or restrict the stopping, waiting, loading or unloading of vehicles on any road;
- (c) authorise the use as a parking place of any road;
- (d) make provision as to the direction or priority of vehicular traffic on any road; and
- (e) permit or prohibit vehicular access to any road

either at all times or at times, on days or during such periods as may be specified by the undertaker.

(2) The power conferred by paragraph (1) may be exercised at any time prior to the expiry of 12 months from the opening of the authorised development for public use but subject to paragraph (6) any prohibition, restriction or other provision made under paragraph (1) may have effect both before and after the expiry of that period.

(3) The undertaker must consult the chief officer of police and the traffic authority in whose area the road is situated before complying with the provisions of paragraph (4).

(4) The undertaker must not exercise the power conferred by paragraph (1) unless it has—

(a) given not less than—

(i) 12 weeks' notice in writing of its intention so to do in the case of a prohibition, restriction or other provision intended to have effect permanently; or

(ii) 4 weeks' notice in writing of its intention so to do in the case of a prohibition, restriction or other provision intended to have effect temporarily,

to the chief officer of police and to the traffic authority in whose area the road is situated; and

(b) advertised its intention in such manner as the traffic authority may specify in writing within 28 days of its receipt of notice of the undertaker's intention in the case of sub-paragraph (a)(i), or within 7 days of its receipt of notice of the undertaker's intention in the case of sub-paragraph (a)(ii).

(5) Any prohibition, restriction or other provision made by the promoter under paragraph (1)—

(a) has effect as if duly made by, as the case may be—

(i) the traffic authority in whose area the road is situated, as a traffic regulation order under the 1984 Act; or

(ii) the local authority in whose area the road is situated, as an order under section 32 of the 1984 Act,

and the instrument by which it is effected may specify savings and exemptions to which the prohibition, restriction or other provision is subject; and

(b) is deemed to be a traffic order for the purposes of Schedule 7 to the Traffic Management Act 2004 (road traffic contraventions subject to civil enforcement).

(6) Any prohibition, restriction or other provision made under this article may be suspended, varied or revoked by the undertaker from time to time by subsequent exercise of the powers of paragraph (1) within a period of 24 months from the opening of the authorised development.

(7) Before exercising the powers of paragraph (1) the promoter must consult such persons as it considers necessary and appropriate and take into consideration any representations made to it by any such person.

(8) Expressions used in this article and in the 1984 Act have the same meaning in this article as in that Act.

(9) The powers conferred on the undertaker by this article with respect to any road have effect subject to any agreement entered into by the undertaker with any person with an interest in (or who undertakes activities in relation to) premises served by the road.

### **Prohibition of entry, prohibition of motor vehicles, weight restrictions and speed limits**

**44.—**(1) Upon completion of the relevant part of the authorised development—

- (a) No person may drive any motor vehicle along the lengths of roads identified in part 1 of Schedule 14 (Speed limits and traffic regulation measures) at a speed exceeding that specified in relation to that length of road;
- (b) The traffic regulation measures identified in part 2 of Schedule 14 apply in relation to the lengths of road specified;
- (c) The traffic orders imposing speed limits identified in part 3 of Schedule 14 are revoked or varied (as appropriate) so that they cease to apply to the lengths of road specified in the second column;
- (d) The traffic regulation orders imposing weight restrictions identified in Part 4 of Schedule 14 are varied so that they only apply to the lengths of road specified in the fourth column.

(2) No speed limit imposed by this Order applies to vehicles falling within regulation 3(4) of the Road Traffic Exemptions (Special Forces) (Variation and Amendment) Regulations 2011 when used in accordance with regulation 3(5) of those Regulations.

### **Procedure in relation to certain approvals etc**

**45.**—(1) Where an application is made to or request is made of the relevant planning authority, a highway authority, a traffic authority, a street authority, navigation authority, an owner or occupier of land or the owner of a watercourse, sewer or drain ("consenting authority") for any consent, agreement or approval required or contemplated by any of the provisions of the Order except Schedule 2 (requirements), such consent, agreement or approval must, if given, be given in writing and must not be unreasonably withheld.

(2) Save for applications made pursuant to article 30 (Temporary use of land for carrying out the authorised development) and except as provided for in paragraph (3), if, within 28 days after the application or request has been submitted to a consenting authority, it has not notified the undertaker of its disapproval and the grounds of disapproval, it is to be deemed to have approved the application or request.

(3) Paragraph (2) does not apply to any application or request:

- (a) which is accompanied by a report which concludes that; or
- (b) the consenting authority reasonably concludes, and issues notice of its conclusion to the undertaker within 28 days of submission of the application or request, that

it is likely that the subject matter of such application or request will give rise to any materially new or materially different environmental effects in comparison with the authorised development as approved.

(4) Where an application is made to the relevant planning authority for any consent, agreement or approval required by a requirement under Schedule 2 (requirements), the following provisions apply, so far as they relate to a consent, agreement or approval of a local planning authority required by a condition imposed on a grant of planning permission, as if the requirement was a condition imposed on the grant of planning permission—

- (a) sections 78 and 79 of the 1990 Act (right of appeal in relation to planning decisions); and
- (b) any orders, rules or regulations which make provision in relation to a consent, agreement or approval of a local planning authority required by a condition imposed on the grant of planning permission.

(5) For the purposes of paragraph (4), a provision relates to a consent, agreement or approval of a local planning authority required by a condition imposed on a grant of planning permission in so far as it makes provision in relation to an application for such a consent, agreement or approval, or the grant or refusal of such an application, or a failure to give notice of a decision on such an application.

**Arbitration**

46. Any difference under any provision of this Order, unless otherwise provided for, is to be referred to and settled by a single arbitrator to be agreed between the parties or, failing agreement, to be appointed on the application of either party (after giving notice in writing to the other) by the Secretary of State.

Signed by authority of the Secretary of State for Transport

# SCHEDULE 1

## AUTHORISED DEVELOPMENT

In the County of Norfolk and—

in respect of the whole of Work Nos. 1 to 10, 12 to 20 and 22 to 24, and in respect of part of Work Nos. 11 and 21, in the District of Broadland; and

in respect of part of Work No. 11 only, in the City of Norwich; and

in respect of part of Work No. 21 only, in the administrative area of the Broads Authority

a development which, pursuant to a direction made by the Secretary of State on 9<sup>th</sup> August 2013 under section 35 of the 2008 Act, is development for which development consent is required, comprising:

### ***Work No .1***

- 1(i) as part of the improvement of the A1067 Fakenham Road, the construction of a roundabout junction on the A1067 Fakenham Road (known as 'Fakenham Road Roundabout'), as the westernmost connection of the, dual carriageway, NDR classified road, including the construction of a footway/cycleway, running concentrically from the eastern tie-in of the improvement with the existing A1067 Fakenham Road, around the south and north west arcs of the Fakenham Road Roundabout, together with the realignment, north eastwards, of those lengths of the A1067 Fakenham Road carriageway and verges which extend 760 metres north west, and 140 metres south east, of the Fakenham Road Roundabout, and of the reconfiguration of a further 125 metres of the south westerly verge of the A1067 Fakenham Road, extending south eastwards from the south easterly termination point of the aforementioned works;
- 1(ii) the construction of a 50 metres length of the, dual carriageway, NDR classified road, extending north eastwards from the Fakenham Road Roundabout;
- 1(iii) the creation of grassland areas to the north and south sides of the realigned A1067 Fakenham Road carriageway; and
- 1(iv) the creation of grassland and woodland areas to the north west of the Fakenham Road Roundabout,

all within the area identified as Work No. 1 on the Works Plan Sheet 1 of 12.

### ***Work No. 2***

- 2(i) the construction of a 1,040 metres continuing length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 1(ii) above, extending north eastwards, then eastwards, towards the Fir Covert Road Roundabout;
- 2(ii) the construction of a combined private means of access and diverted restricted byway route (for Attlebridge Restricted Byway No.3), extending east north-eastwards, then north westwards, for 315 metres, from the Fakenham Road Roundabout, to rejoin the existing Attlebridge Restricted Byway No. 3;
- 2(iii) the construction of a length of bridleway, running alongside the north side of the NDR classified road, from the junction with Attlebridge Restricted Byway No.3, north eastwards (to junction with a continuing length or bridleway described in 3(v) below), such bridleway to be combined with a private means of access for its first 150 metres westerly length, and the construction of a diverging length of private means of access only, from that easterly end point of the combined route, north eastwards for 100 metres;
- 2(iv) the construction of 1 drainage lagoon (No.1), and access thereto, to the east of the Fakenham Road Roundabout;
- 2(v) the construction of 1 drainage lagoon (No.1A), and access thereto, to the north east of the Fakenham Road Roundabout;
- 2(vi) the construction of 1 drainage lagoon (No.2), and access thereto, to the north west of the Fir Covert Road Roundabout;

- 2(vii) the diversion of some 540 metres of National Grid gas transmission pipeline, so that it crosses the NDR classified road at some 90 degrees rather than at an oblique angle;
- 2(viii) the creation of grassland and woodland areas on the north side of the Fakenham Road Roundabout;
- 2(ix) the creation of grassland and woodland areas on the north and south sides of this length of the NDR classified road; and
- 2(x) the construction of a bat gantry crossing this length of the NDR classified road, 200 metres east of the Fakenham Road Roundabout,

all within the area identified as Work No. 2 on the Works Plan Sheet 1 of 12 and Sheet 2 of 12.

**Work No. 3**

- 3(i) the construction of a 50 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 2(i) above, extending eastwards to the Fir Covert Road Roundabout;
- 3(ii) the construction of a roundabout junction as part of the NDR classified road, on and to connect with the C262 Fir Covert Road (known as ‘Fir Covert Road Roundabout’), including the construction of a footway/cycleway around the south west and north west arcs of the Fir Covert Road Roundabout, leading to crossing points on the north and south arms of the C262 Fir Covert Road;
- 3(iii) the construction of a 50 metres length of the, dual carriageway, NDR classified road, extending eastwards from the Fir Covert Road Roundabout;
- 3(iv) the improvement of the C262 Fir Covert Road, by widening on its east and west sides, on its immediate southerly and northerly approaches to the Fir Covert Road Roundabout;
- 3(v) the construction of a continuing length of bridleway (extending from that length of bridleway described in paragraph 2(iii) above), running alongside the north side of the NDR classified road, skirting the north west arc of the Fir Covert Road Roundabout and then extending northwards for some 100 metres, to junction with the west side of the improved C262 Fir Covert Road at that point;
- 3(vi) the construction of a length of bridleway, from the east side of the improved C262 Fir Covert Road, at a point some 100 metres north of the Fir Covert Road Roundabout, extending southwards and then eastwards (to junction with its continuing length of bridleway described in 4(iv) below), running alongside the north side of the NDR classified road;
- 3(vii) the construction of a length of bridleway, from the east side of the improved C262 Fir Covert Road on the south side of the Fir Covert Road Roundabout, extending eastwards (to junction with its continuing length of bridleway described in 4(v) below), running alongside the south side of the NDR classified road; and
- 3(viii) the creation of grassland, woodland and scrubland areas to the north of the Fir Covert Road Roundabout and grassland and woodland areas to the south of the Fir Covert Road Roundabout,

all within the area identified as Work No. 3 on the Works Plan Sheet 2 of 12.

**Work No. 4**

- 4(i) the construction of a 970 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 3(iii) above, extending eastwards, then north eastwards, towards the Reepham Road Roundabout;
- 4(ii) the improvement of Furze Lane (U57168), on its east side, immediately to the north of the NDR classified road, by the construction of a cul-de-sac turning head at what will become its southerly termination point on the north side of the NDR classified road;
- 4(iii) the improvement of Breck Farm Lane (U57168), on its east side, just to the north east of Breck Farm Bungalow, by the construction of a cul-de-sac turning head at what will become its north easterly termination point on the south side of the NDR classified road;
- 4(iv) the construction of a continuing length of bridleway (extending from that length of bridleway described in 3(vi) above), running alongside the north side of the NDR classified road, to connect with the west side of the new Marriott’s Way (recreational public amenity path) Bridge crossing on the north side of the NDR classified road;

- 4(v) the construction of a continuing length of bridleway (extending from that length of bridleway described in 3(vii) above), running alongside the south side of the NDR classified road, to its connection with both the west side of the Marriott's Way (recreational public amenity path), some 70 metres south of the NDR classified road, and with the bridleway described in 4(ix) below;
  - 4(vi) the construction of a Marriott's Way (recreational public amenity path) Bridge crossing of the NDR classified road;
  - 4(vii) the construction of a bridleway, running alongside the north side of the NDR classified road, from the east side of the new Marriott's Way (recreational public amenity path) Bridge crossing on the north side of the NDR classified road, eastwards to connect with both Furze Lane (U57168), at what is to become its southerly termination point on the north side of the NDR classified road, and with the bridleway described in 4(viii) below;
  - 4(viii) the construction of a length of bridleway, running alongside the north side of the NDR classified road, from its junction with the bridleway described in 4(vii) above, eastwards, running alongside the north side of the NDR classified road (to junction with its continuing length of bridleway described in 5(v) below);
  - 4(ix) the construction of a bridleway, to be combined in part with the private means of access described in 4(xi) below, from the south westerly termination point of stopped up Breck Farm Lane (U57168), north eastwards along that stopped up street, to a point on the east side of the existing Breck Farm Lane (U57168) bridge crossing of the Marriott's Way (recreational public amenity path);
  - 4(x) the construction of a length of cycle track (with a right of way on foot), to be combined in part with the private means of access described in 4(xi) below, from the north easterly termination point of the bridleway described in 4(ix) above, north eastwards, then eastwards, running alongside the south side of the NDR classified road (to junction with its continuing length of cycle track (with a right of way on foot) described in 5(vi) below);
  - 4(xi) the construction of a private means of access, to be combined in parts with the bridleway described in 4(ix) above and the cycle track (with a right of way on foot) described in 4(x) above, from the south westerly termination point of the stopped up Breck Farm Lane (U57168), north eastwards, then eastwards, crossing over Marriott's Way (recreational public amenity path), and continuing north eastwards, then eastwards, running alongside the south side of the NDR classified road (to junction with the improved C261 Reepham Road described in 5(iv) below);
  - 4(xii) the construction of 1 drainage lagoon (No.3), and access thereto, to the west of the Reepham Road Roundabout; and
  - 4(xiii) the creation of grassland, woodland and scrubland areas to the north side of the NDR classified road and grassland and woodland areas to the south side of the NDR classified road,
- all within the area identified as Work No. 4 on the Works Plan Sheet 2 of 12 and Sheet 3 of 12.

#### ***Work No. 5***

- 5(i) the construction of a 50 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 4(i) above, extending north eastwards to the Reepham Road Roundabout;
- 5(ii) the construction of a roundabout junction as part of the NDR classified road, on and to connect with the C261 Reepham Road (known as 'Reepham Road Roundabout'), including the construction of a footway/cycleway around the south east and north west arcs of the Reepham Road Roundabout;
- 5(iii) the construction of a 45 metres length of the, dual carriageway, NDR classified road, extending eastwards from the Reepham Road Roundabout;
- 5(iv) the improvement of the C261 Reepham Road, by widening on its north east and south west sides, over a 250 metres length (190 metres only on its south west side) on its north westerly approach and a 250 metres length on its south easterly approach, to the Reepham Road Roundabout;

- 5(v) the construction of a length of bridleway, extending from that length of bridleway described in 4(viii) above, eastwards, alongside the north side of the NDR classified road, and around the north west arc of the Reepham Road Roundabout, then extending north westwards to connect with the south west side of the improved C261 Reepham Road, some 135 metres north west of the Reepham Road Roundabout;
  - 5(vi) the construction of a length of cycle track (with a right of way on foot), combined with a private means of access, extending from those lengths of bridleway and private means of access described in 4(x) and 4(xi), respectively, above, eastwards, running along the south side of the NDR classified road, to connect with the south west boundary of the improved C261 Reepham Road, in relation to the cycle track some 50 metres south east of the Reepham Road Roundabout and in relation to the final length of independent private means of access track some 160 metres south east of the Reepham Road Roundabout;
  - 5(vii) the construction of a bridleway, from a point on the north east boundary of the improved C261 Reepham Road some 130 metres north west of the Reepham Road Roundabout, extending south eastwards, then eastwards, to connect with the diverted route of Drayton Restricted Byway No.6 described in 5(viii) below, and including a short spur connection to the improved C261 Reepham Road immediately north west of the Reepham Road Roundabout;
  - 5(viii) the construction of a 70 metres length of diverted route of Drayton Restricted Byway No.6, combined with a private means of access track, north eastwards off the north arc of the Reepham Road Roundabout; and
  - 5(ix) the creation of grassland and woodland areas around the Reepham Road Roundabout,
- all within the area identified as Work No. 5 on the Works Plan Sheet 3 of 12.

**Work No. 6**

- 6(i) the construction of a 2,205 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 5(iii) above, extending eastwards, then south eastwards, towards the Drayton Lane Roundabout;
- 6(ii) the construction of a diverted route of Horsford Restricted Byway No.5, combined with a private means of access track (known as Bell Farm Track), between the C261 Reepham Road and Dog Lane (U57176), together with the construction of a Bridge, midway along the routes and to the south west of Bell Farm, to carry them over the NDR classified road;
- 6(iii) the construction of a 230 metres length of private means of access track, from the C261 Reepham Road, 235 metres south east of the Reepham Road Roundabout, north eastwards, then generally eastwards, alongside grassland and woodland areas, to the retained existing woodland on the south side of the NDR classified road;
- 6(iv) the improvement/resurfacing of Drayton Restricted Byway No.6 and Dog Lane (U57176)/Horsford Restricted Byway No.4, between the junction with diverted Drayton Restricted Byway No.6 and a point 30 metres east of Horsford Restricted Byway No.5 (Bell Farm Track);
- 6(v) the construction of a footway/cycleway within the northern verge of the C261 Reepham Road, between its junction with Long Dale (U51249) and its junction with Horsford Restricted Byway No.5;
- 6(vi) the construction of a length of private means of access track alongside the north side of the NDR classified road, terminating 170 metres north west of drainage lagoon No.5, and providing access to drainage lagoon No.5 off that length, and running eastwards towards the new Drayton Lane Link Road;
- 6(vii) the construction of 1 drainage lagoon (No.4), and access thereto, to the east of the Reepham Road Roundabout and to the north of the C261 Reepham Road;
- 6(viii) the construction of 1 drainage lagoon (No.5) to the north of the NDR classified road 500 metres north west of the Drayton Lane Roundabout; and
- 6(ix) the creation of grassland and woodland areas to the north and south sides of this length of the NDR classified road,

all within the area identified as Work No. 6 on the Works Plan Sheet 3 of 12 and Sheet 4 of 12.

### Work No. 7

- 7(i) the construction of a 50 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 6(i) above, extending south eastwards to the Drayton Lane Roundabout;
- 7(ii) the construction of a roundabout junction as part of the NDR classified road, just to the west of the existing C282 Drayton Lane (known as 'Drayton Lane Roundabout'), including the construction of a footway/cycleway around the north east and south east arcs of the Drayton Lane Roundabout, leading to a crossing point on the northerly arm of the roundabout
- 7(iii) the construction of a 45 metres length of the, dual carriageway, NDR classified road, extending south eastwards from the Drayton Lane Roundabout;
- 7(iv) the construction of a new Link Road, from the Drayton Lane Roundabout, north eastwards to the B1149 Holt Road;
- 7(v) the construction of a new Link Road, from the Drayton Lane Roundabout, southwards to the C261 Reepham Road, where it will connect with a new 4-arm roundabout (known as Reepham Road/Drayton Lane Roundabout) which will be provided as part of the improvement of the C261 Reepham Road and at the point at which the new roundabout also connects with the C282 Drayton Lane (South);
- 7(vi) the improvement/realignment of the C261 Reepham Road on its north side, to form a T-junction over a 424 metres length, and incorporating a 4-arm roundabout (known as Reepham Road/Drayton Lane Roundabout), where it meets with the new Link Road described in 7(v) above and the C282 Drayton Lane (South), including the construction of an integral footway/cycleway around the roundabout and running south eastwards from the roundabout within the southern boundary of the C261 Reepham Road;
- 7(vii) the improvement of the C282 Drayton Lane (North), on its west side, by the construction of a cul-de-sac turning head at its northerly point of stopping up;
- 7(viii) the improvement of the B1149 Holt Road, over a 275 metres length south eastwards from its junction with the C253 Church Street, incorporating a 160 metres length of footway/cycleway within its north easterly boundary, south eastwards from a point 20 metres south east of its junction with the C253 Church Lane, and including the construction of a new roundabout (known as 'Holt Road/Drayton Lane Roundabout') 100 metres south west of its junction with the C253 Church Street, as a connection to the new Link Road described in 7(iv) above;
- 7(ix) the construction of a cycle track (with a right of way on foot) between the C261 Reepham Road and the new Link Road described in 7(v) above;
- 7(x) ~~the construction of a cycle track (with a right of way on foot) between the new Link Road described in 7(v) above and the Drayton Lane Roundabout;~~
- 7(xi) ~~the construction of a cycle track (with a right of way on foot) between the new Link Road described in 7(iv) above and the cul de sac termination point of the C282 Drayton Lane described in 7(vii) above~~ improved/realigned C261 Reepham Road, at a point just east of its Reepham Road/Drayton Lane Roundabout, and the Drayton Lane Roundabout;
- 7(xii) the construction of a bridleway between the new Link Road described in 7(iv) above and the new cycle track (with a right of way on foot) described in 7(xi) above;
- 7(xiii) the construction of a bridleway between the new Link Road described in 7(iv) above and the Drayton Lane Roundabout, combined with a length of private means of access track from that Link Road extending south westwards, then north westwards, to connect up with the continuing length of private access track described in 6(vi) above;
- 7(xiv) the construction of a private means of access to 'The Homestead', off the new Link Road described in 7(iv) above;
- 7(xv) the construction of 1 drainage lagoon (No.6), and access thereto, to the east of the new C261 Reepham Road/Drayton Lane Link Road 'T' junction;
- 7(xvi) the construction of 1 drainage lagoon (No.6A), and access thereto, to the east of the new Reepham Road/Drayton Lane Roundabout north of the new Link Road described in 7(iv) above, and immediately west of the Holt Road/Drayton Lane Roundabout described within 7(viii) above; and
- 7(xvii) the creation of grassland areas at the Holt Road/Drayton Lane Roundabout; grassland and woodland areas at the new Reepham Road/Drayton Lane Roundabout Drayton Lane Link

~~Road/C261 Reepham Road junction~~, and to the east and west sides of the Drayton Lane Link Road, and grassland and woodland areas around the Drayton Lane Roundabout,

all within the area identified as Work No. 7 on the Works Plan Sheet 4 of 12.

**Work No. 8**

- 8(i) the construction of a 800 metres length of the, dual carriageway, NDR classified road, extending south eastwards from that length of the NDR classified road described in 7(iii) above;
- 8(ii) the construction of a bat gantry crossing this length of the NDR classified road, 390 metres south east of the Drayton Lane Roundabout; and
- 8(iii) the creation of grassland and woodland areas to the north and south sides of this length of the NDR classified road,

all within the area identified as Work No. 8 on the Works Plan Sheet 4 of 12.

**Work No. 9**

- 9(i) the construction of a 1,025 metres length of the, dual carriageway, NDR classified road, extending eastwards from that length of the NDR classified road described in 8(i) above, together with the construction of a new A140 Cromer Road Bridge crossing of the NDR classified road, with integral eastern footway/cycleway which extends across that bridge length and around the north arc of the Cromer Road Roundabout North and around the south arc of the Cromer Road Roundabout South, and the construction of two NDR classified road westbound slip roads, to connect with the Cromer Road Roundabout South and the construction of two NDR classified road eastbound slip roads, to connect with the Cromer Road Roundabout North, which collective works will form a new NDR classified road/A140 Cromer Road grade separated junction;
- 9(ii) the improvement of the B1149 Holt Road, on its south west side, immediately to the north of the NDR classified road and to the south east of New Holme Farm, by the construction of a cul-de-sac turning head at what will become its south easterly termination point on the north side of the NDR classified road;
- 9(iii) the improvement of Holly Lane (U57142), on its south side, just to the east of the private access road to Manor Farm, by the construction of a cul-de-sac turning head at what will become its easterly termination point on the south side of the NDR classified road;
- 9(iv) the improvement of a 200 metres length of the B1149 Holt Road, north westwards off the Cromer Road Roundabout South, to provide the tie-in with the NDR classified road westbound merge slip road at the grade separated junction, including the construction of a footway/cycleway within its south west boundary and for a further 85 metres north westwards within the south west boundary of the westbound merge slip road (so as to provide a continuous footway/cycleway between the Cromer Road Roundabout South and the cycle track (with a right of way on foot) along stopped up Holly Lane (U57142) described in 9(vi) below);
- 9(v) the construction of a cycle track (with a right of way on foot) between the south east termination point of the B1149 Holt Road, running eastwards along the north side of the NDR classified road, to junction with Cromer Road Roundabout North;
- 9(vi) the construction of a cycle track (with a right of way on foot), from the westerly termination point of stopped up Holly Lane (U57142) just to the east of Manor Farm Bungalow, eastwards to junction with the NDR classified road westbound merge slip road at the grade separated junction, combined with a private means of access track along that part of the cycle track between the westerly termination point of stopped up Holly Lane (U57142) and drainage lagoon No. 8A;
- 9(vii) the construction of a 140 metres cycle track (with a right of way on foot), from the Cromer Road Roundabout North, north eastwards to its junction with the Unnamed Highway (Cromer Road to West Lane) (U57647);
- 9(viii) the construction of a 380 metres private means of access track, from the Cromer Road Roundabout North, extending eastwards running alongside the north side of the NDR classified road eastbound merge slip road at the grade separated junction;
- 9(ix) the construction of 1 drainage lagoon (No.8), and access thereto, to the south of the NDR classified road, within the south west quadrant of the grade separated junction;

- 9(x) the construction of 1 drainage lagoon (No. 8A) to the south west of drainage lagoon No. 8 and to the south west of the NDR classified road westbound merge slip road at the grade separated junction;
  - 9(xi) the construction of 1 drainage lagoon (No.9), and access thereto, to the west of the A140 Cromer Road 190 metres north east of the Cromer Road Roundabout North; and
  - 9(xii) the creation of woodland and grassland areas within, and adjacent to, this length of the NDR classified road/A140 Cromer Road grade separated junction,
- all within the area identified as Work No. 9 on the Works Plan Sheet 5 of 12.

**Work No. 10**

- 10(i) the construction of a 1,745 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 9(i) above, extending eastwards, then north eastwards, towards the Airport Roundabout;
- 10(ii) the improvement of the C251 Bullock Hill, on its north east side, to the north of the NDR classified road and 70 metres south east of its junction with Calf Lane (U57229), by the construction of a cul-de-sac turning head, at the access point to drainage lagoon No.12, at what will become its south easterly termination point on the north side of the NDR classified road;
- 10(iii) the construction of a 130 metres length of bridleway, from the north west termination point of stopped up C251 Bullock Hill, south eastwards, and then north eastwards alongside the north side of the NDR classified road, towards the Airport Roundabout;
- 10(iv) the construction of 1 drainage lagoon (No.12), and access thereto, to the north of the NDR classified road, and immediately to the north east of the C251 Bullock Hill and east of Calf Lane (U57229); and
- 10(v) the creation of grassland, woodland, and scrubland areas to the north side of this length of the NDR classified road, and grassland areas to the south side of this length of the NDR classified road,

all within the area identified as Work No. 10 on the Works Plan Sheet 5 of 12 and Sheet 6 of 12.

**Work No. 11**

- 11(i) the construction of a 50 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 10(i) above, extending north eastwards to the Airport Roundabout;
- 11(ii) the construction of a roundabout junction as part of the NDR classified road (known as 'Airport Roundabout'), incorporating a footway/cycleway, connecting with the bridleway described in 10(iii) above, to cross the westerly arm of the Airport Roundabout to connect with the new road described in 11(iv) below;
- 11(iii) the construction of a 45 metres length of the, dual carriageway, NDR classified road, extending south eastwards from the Airport Roundabout;
- 11(iv) the construction of a new street, a road, southwards, then westwards, off the south arc of the Airport Roundabout, and incorporating a northerly footway/cycleway off the westerly arm crossing of the Airport Roundabout (to connect with the remaining C251 Bullock Hill), to the south of the NDR classified road and providing access to the Petans Training Centre facility, the Airport Mast, and to Norwich International Airport;
- 11(v) the construction of a private means of access track, from its junction with the new street described in 11(iv) above, generally south eastwards to, and to connect with, the internal circulatory road of Norwich International Airport;
- 11(vi) the construction of a length of bridleway, extending from that length of bridleway described in 10(iii) above, skirting around the north arc of the Airport Roundabout;
- 11(vii) the construction of a length of private means of access track, from the north easterly arc of the Airport Roundabout, running south eastwards on the north east side of the NDR classified road;
- 11(viii) the construction of length of cycle track (with a right of way on foot), combined with a length of private means of access track, extending south eastwards off the new street described in 11(iv) above, running on the south west side of the NDR classified road; and
- 11(ix) the creation of woodland and grassland areas around the Airport Roundabout,

all within the area identified as Work No. 11 on the Works Plan Sheet 6 of 12.

**Work No. 12**

- 12(i) the construction of a 2,755 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 11(iii) above, extending south eastwards, then eastwards, then north eastwards, towards the North Walsham Road Roundabout;
- 12(ii) the construction of a new street, a road, and bridge crossing of the NDR classified road, to the east of the existing C246 Buxton Road;
- 12(iii) the improvement/realignment, by widening on its east side, of its carriageway and verges, of a 240 metres length of the C246 Buxton Road on its northerly approach to the new street described in 12(ii) above, including the incorporation within its western boundary of a bridle/pedestrian path connection between the easterly termination point of the bridleway described in 12(vii) below and running down its west side to the junction of Beeston Lane (U57187), and of the layout of internal access ways leading to the existing private means of access to Nos. 318 – 324 (evens) Buxton Road and to the electricity substation to the west and rear of No.318 Buxton Road; and by widening on its west and east sides, of its carriageway and verges, of a 370 metres length of the C246 Buxton Road on its southerly approach to the new street described in 12(ii) above;
- 12(iv) the construction of a new street, a road, from the southern boundary of Quaker Lane (U57188), 40 metres west of its existing junction with the C246 Buxton Road, south eastwards to its junction with the C246 Buxton Road;
- 12(v) the construction of a length of bridleway, combined with a private means of access track, from those lengths of bridleway and private means of access track described in 11(vi) and 11(vii), respectively, above, running alongside the north east side of the NDR classified road, extending south eastwards to junction with Quaker Lane (U57188) at its westerly termination point;
- 12(vi) the construction of a length of cycle track (with a right of way on foot), combined with a length of private means of access track, from that length of cycle track (with a right of way on foot)/private means of access track described in 11(viii) above, running alongside the south west side of the NDR classified road, extending south eastwards to junction with the C251 St Faiths Road;
- 12(vii) the construction of a bridleway, from its junction with the C251 St Faiths Road and the cycle track (with a right of way on foot) described in 12(vi) above, running alongside the south side of the NDR classified road, to connect with the west side of the improved C246 Buxton Road, south of the NDR classified road;
- 12(viii) the improvement/realignment of a 30 metres length of Quaker Lane (U57188) to connect with the new street described in 12(iv) above;
- 12(ix) the improvement/widening of Quaker Lane (U57188), at its westerly termination point to the west of Nos. 1 and 2 Quaker Cottages, by way of the construction of a cul-de-sac turning head on the south side of that street, to the north of the NDR classified road;
- 12(x) the improvement of the C251 St Faiths Road at its northerly termination point, 140 metres south west of Nos. 1 and 2 Quaker Cottages, by way of the construction of a cul-de-sac turning head on the west side of that street, to the south of the NDR classified road;
- 12(xi) the construction of a bridleway, from its junction with the improved C246 Buxton Road, on the south side of the NDR classified road, extending eastwards, under the new road bridge crossing of the NDR classified road described in 12(ii) above, and then extending southwards, alongside the east side of, and connecting with, the improved/realigned C246 Buxton Road, at a point 65 metres generally north of its junction with Beeston Lane (U57187);
- 12(xii) the construction of 1 drainage lagoon (No.13) to the north east side of the NDR classified road and to the west of Quaker Farm;
- 12(xiii) the construction of 1 drainage lagoon (No.13A) to the south side of the NDR classified road and to the south west of Quaker Farm;
- 12(xiv) the construction of 1 drainage lagoon (No.14), and access thereto, to the north side of the NDR classified road and to the east of the improved/realigned C246 Buxton Road;
- 12(xv) the construction of 1 drainage lagoon (No.14A), and access thereto, to the south side of the NDR classified road and to the east of the improved/realigned C246 Buxton Road;

- 12(xvi) the construction of a private means of access to the gas governor, off the new street described in 12(iv) above;
- 12(xvii) the creation of grassland, woodland and scrubland areas to the north side of the NDR classified road and grassland and woodland areas to the south side of the NDR classified road; and
- 12(xviii) the construction of a bat gantry crossing this length of the NDR classified road, 100 metres east of drainage lagoon No. 13A,
- all within the area identified as Work No. 12 on the Works Plan Sheet 6 of 12, Sheet 7 of 12 and Sheet 8 of 12.

**Work No. 13**

- 13(i) the construction of a 50 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 12(i) above, extending eastwards to the North Walsham Road Roundabout;
- 13(ii) the construction of a roundabout junction as part of the NDR classified road, on and to connect with the B1150 North Walsham Road (known as ‘North Walsham Road Roundabout’), incorporating footways/cycleways around all four arcs of the roundabout;
- 13(iii) the construction of a 45 metres length of the, dual carriageway, NDR classified road, extending eastwards from the North Walsham Road Roundabout;
- 13(iv) the improvement of the B1150 North Walsham Road, by widening on its east and west sides on its immediate southerly and northerly approaches to the North Walsham Road Roundabout;
- 13(v) the construction of a length of private means of access track, from the east side of the improved B1150 North Walsham Road, 95 metres north of the North Walsham Road Roundabout, running southwards, then eastwards, along the north side of the NDR classified road; and
- 13(vi) the creation of grassland and woodland areas around the North Walsham Road Roundabout,
- all within the area identified as Work No. 13 on the Works Plan Sheet 8 of 12.

**Work No. 14**

- 14(i) the construction of a 1,945 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 13(iii) above, extending eastwards, then south eastwards, towards the Wroxham Road Roundabout;
- 14(ii) the construction of a length of private means of access track, as a continuation of the length of private means of access described in 13(v) above, extending eastwards alongside the north side of the NDR classified road, to terminate at drainage lagoon No. 17 and with access off that length to drainage lagoon No.16;
- 14(iii) the construction of a length of bridleway, from the northern (90 degree) corner of Beeston Lane (U57186), extending northwards, and combined with a private means of access track along that northerly running length, then eastwards, alongside the south side of the NDR classified road, to junction with the north west side of the improved A1151 Wroxham Road, 80 metres south west of the Wroxham Road Roundabout;
- 14(iv) the construction of 1 drainage lagoon (No.16) to the north of the NDR classified road, 170 metres north east of North Park Cottage;
- 14(v) the construction of 1 drainage lagoon (No.17), including permanent wet area, to the north of the NDR classified road, 200 metres north east of the 90 degree corner of Beeston Lane (U57186);
- 14(vi) the creation of grassland and woodland areas to the north side of this length of the NDR classified road and grassland, woodland and scrubland areas to the south side of this length of the NDR classified road;
- 14(vii) the construction of a bat gantry crossing this length of the NDR classified road, 600 metres east of the North Walsham Road Roundabout; and
- 14(viii) the construction of a bat gantry crossing this length of the NDR classified road, 1,000 metres east of the North Walsham Road Roundabout,
- all within the area identified as Work No. 14 on the Works Plan Sheet 8 of 12 and Sheet 9 of 12.

**Work No. 15**

- 15(i) the construction of a 50 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 14(i) above, extending south eastwards to the Wroxham Road Roundabout;
- 15(ii) the construction of a roundabout junction as part of the NDR classified road, on and to connect with the A1151 Wroxham Road (known as 'Wroxham Road Roundabout'), incorporating the construction of footways/cycleways around the west, north and east arcs of the roundabout;
- 15(iii) the construction of a 45 metres length of the, dual carriageway, NDR classified road, extending south eastwards from the Wroxham Road Roundabout;
- 15(iv) the improvement, by widening on its south east and north west sides, of 120 metres lengths of the A1151 Wroxham Road on its north easterly and south westerly approaches to the Wroxham Road Roundabout;
- 15(v) the construction of a length of bridleway, as a continuation of the bridleway described in 14(iii) above, extending south westwards to junction with the north west side of the improved A1151 Wroxham Road, 120 metres south west of the Wroxham Road Roundabout;
- 15(vi) the construction of a length of bridleway, from the south east side of the improved A1151 Wroxham Road, extending north eastwards, then skirting the south arc of the Wroxham Road Roundabout, to continue south eastwards alongside the west side of the NDR classified road;
- 15(vii) the construction of two private means of access tracks, to the sewage works and the springs, off the north arc of the Wroxham Road Roundabout;
- 15(viii) the construction of a private means of access track off the south arc of the Wroxham Road Roundabout; and
- 15(ix) the creation of grassland and woodland areas around the Wroxham Road Roundabout, all within the area identified as Work No. 15 on the Works Plan Sheet 9 of 12.

**Work No. 16**

- 16(i) the construction of a 1,655 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 15(iii) above, extending south westwards towards the Salhouse Road Roundabout;
- 16(ii) the construction of a private means of access track, off the C258 Green Lane West, lying to the south of The Close, extending south westwards and terminating at drainage lagoons No.18 and No.18A and the pumping station;
- 16(iii) the construction of a bridleway, from the junction of Newman Road (U57490) with Long's Crescent (U57852), extending south westwards to the west side of the NDR classified road, combined with part of the private means of access track described in 16(iv) below, including the construction of a bridge to carry it, and the said private means of access, across the NDR classified road;
- 16(iv) the construction of a private means of access track, from the junction of Newman Road (U57490) with Long's Crescent (U57852), extending south westwards, then generally westwards, and combined with the bridleway described in 16(iii) above over its first 265 metres length, for 550 metres, and with three main access track spurs leading off it, including the construction of a bridge to carry it, and the bridleway described in 16(iii) above, across the NDR classified road;
- 16(v) the construction of a length of bridleway, as a continuation to the bridleway described in paragraph 15(vi) above, running alongside the west side of the NDR classified road, to connect with the Newman Track bridleway/private means of access bridge;
- 16(vi) the construction of a length of cycle track (with a right of way on foot), from the junction with the bridleway described in 16(iii) above, running alongside the west side of the NDR classified road, extending south eastwards towards the Salhouse Road Roundabout;
- 16(vii) the construction of a bat underpass, combined with a drainage culvert, under the NDR classified road, west Sir Edward Stacey Road (U57538), including the provision of a natural flow ditch running from the eastern end of the culvert;
- 16(viii) the demolition of Gazebo Farm and Hall Farm buildings;
- 16(ix) the construction of 1 bat house at Gazebo Farm and 1 bat house at Hall Farm;

- 16(x) the creation of 1 drainage lagoon (No.18), including permanent wet area, to the east side of this length of the NDR classified road and 210 metres north west of Sir Edward Stracey Road (U57358);
  - 16(xi) the creation of a natural flow ditch to the south and west of drainage lagoon No. 18;
  - 16(xii) the creation of 1 drainage lagoon (No. 18A) to the east side of this length of the NDR classified road and to the north of drainage lagoon No. 18;
  - 16(xiii) the creation of a flood plain compensatory storage area (No.18B) to the east of this length of the NDR classified road and to the south of drainage lagoon No.18;
  - 16(xiv) the provision of ecological ponds to the west of this length of the NDR classified road and to north west of Newman Road overbridge; and
  - 16(xv) the creation of grassland and woodland areas to the east side of this length of the NDR classified road and grassland, woodland and scrubland areas to the west side of this length of the NDR classified road,
- all within the area identified as Work No. 16 on the Works Plan Sheet 9 of 12 and Sheet 10 of 12.

**Work No. 17**

- 17(i) the construction of a 50 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 16(i) above, extending south eastwards to the Salhouse Road Roundabout;
  - 17(ii) the construction of a roundabout junction as part of the NDR classified road, on and to connect with, the C283 Salhouse Road (known as ‘Salhouse Road Roundabout’), incorporating the construction of footways/cycleways around the north, south and east arcs of the Salhouse Road Roundabout;
  - 17(iii) the construction of a 50 metres length of the, dual carriageway, NDR classified road, extending south eastwards from the Salhouse Road Roundabout;
  - 17(iv) the improvement, by widening on its north west and south east sides, of a 175 metres length of the C283 Salhouse Road on its south westerly approach to the Salhouse Road Roundabout and of a 70 metres length on its north easterly approach to the Salhouse Road Roundabout, and the improvement, by widening on its south east side only, of a further 120 metres length of the C283 Salhouse Road, extending south westwards from a point 20 metres south west of its junction with the carriageway of the C258 Green Lane West/Green Lane East, and of a 55 metres length extending south westwards from a point 70 metres south west of its junction with the Salhouse Road Roundabout;
  - 17(v) the construction of a length of cycle track (with a right of way on foot), as a continuation of the cycle track described in 16(vi) above, extending south eastwards, around the west arc of the Salhouse Road Roundabout, then south westwards to junction with the north west side of the improved C283 Salhouse Road, some 60 metres south west of the Salhouse Road Roundabout; and
  - 17(vi) the creation of grassland and woodland areas around the Salhouse Road Roundabout,
- all within the area identified as Work No. 17 on the Works Plan Sheet 10 of 12.

**Work No. 18**

- 18(i) the construction of a 1,205 metres length of the, dual carriageway, NDR classified road, from that length of the NDR classified road described in 17(iii) above, extending south eastwards to and including the construction of a new roundabout junction (known as ‘Plumstead Road Roundabout South’), 310 metres south east of the NDR classified road crossing of the Norwich to Cromer & Sheringham Railway line, and extending 45 metres southwards of that roundabout junction;
- 18(ii) the improvement of the C258 Broad Lane, on its south west side, opposite the property ‘Leighton House’, by the construction of a cul-de-sac turning head at that point; and of the undertaking of other landscaping/verge works across the north west junction of the C258 Broad Lane/C874 Plumstead Road 90 metres to the south east of the aforementioned turning head, which will provide the physical works of closure at that junction;
- 18(iii) the improvement, by widening on its south east side, of a 420 metres length of the C874 Plumstead Road extending south westwards from a point 20 metres south west of its junction

with the C258 Broad Lane, including the construction of a footway/cycleway within the north western boundary of that length of improved street and the construction of a roundabout junction (known as 'Plumstead Road Roundabout North') on, and as part of the improvement of, the C874 Plumstead Road, at a point 220 metres south west of its junction with the C258 Broad Lane;

- 18(iv) the construction of a new street, a road, between the Plumstead Road Roundabout North and the Plumstead Road Roundabout South;
  - 18(v) the construction of a bridge to carry the NDR classified road over the C874 Plumstead Road;
  - 18(vi) the construction of a bridleway, combined with the private means of access described in 18(vii) below for its first 90 metres length, running along the west side of the Norwich to Cromer & Sheringham railway, from a point on the C874 Plumstead Road just west of the gas compound, extending north westwards, then north eastwards, then northwards, to junction with the C258 Green Lane East;
  - 18(vii) the construction of a private means of access track, combined with the bridleway described in 18(vi) above for its first 90 metres length, from the C874 Plumstead Road just west of the gas compound, extending north westwards, then north eastwards, then north westwards, running along the south west side of the NDR classified road;
  - 18(viii) the construction of a bridleway, from the south east side of the improved C874 Plumstead Road, opposite 'Ladoma', extending south westwards, along the south east side of the improved C874 Plumstead Road, then southwards, along the east side of the street described in 18(iv) above, then skirting the east arc of the Plumstead Road Roundabout South, then extending 45 metres southwards of that roundabout junction, along the east side of the NDR classified road;
  - 18(ix) the construction of a 110 metres private means of access track, running westwards, then northwards, off the west arc of the Plumstead Road Roundabout South;
  - 18(x) the construction of a 75 metres private means of access track, running eastwards off the new street described in 18(iv) above;
  - 18(xi) the construction of 1 drainage lagoon (No.19), and access thereto, to the east side of this length of the NDR classified road and 250 metres south west of the C283 Salhouse Road/C258 Green Lane East junction;
  - 18(xii) the construction of 1 drainage lagoon (No.20), and access thereto, to the east side of this length of the NDR classified road and 370 metres south of the C283 Salhouse Road/C258 Green Lane East junction;
  - 18(xiii) the construction of 1 drainage lagoon (No.21), and access thereto, to the east side of the Plumstead Road Roundabout North and 160 metres west of the C874 Plumstead Road/C258 Broad Lane junction;
  - 18(xiv) the construction of 1 drainage lagoon (No.22), and access thereto, to the north side of the Plumstead Road Roundabout South and 300 metres south west of the C874 Plumstead Road/C258 Broad Lane junction; and
  - 18(xv) the creation of grassland and woodland areas adjoining and within the junction works described in 18(i) – (iii) above, and on the east and west sides of this length of the NDR classified road,
- all within the area identified as Work No. 18 on the Works Plan Sheet 10 of 12 and Sheet 11 of 12.

#### **Work No. 19**

- 19(i) the construction of a new bridge to carry the NDR classified road over the Norwich to Cromer & Sheringham Railway line, including drainage works, earthworks, pavement works, kerbing and paved area works, signing and road marking works, safety barrier works, fencing works, landscaping works and other works associated with the construction of that bridge component of the NDR classified road,

all within the area identified as Work No. 19 on the Works Plan Sheet 10 of 12.

#### **Work No. 20**

- 20(i) the construction of a 2,015 metres length of the, dual carriageway, NDR classified road, extending from that length of the NDR classified road described in 18(i) above, southwards, then south eastwards, towards the Business Park Roundabout, including the construction of

- northbound and southbound lay-bys on this length of the NDR classified road, immediately east of drainage lagoon No. 24;
- 20(ii) the improvement, by widening on both its north and south sides, of the C442 Middle Road on its 310 metres length easterly approach, and 190 metres length westerly approach to its bridge crossing of the NDR classified road, together with the construction of a bridge to carry its 75 metres realigned length, between the two aforementioned lengths, over the NDR classified road, and incorporating a bridle/pedestrian path within its southern embankment improvement, west of the NDR classified road, to connect with the new bridleway described in 20(xi) below;
  - 20(iii) the improvement, by widening on its north side, of a length of Low Road (U59392) immediately to the east of the NDR classified road, by way of the construction of a turning head at what is to be its western termination point on the east side of the NDR classified road;
  - 20(iv) the improvement, by widening on its north side, of a length of Low Road (U59392) immediately to the east of its junction with Green Lane (U59278), by way of the construction of a turning head at what is to be its eastern termination point on the west side of the NDR classified road;
  - 20(v) the improvement, by widening on its south side, of a length of Smee Lane (U59400), at a point 180 metres east of its junction with the Green Lane (U59278)/C832 Cranley Road/C830 Broadland Way roundabout junction, by way of the construction of a turning head at what is to be its eastern termination point on the west side of the NDR classified road;
  - 20(vi) the improvement, by widening on its south side, of a length of Smee Lane (U59400) immediately to the east of the NDR classified road, by way of the construction of a turning head at what is to be its western termination point on the east side of the NDR classified road;
  - 20(vii) the construction of a length of bridleway, as a continuation of the bridleway described in paragraph 18(viii) above, running southwards alongside the east side of the NDR classified road, to junction with the C442 Middle Road (U59400);
  - 20(viii) the construction of a new private means of access track to Oaks Farm;
  - 20(ix) the construction of a bridleway, from the C442 Middle Road (U59400), running southwards alongside the east side of the NDR classified road, to junction with Smee Lane (U59400);
  - 20(x) the construction of a cycle track (with a right of way on foot), from the bridleway described in 20(ix) above, at Smee Lane (U59400), combined with a private means of access track over a 185 metres length to lagoon No.25, running south eastwards alongside the east side of the NDR classified road, towards the Business Park Roundabout;
  - 20(xi) the construction of a bridleway running south eastwards alongside the west side of the NDR classified road, from the C442 Middle Road to junction with the bridleway described in 20(xiii) below and, part way along its length, with the bridleway described in 20 (xii) below;
  - 20(xii) the construction of a bridleway, combined with a private means of access track to various premises along that length, along stopped up Low Road (U59392), from the turning head on Low Road (U59392), immediately east of Green Lane (U59278), running eastwards to junction with the bridleway described in 20(xi) above;
  - 20(xiii) the construction of a bridleway, combined with part of the private means of access track described in 20(xiv) below, from the westerly turning head on Smee Lane (U59400), running eastwards to junction with the bridleway described in 20(xi) above;
  - 20(xiv) the construction of a private means of access track, combined in part with the bridleway described in 20(xiii) above, from the westerly turning head on Smee Lane (U59400), running eastwards to and including an access turning head to be constructed immediately to the west of the NDR classified road;
  - 20(xv) the construction of 1 drainage lagoon (No.23), and access thereto, to the east side of the NDR classified road 120 metres south west of the junction of the C442 Middle Road with Toad Lane (U59284);
  - 20(xvi) the construction of 1 drainage lagoon (No.24), and access thereto, to the west side of the NDR classified road 120 metres east of the Nursery outbuildings located north off Smee Lane (U59400);
  - 20(xvii) the construction of 1 drainage lagoon (No.25), and access thereto, east of the NDR classified road and 160 metres to the north of the Business Park Roundabout;
  - 20(xviii) the creation of grassland and woodland areas to the east and west sides of this length of the NDR classified road;

- 20(xix) the construction of a bat gantry crossing this length of the NDR classified road, 450 metres south of the Plumstead Road Roundabout South; and
- 20(xx) the construction of a bat gantry crossing this length of the NDR classified road, 500 metres north of the Business Park Roundabout,
- all within the area identified as Work No. 20 on the Works Plan Sheet 11 of 12 and Sheet 12 of 12.

**Work No. 21**

- 21 the construction of a new junction (known as ‘Postwick Hub Junction’) to link the, dual carriageway, NDR classified road described in 20(i) above with the A47 Trunk Road, comprising:
- 21(i) the construction of a 50 metres length of, dual carriageway, NDR classified road from that length of the NDR classified road described in 20(i) above, extending south eastwards to the Business Park Roundabout;
- 21(ii) the construction of a roundabout junction as part of the NDR classified road, at the south east end of the NDR classified road described in 21(i) above (known as ‘Business Park Roundabout’);
- 21(iii) the construction of a 550 metres length of the, dual carriageway, NDR classified road, from the Business Park Roundabout, south westwards to a new roundabout on the north side of the A47 Trunk Road (known as ‘Postwick North East Roundabout’);
- 21(iv) the construction of a roundabout at the south west end of the NDR classified road described in 21(iii) above (known as ‘Postwick North East Roundabout’);
- 21(v) the construction of a new bifurcated A47 Trunk Road eastbound diverge slip road, from a point on the eastbound carriageway of the A47 Trunk Road 250 metres generally east of where the A47 Trunk Road crosses over the Norwich to Yarmouth & Lowestoft Railway line, generally eastwards to connect with the Postwick North East Roundabout and with the northbound carriageway of the NDR classified road;
- 21(vi) the construction of a new A47 Trunk Road eastbound merge slip road, from the Postwick North East Roundabout, generally eastwards to connect with the eastbound carriageway of the A47 Trunk Road 125 metres west of the private access to ‘The Grange’;
- 21(vii) the construction of a 300 metres length of the, single carriageway, NDR classified road, and a new bridge crossing of the A47 Trunk Road (known as ‘New Postwick Bridge’), incorporating an easterly footway/cycleway along its length, from the Postwick North East Roundabout, south westwards to the junction of the A1042 Yarmouth Road, in the vicinity of the existing and proposed Postwick Park and Ride sites;
- 21(viii) the improvement of the A1042 Yarmouth Road, by the construction of a signalised junction (known as ‘Park and Ride Signalised Junction’), to replace the existing roundabout on the A1042 Yarmouth Road at the existing Postwick Park and Ride site;
- 21(ix) the improvement of the A1042 Yarmouth Road, over a 630 metres length east from the signalised junction described in 21(viii) above, including the provision of its tie-in with the new signalised junction and, along its northern verge, the construction of a new footway/cycleway eastwards to its junction with the C440 Church Road;
- 21(x) bridge and carriageway/verge alterations to the existing A1042 Yarmouth Road bridge over the A47 Trunk Road, including replacement of the bridge parapets, remodelling of its carriageway to provide three 3 metres wide lanes (2 southbound and 1 northbound), the construction of a footway/cycleway within the widened west side of the bridge, and the construction of a new vertical retaining northern bridge abutment, to replace the existing sloping paved embankment;
- 21(xi) the construction of a 550 metres single carriageway link road (known as ‘Broadland Gate Link’), from the Business Park Roundabout, westwards to the C829/C830 Broadland Way/C831 Peachman Way roundabout, incorporating the construction of a new roundabout (known as ‘Broadland Gate Roundabout’) and a 15 metres length southwards stub connection (for future access connection to the internal road layout proposed to serve the proposed Broadland Gate mixed commercial development), 310 metres along its length west of the Business Park Roundabout;
- 21(xii) the improvement of the east arc of the C829/C830 Broadland Way/C831 Peachman Way roundabout, to provide the tie-in connection with the Broadland Gate Link described in 21(xi)

above and to part realign the southbound entry through the roundabout from the C831 Peachman Way;

- 21(xiii) alterations to the existing Postwick North West Roundabout, comprising the construction of a 14 metres eastwards stub connection (for the provision of future access to the proposed Broadland Gate development), and its widening on its south arc to incorporate carriageway alterations resulting from the removal of its connection with the A47 Trunk Road diverge slip road which is to be stopped up, together with the construction of a footway/cycleway connection across the north easterly connection point of the A47 Trunk Road diverge slip road which is to be removed;
- 21(xiv) the construction of a length of cycle track (with a right of way on foot), as a continuation of the cycle track described 20(x) above, running south, around the east side of the Business Park Roundabout, then continuing south westwards to junction with the Postwick North East Roundabout;
- 21(xv) the construction of a cycle track (with a right of way on foot), from the eastbound carriageway of the A47 Trunk Road to the Postwick North West Roundabout;
- 21(xvi) the construction of a private means of access from the Postwick North East Roundabout running eastwards to 'The Grange', and along its length providing access to drainage lagoon No.30;
- 21(xvii) the construction of a length of private means of access (continuing the existing length of access as extends off the C829 Broadland Way), running alongside the north side of the new A47 Trunk Road eastbound diverge slip road, to Heath Farm;
- 21(xviii) the construction of 1 drainage lagoon (No.26) west of the Broadland Gate Roundabout and to the east of the C829/C830 Broadland Way/C831 Peachman Way roundabout;
- 21(xix) the construction of 1 wide infiltration swale (No.27) within the west side of the NDR classified road, between the Postwick North East Roundabout and the Business Park Roundabout;
- 21(xx) the construction of 1 drainage lagoon (No.28), and access thereto, to the west of the Postwick North East Roundabout, to the south of the new A47 Trunk Road eastbound diverge slip road, and to the north of the A47 Trunk Road eastbound carriageway;
- 21(xxi) the construction of 1 drainage lagoon (No.29) to the north east of the A1042 Yarmouth Road Park and Ride Signalised Junction;
- 21(xxii) the construction of 1 drainage lagoon (No.30) to the east of the Postwick North East Roundabout and to the north of the new A47 Trunk Road eastbound merge slip road; and
- 21(xxiii) the creation of grassland, woodland and scrubland areas adjoining and within the Postwick Hub Junction,

all within the area identified as Work No. 21 on the Works Plan Sheet 12 of 12.

#### **Work No. 22**

- 22(i) the construction of a 95 metres length of single carriageway road, from the junction with the C258 Green Lane West 115 metres south east of its existing junction with the A1151 Wroxham Road, generally north westwards to its junction with the A1151 Wroxham Road;
- 22(ii) the improvement, by widening and realignment on its west side, of a 62 metres length of the C258 Green Lane West, from the south easterly connection point of, and so as to provide a tie-in with, the new street described in 22(i) above;
- 22(iii) the improvement, by widening, of a 15 metres length of the C258 Green Lane West at its junction with the A1151 Wroxham Road, by way of the construction of a cul-de-sac turning head at that point (at which its existing junction with the A1151 Wroxham Road will be closed); and
- 22(iv) the improvement of a 160 metres length of the A1151 Wroxham Road south west of, and a 160 metres length north east of, the junction of the new street described in 22(i) above, including widening and verge alterations along parts of that length, including at the point of its junction with the existing C258 Green Lane West which will implement landscaping/verge works which will provide the physical works of closure of that junction,

all within the area identified as Work No. 22 on the Works Plan Sheet 9 of 12.

#### **Work No. 23**

- 23(i) street improvement works over a 750 metres length of the C874 Plumstead Road, south westwards from a point 230 metres north east of its junction with Broadland Drive (U51073), and over a 20 metres length of Broadland Drive (U51073) from its junction with the C874 Plumstead Road, at Thorpe End, including the construction of a mini roundabout at the junction of the C874 Plumstead Road with Broadland Drive (U51073), and the construction of a footway/cycleway within the northern verge of the C874 Plumstead Road along the frontages of No.15 Percy Howes Close and Nos. 49-63 (odds) Plumstead Road,
- all within the area identified as Work No. 23 on the Works Plan Sheet 11 of 12.

**Work No. 24**

- 24(i) the improvement of a 80 metres length of the B1150 North Walsham Road south of, and a 78 metres length north of, its junction with the C249 Rackheath Lane, incorporating verge alterations along parts of those lengths, including at the point of its junction with the existing C249 Rackheath Lane which will implement landscaping/verge works which will provide the physical works of closure of that junction, together with the provision of a widened filter lane from the C249 Crostwick Lane to the northbound lane of the B1150 North Walsham Road; and
- 24(ii) the improvement, by widening, of a 15 metres length of the C249 Rackheath Lane at its junction with the B1150 North Walsham Road, by way of the construction of a cul-de-sac turning head at that point (at which its existing junction with the B1150 North Walsham Road will be closed),
- all within the area identified as Work No. 24 on the Works Plan Sheet 8 of 12.

And in connection with the undertaking of any of those works described in Work Nos. 1 - 24, such further development within the Order limits as may comprise of:

- (a) drainage works, earthworks, pavement works, kerbing and paved area works, signing and road marking works, safety barrier works, fencing works, landscaping works and other works integral to or otherwise incidental to the construction of the NDR classified road and to the construction or improvement of other streets, junctions, roundabouts, structures and private means of access;
- (b) alteration of the layout of any street permanently or temporarily, including but not limited to increasing the width of the carriageway of the street by reducing the width of any kerb, footway, cycleway or verge within the street; altering the level or increasing the width of any such kerb, footway, cycleway or verge; reducing the width of the carriageway of the street; and provision of turning heads;
- (c) ramps, means of access, field accesses, footpaths, bridleways, cycle tracks, embankments, viaducts, aprons, abutments, shafts, foundations, retaining walls, drainage, wing walls, street lighting, fencing and culverts;
- (d) street works, including breaking up or opening a street, or any sewer, drain or tunnel under it; tunnelling or boring under a street; works to place or maintain apparatus in a street, works to alter the position of apparatus, including mains, sewers, drains and cables;
- (e) works to divert, alter, or other works to apparatus including mains, sewers, drains and cables;
- (f) works to alter the course of, or otherwise interfere with, a watercourse other than a navigable watercourse;
- (g) landscaping and other works, including the provision of hedgerows, to mitigate any adverse effects of the construction, maintenance or operation of the authorised development, including fencing and other boundary treatments;
- (h) works for the benefit or protection of land affected by the authorised development;
- (i) works required for the strengthening, improvement, maintenance, or reconstruction of any streets;
- (j) the provision of bat boxes, bat gantries, newt fencing, badger fencing and boxes for other wildlife; and
- (k) such other works, including contractor's compounds, working sites, storage areas, temporary top soil storage areas, and works of demolition, as may be necessary or expedient for the

purposes of or in connection with the construction or maintenance of the authorised development and which fall within the scope of the environmental impact assessment.

## SCHEDULE 2

### REQUIREMENTS

Articles 3 and 45

#### Interpretation

1. In this Schedule the following expressions have the following meanings:

“commence” means the carrying out of a material operation, as defined in section 155 of the 2008 Act (when development begins), comprised in or carried out for the purposes of the authorised development, or any part of the authorised development, but not including any environmental (including archaeological) investigations, or site or soil survey;

"Design Manual for Roads and Bridges" means the document(s) of that name published by the Department for Transport;

“European protected species” has the same meaning as in Regulations 40 and 44 of the Conservation of Habitats and Species Regulations 2010;

“heavy goods vehicle” means a heavy goods vehicle of 7.5 tonnes gross vehicle weight or more;

“Marriott’s Way” means the land defined as the “Marriott’s Way open space land” in article 2;

"mitigation table" means the table describing the mitigation in the environmental statement for the authorised development dated [●] and bearing the reference [●];

"relevant district authority" means in respect of each of their respective administrative areas Broadland District Council, Norwich City Council and the Broads Authority (as applicable in respect of each work number); and

“relevant planning authority” means Norfolk County Council.

#### Time limits

2. The authorised development must not commence later than the expiration of 5 years beginning with the date that this Order comes into force.

#### Commencement of the authorised development

3. Notice of commencement of the authorised development must be given to the relevant planning authority in writing within 7 days of the date that the authorised development is commenced.

#### Development to be carried out in accordance with plans

4. (1) The authorised development must be carried out in accordance with the approved plans, such plans being subject to the limits of deviation, bearing references listed below and any other plans, drawings, documents, details, schemes, statements or strategies which have been approved by the relevant planning authority pursuant to any requirement:

Plan Name	Plan Numbers
Works Plans	R1C093-R1-5002, R1C093-R1-5003, R1C093-R1-5004, R1C093-R1-5005, R1C093-R1-52065006, R1C093-R1-5007, R1C093-R1-5008, R1C093-R1-5009, R1C093-R1-50010, R1C093-R1-50011, R1C093-R1-50012, R1C093-R1-50013
General Arrangement Plans	R1C093-R1-5015, R1C093-R1-5016, R1C093-R1-5017, R1C093-R1-52025018, R1C093-R1-5019, R1C093-R1-5020, R1C093-R1-5021, R1C093-R1-5022, R1C093-R1-5023, R1C093-R1-5024, R1C093-R1-5025, R1C093-R1-5026
Landscaping plans	MMD-233906-DT-0866, MMD-233906-DT-0867, MMD-233906-DT-0868, MMD-233906-DT-0869, MMD-233906-DT-0870, MMD-233906-DT-0871, MMD-233906-DT-0872, MMD-233906-DT-0873, MMD-

	233906-DT-0874, MMD-233906-DT-0875, MMD-233906-DT-0876, MMD-233906-DT-0877, MMD-233906-DT-0878, MMD-233906-DT-0941
Bat Gantry Plans	233906-EC01-0010, 233906-EC01-0001, 233906-EC01-0002, 233906-EC01-0003, 233906-EC01-0004, 233906-EC01-0005, 233906-EC01-0006, 233906-EC01-0007

(2) The authorised development must be carried out in accordance with and incorporating the measures set out in the mitigation table.

### **Landscape and ecology**

5.—(1) No part of each of work numbers 1 to 24 is to commence until a written landscape and ecological management plan covering the landscape and ecological and nature conservation elements forming part of the relevant work number has been submitted to and, following consultation with the relevant district authorities and Natural England, approved in writing by the relevant planning authority.

(2) The landscape and ecological management plan (or plans) must include the following which must comply with or include relevant measures, details or mitigation set out in the environmental statement—

- (a) details of the landscape, ecological and nature conservation works and measures;
- (b) details of the implementation of the landscape, ecological and nature conservation works and measures; and
- (c) details of the management, monitoring and maintenance of the landscape, ecological and nature conservation works and measures.

(3) The approved landscape and ecological management plan (or plans) must be implemented in full.

(4) Any tree or shrub planted as part of the approved landscape and ecological management plan (or plans) that, within a period of 5 years after planting, is removed, dies or becomes in the opinion of the relevant planning authority, seriously damaged or diseased must be replaced in the first available planting season with a specimen of the same species as that originally planted.

(5) In the event that any European protected species are found at any time when carrying out the authorised development which was not previously identified in the environmental statement, the species and its location must be reported immediately to Natural England and the relevant planning authority.

(6) Natural England will agree in writing a scheme for the protection of, and mitigation measures for, the relevant European protected species which must be implemented immediately.

### **Existing trees and hedgerows and soil**

6.—(1) All hedges and trees forming part of the boundary of the Order land or situated within it (unless shown to be removed in the environmental statement or in a landscape and ecological management plan approved pursuant to requirement 5 must be protected from any damage during the construction of the authorised development in accordance with BS5837 (2012) ‘Trees in relation to design, demolition and construction’.

(2) If any hedge or tree protected under sub-paragraph (1) is removed, uprooted, destroyed or damaged during the construction of the authorised development it must be replaced in the first available planting season and thereafter maintained for a period of 5 years.

(3) All areas of the site left undisturbed, and all soil, soil making material and overburden mounds must be kept free from noxious weeds throughout the construction of the authorised development. Soil making material must be kept free of compaction. For the avoidance of doubt, the provisions of the DEFRA Construction Code of Practice for the Sustainable Use of Soils on Construction Sites (2009) must be complied with.

(4) Any felling, lopping or removal of hedges and trees during the bird nesting season must be preceded by a written report by a suitably qualified ecologist, which must be supplied to the relevant planning authority. The recommendations of the ecologist as set out in the report must be complied with in relation to any relevant activity involving felling, lopping or removal of hedges or trees.

## **Contamination**

7.—(1) No part of each of work numbers 1 to 24 is to commence until a written scheme applicable to that work, to deal with the contamination of any land, including water resources, within the Order limits which is likely to cause significant harm to persons or the environment has been submitted to and, following consultation with the relevant district authorities and the Environment Agency, approved in writing by the relevant planning authority.

(2) The written scheme(s) submitted pursuant to paragraph (1) must include an investigation and assessment report, prepared by a suitably qualified person, identifying the extent and character of the contamination and the programme of remedial measures to be taken as necessary to render the land fit for the intended purpose.

(3) The implementation of work numbers for which remedial measures are required must be carried out in accordance with the written scheme(s) and relevant programme of remedial measures approved pursuant to paragraph (1).

(4) In the event that contaminated materials are found at any time when carrying out the authorised development which were not previously identified in the environmental statement or the scheme(s) approved pursuant to paragraph (1), work in the location affected by such contamination will immediately stop, it must be reported in writing to the relevant planning authority and the undertaker must complete a risk assessment of the contamination.

(5) Following a notification pursuant to paragraph (4), where the relevant planning authority determines that remediation is necessary, a written scheme and programme for the remedial measures to be taken as necessary to render the land fit for its intended purpose, must be submitted to and approved in writing by the relevant planning authority and thereafter carried out

(5) Remediation must be carried out in accordance with the scheme(s) approved pursuant to this requirement 7. Following completion of remedial measures identified in the approved scheme(s) a verification report must be prepared, which must be approved by the relevant planning authority, in consultation with the relevant district authorities and the Environment Agency.

## **Noise and Vibration**

8.—(1) No part of each of work numbers 1 to 24 may commence until a written scheme for noise and vibration management during construction of that work number has been submitted to and, following consultation with the relevant district authorities, approved by the relevant planning authority.

(2) The scheme, which must comply with or include relevant measures, details or mitigation set out in the environmental statement, must set out the particulars of—

- (a) the works necessary for the work number(s) in question and the method by which they are to be carried out;
- (b) the noise attenuation measures to be taken to minimise noise resulting from such works including any noise limits; and
- (c) a scheme for monitoring the noise during such works to ensure compliance with the noise limits and the effectiveness of the attenuation measures.

(3) The approved noise and vibration management scheme must be implemented before and maintained during the construction of the relevant part of the authorised development.

(4) The construction works must be undertaken in accordance with the approved noise and vibration management scheme.

### **Construction Workers Travel Plan**

9.—(1) No part of each of work numbers 1 to 24 may commence until a travel plan covering the construction of that work number, which must include details of the expected means of travel to and from the authorised development and any parking to be provided, has been submitted to and, following consultation with the relevant district authorities, approved by the relevant planning authority.

(2) The travel plan (or plans) approved pursuant to paragraph (1) must be implemented in full during the construction of the authorised development.

### **Construction Traffic Management**

10.—(1) No part of each of work numbers 1 to 24 may commence until the locations and details of the access points, routing and temporary signing for traffic associated with the construction of that work number from the public highway have been submitted to and, following consultation with the relevant district authorities and Breckland District Council, approved in writing by the relevant planning authority.

(2) The temporary signing must be provided in accordance with the details approved pursuant to paragraph (1).

(3) All construction traffic must access the authorised development using routes and access points approved pursuant to paragraph (1) at all times.

### **Hours of Working**

11.—(1) No construction works, or the delivery or removal of materials may take place outside the hours of-

(a) 07:00 to 19:00 hours on Mondays to Fridays (except for Public Holidays); and

(b) 07:00 to 13:00 hours on Saturdays or on Public Holidays.

(2) Sub-paragraph (1) does not prevent outside such hours –

(a) the use of pumping equipment or the carrying out of essential on-site repairs to plant and machinery; and

(b) construction works, or the delivery or removal of materials carried out with the prior written approval of the relevant planning authority.

### **Dust and mud on the highway during construction**

12.—(1) No part of each of work numbers 1 to 24 may commence until wheel cleaning facilities have been installed to clean the wheels of all construction vehicles entering the public highway from the site of that work number, the design, specification and locations of which must first be approved in writing by the relevant planning authority.

(2) The approved facilities must remain in position and be maintained in full working order and be used by all heavy goods vehicles throughout the construction of the authorised development to minimise the risk that dust, mud or other deleterious matter is transferred to the public highway by vehicles leaving the authorised development.

### **Dust and mud during construction - air quality**

13.—(1) No part of each of work numbers 1 to 24 may commence until measures relevant to the construction of that work number to minimise the risk of dust or windblown material being carried on to adjacent land have been submitted to and, following consultation with the relevant district authorities, approved in writing by the relevant planning authority.

(2) The approved measures relevant to the construction of that work number must be implemented in full throughout the construction of the authorised development.

(3) The loads of a heavy goods vehicles carrying material in to or out of the authorised development during the construction of the authorised development must be secured appropriately, having particular regard to granular material.

### **Safeguarding of watercourses and drainage**

**14.**—(1) No part of each of work numbers 1 to 24 may commence until a written scheme for the provision and implementation of pollution control relevant to the construction of that work number has been submitted to and, following consultation with the relevant district authorities and the Environment Agency, approved in writing by the relevant planning authority.

(2) The written scheme (or schemes) must include the following which must comply with or include relevant measures or details set out in the environmental statement---

- (a) details of measures for the collection, treatment and disposal of all water entering or arising on the Order land;
- (b) details of measures for the collection and disposal of foul drainage; and
- (c) details of measures for the storage of any chemicals, oil or fuel.

(3) The approved scheme (or schemes) must be implemented in full.

### **Archaeology**

**15.**—(1) No part of each of work numbers 1 to 24 may commence until a written scheme of archaeological investigation covering the relevant work number has been submitted to and, following consultation with the relevant district authorities, approved in writing by the relevant planning authority.

(2) The authorised development must be carried out at all times in accordance with the scheme (or schemes) approved under sub-paragraph (1).

(3) Any archaeological remains not previously identified in the written scheme approved pursuant to paragraph 1 or in the environmental statement which are revealed when carrying out the authorised development must be retained in situ (subject to paragraph 4) and reported to the relevant planning authority in writing within 3 working days.

(4) No construction operations may take place within 10 metres of such remains for a period of 14 days from the date of such notification unless otherwise agreed in writing by the relevant planning authority.

(5) If the relevant planning authority confirm in writing to the undertaker during the 14 day period referred to in paragraph (4) that the archaeological remains require further investigation, then no construction operations may take place within 10 metres of the remains until provision has been made for the investigation and recording of the remains in accordance with details first submitted to and approved by the relevant planning authority.

### **Site waste management plan**

**16.**—(1) No part of each of work numbers 1 to 24 may commence until a Site Waste Management Plan (SWMP) covering the relevant work number has been submitted to and, following consultation with the relevant district authorities and the Environment Agency, approved in writing by the relevant planning authority.

(2) All construction works must be undertaken in accordance with the approved SWMP(s).

### **Control of emissions during construction**

**17.**—(1) No part of each of work numbers 1 to 24 may commence until a written scheme covering the construction of that work number for the management and mitigation or emissions from the authorised development of-

- (i) odour;
- (ii) artificial light; and
- (iii) smoke

has been submitted to and, following consultation with the relevant district authorities, approved in writing by the relevant planning authority.

(2) All construction works must be undertaken in accordance with the schemes approved pursuant to paragraph (1).

#### **Construction environmental management plan**

**18.—**(1) No part of each of work numbers 1 to 24 may commence until a Construction Environment Management Plan (CEMP) covering the relevant work number has been submitted to and, following consultation with the relevant district authorities and the Environment Agency and Natural England, approved in writing by the relevant planning authority.

(2) Any CEMP must reflect the details of controls on construction operations approved under other requirements and must reflect the draft CEMP submitted within Volume 1 of the environmental statement.

(3) All construction works must be undertaken in accordance with the approved CEMP(s).

#### **Construction of highway works affecting the Trunk Road network**

**19.—**(1) All highway works (including their construction) that directly affect the Trunk Road network, must comply in all respects with the relevant requirements of the Design Manual for Roads and Bridges.

#### **Fencing and other means of enclosure**

**20.—**(1) No part of each of work numbers 1 to 24 may commence until written details of all proposed permanent and temporary fences, walls and other means of enclosure relevant to that work number have been submitted to and approved in writing by the relevant planning authority.

(2) The approved temporary fencing or enclosure must be erected in accordance with the details approved pursuant to paragraph (1) and must be retained throughout the construction of the relevant work number.

(3) Any temporary fencing must be removed on completion of the authorised development.

(4) The approved permanent fencing or enclosure must be erected in accordance with the details approved pursuant to paragraph (1) prior to the relevant part of the authorised development being opened to the public for use.

#### **Operational noise attenuation measures and their on-going maintenance**

**21.—**(1) The authorised development must not be brought into use until a written scheme detailing operational noise management and attenuation measures, and their ongoing maintenance, has been submitted to and, following consultation with the relevant district authorities, approved in writing by the relevant planning authority.

(2) The authorised development must be operated in accordance with the approved operational noise management and attenuation details.

#### **Public Rights of Way**

**22.—**(1) No public right of way to be closed or diverted during the construction of or as part of the construction or operation of the authorised development may be closed or diverted before the relevant local planning authority has given its written approval to the details of the relevant closure or diversion.

(2) All public rights of way closures and diversions must be carried out in accordance with the details approved pursuant to paragraph (1).

#### **Alternative Route for Marriott's Way**

**23.—**(1) Prior to the closure of Marriott's Way to the public the undertaker must provide a reasonable alternative route so as to permit the passage of pedestrians, cyclists and equestrians, between the two points at which Marriott's Way is to be temporarily closed during construction of the authorised development, such alternative route to be first approved in writing by the relevant planning authority.

(2) The undertaker must provide the alternative route approved pursuant to paragraph (1) from the date on which Marriott's Way is closed to the public until the date on which the replacement land for Marriott's Way is provided and open to the public, subject to the undertaker being permitted to:

- (a) cross the alternative route including with vehicles, plant and machinery;
- (b) temporarily close the alternative route for the purposes of health and safety or in case of emergency; and
- (c) temporarily close the alternative route for the purposes of works requiring its closure, and in relation to which the undertaker must give notice in accordance with paragraph (3) and the undertaker must seek to minimise the number and extent of closures under this paragraph (c).

(3) If the undertaker is to temporarily close the alternative route under paragraph (2)(c) above it must, at least 3 days prior to any closure, erect notices advising of the closure of the alternative route, such notices to state the date of the closure and the date the alternative route will be re-opened, and to be erected at the end points of the closure and at such other points at which public users of the way would need to depart from their route if wishing to make a through route journey between Pendlesham Rise and Fir Covert Road.

#### **Surface water drainage**

**24.—**(1) No part of each of work numbers 1 to 24 may commence until a detailed surface water drainage strategy (including pollution control measures) and relating to both the construction and operation of the authorised development for the relevant work numbers has been submitted to and, following consultation with the relevant district authorities and the Environment Agency, approved by the relevant planning authority.

(2) The authorised development must be constructed in accordance with the approved surface water drainage strategy, including any timetable or programme approved within it.

#### **Weston Hall Road drainage**

**25.** (1) No part of each of work numbers 1 to 24 may commence until a written surface water management plan for Weston Hall Road has been submitted to and, following consultation with Natural England, approved by the relevant planning authority.

(2) The plan must include measures for the prevention of sediment entering the River Wensum special area of conservation (as defined in regulation 3(1) of the Conservation of Habitats and Species Regulations 2010).

(3) The approved surface water management plan must be implemented in full.

#### **Routing to Norwich International Airport**

**26.** (1) The NDR classified road must not open to traffic until details indicating the preferred routing for vehicles travelling to and from the A47 to Norwich International Airport have been submitted to and, following consultation with Broadland District Council, Norwich City Council and Breckland District Council, approved in writing by the relevant planning authority.

(2) Prior to the opening to traffic of the NDR classified road the signage for the approved routing to and from the A47 to Norwich International Airport must be displayed and thereafter maintained.

#### **Weston Longville, Hockering and Lyng traffic**

**27.** (1) At least 6 months prior to the NDR classified road being open to traffic a scheme showing the arrangements for the pre- and post-monitoring of traffic through the villages of Weston Longville, Hockering and Lyng must be submitted to and, following consultation with Breckland District Council, approved in writing by the relevant planning authority.

(2) The scheme must set out particulars of the locations and the periods of monitoring before and after the opening of the NDR classified road, and the timetable and arrangements for reporting the results and submitting any further details pursuant to paragraph (4).

(3) The approved monitoring scheme must be implemented in full.

(4) In the event that the monitoring identifies a material increase in traffic that could be directly associated with the NDR classified road, a scheme of mitigation measures and a timetable for their implementation must be submitted (in accordance with the timetable set out in the scheme approved pursuant to paragraph (1)) to and, following consultation with Breckland District Council, approved in writing by the relevant planning authority.

(5) The approved scheme of mitigation measures must be implemented in full in accordance with the approved timetable.

#### **Ringland, Costessey, Taverham and Drayton traffic**

**28.** (1) Prior to the NDR classified road being open to traffic a scheme of measures to minimise 'rat running' through Ringland, Costessey, Taverham and Drayton must be submitted to and, following consultation with Broadland District Council and South Norfolk District Council, approved in writing by the relevant planning authority.

(2) The submitted scheme must include a timetable for implementation and consideration of the feasibility of the following measures-

(a) the potential for enhancement of the existing traffic calming measures on West End, Costessey, including the use of average speed cameras;

(b) the enforcement of the existing weight restrictions (including the potential for camera enforcement) on roads over the River Wensum between Costessey and Taverham/Drayton, namely Ringland Road, Taverham Lane and Costessey Lane;

(c) a 30mph speed limit based on a speed limit assessment on Ringland Road through Ringland.

(3) The approved scheme must be implemented in full in accordance with the approved timetable.

#### **Traffic monitoring generally**

**29.** (1) Prior to the NDR classified road being open to traffic a scheme for the post monitoring of traffic on the local highway network must be submitted to and, following consultation with Broadland District Council, South Norfolk District Council, Breckland District Council and Norwich City Council, approved in writing by the relevant planning authority.

(2) The approved scheme must include the monitoring locations, the monitoring periods and the timetable and arrangements for reporting the results, and must be implemented in full.

### **Amendments to approved details**

**30.** (1) With respect to any requirement which requires the approval of any details, plans or schemes (“Approved Details, Plans or Schemes”) by the relevant planning authority, the undertaker may submit to the relevant planning authority for approval any amendments to the Approved Details, Plans or Schemes (provided that they are not likely to give rise to any significant adverse environmental effects beyond those assessed in the environmental statement) and following any further approval by the relevant planning authority the Approved Details, Plans or Schemes will include the amendments approved pursuant to this requirement 30.

(2) In considering any amendment to any details, plans or schemes the relevant planning authority must consult those bodies it would have been required to consult before granting approval initially in relation to the same plan, strategy or other matter.

**SCHEDULE 3**

**STREETS SUBJECT TO PERMANENT ALTERATION OF LAYOUT**

Article 8

<i>(1)</i> <i>Street Plans Number/Title/Area</i>	<i>(2)</i> <i>Street subject to alteration of layout</i>	<i>(3)</i> <i>Description of alteration</i>
<p>Street Plans (Sheet 1 of 12)/ Fakenham Road/</p> <p>In the Parishes of Attlebridge, and Taverham</p> <p>In the District of Broadland</p> <p>In the County of Norfolk</p>	<p>A1067 Fakenham Road</p>	<p>(i) An increase in width, and the realignment of its carriageway and verges, on its north east side, from a point 295 metres north west of its junction with Attlebridge Restricted Byway No.3, north westwards for 935 metres, including the provision of a new roundabout junction ('Fakenham Road Roundabout'), as the westerly commencement point of the NDR classified road, at a point 380 metres north west of its junction with Attlebridge Restricted Byway No.3;</p> <p>(ii) The provision of footways/cycleways as part of, and around the south and north west arcs of the carriageway of, Fakenham Road Roundabout, to connect with the eastern tie-in of the A1067 Fakenham Road, on its north westerly approach to that roundabout, and with the diverted route of Attlebridge Restricted Byway No.3 (A on the Street Plans (Sheet 1 of 12)), where it connects with the north arc of the Fakenham Road Roundabout;</p> <p>(iii) The reconfiguration of that part of its redundant carriageway, within the length described in (i) above, to provide verge, together with other verge alterations within that length.</p>
	<p>Attlebridge Restricted Byway No.3</p>	<p>(i) The provision of a diverted length of Restricted Byway (A on the Street Plans (Sheet 1 of 12)), which will provide a new southerly connection for Attlebridge Restricted Byway No.3 with the A1067 Fakenham Road Roundabout.</p>

<b>(1)</b> <b>Street Plans</b> <b>Number/Title/Area</b>	<b>(2)</b> <b>Street subject to alteration of</b> <b>layout</b>	<b>(3)</b> <b>Description of alteration</b>
<p>Street Plans (Sheet 2 of 12)/ Fir Covert Road to Breck Farm Lane and Marriott's Way/</p> <p>In the Parishes of Attlebridge, and Taverham</p> <p>In the District of Broadland</p> <p>In the County of Norfolk</p>	C262 Fir Covert Road	<p>(i) An increase in width and alteration to the adjoining verges, and in part its carriageway, on both its east and west sides, over a distance of 150 metres on its southerly approach and a distance of 100 metres on its northerly approach to the NDR classified road Fir Covert Road Roundabout;</p> <p>(ii) The provision of short lengths of footway/cycleway on its west side on its northerly approach and on both its west and east sides on its southerly approach to the NDR classified road Fir Covert Road Roundabout, to connect with the existing western footway/verge of the C262 Fir Cover Road and, for the footway/cycleway on its west side with the new Bridleway (B on the Street Plans (Sheet 2 of 2)) which runs eastwards from Attlebridge Restricted Byway No.3 on the north side of the NDR classified road and, for the footway/cycleway on its east side, with the new Bridleway (C on the Street Plans (Sheet 2 of 2)) which runs eastwards from the C262 Fir Covert Road on the north side of the NDR classified road.</p>
	Breck Farm Lane (U57168)	<p>(i) An increase in width, on its east side, together with associated carriageway tie-in works, from a point 12 metres north north-east of the Access to Breck Farm Bungalow, north north-eastwards for 26 metres, so as to provide a turning head at what will become its north easterly termination point on the south side of the NDR classified road.</p>
	Furze Lane (U57168)	<p>(i) An increase in width, on its east side, together with associated carriageway tie-in works, from a point 65 metres south of the south western corner of the curtilage of 'The Warren', southwards for 26 metres, so as to provide a turning head at</p>

		what will become its southerly termination point on the north side of the NDR classified road.
<p>Street Plans (Sheet 3 of 12)/ Reepham Road to Bell Farm Track/</p> <p>In the Parishes of Taverham, Drayton, and Horsford</p> <p>In the District of Broadland</p> <p>In the County of Norfolk</p>	C261 Reepham Road	<p>(i) An increase in width and alteration to the adjoining verges, and in part its carriageway, on both its north east and south west sides, over a distance of 250 metres on the south easterly approach and a distance of 250 metres on the north westerly approach to the NDR classified road Reepham Road Roundabout;</p> <p>(ii) The provision of lengths of footway/cycleway on its south western side, on its north westerly and south easterly approaches to the NDR classified road Reepham Road Roundabout, to connect with a new Cycle Track (with a right of way on foot) (H on the Street Plans (Sheet 3 of 12)), on the south side of the NDR classified road and with a new Bridleway (F on the Street Plans (Sheet 3 of 12)), on the north side of the NDR classified road, and leading to a crossing point of the north westerly arm of the NDR classified road Reepham Road Roundabout, to connect with another new Bridleway (I on the Street Plans (Sheet 3 of 12)) on the north side of the NDR classified road;</p> <p>(iii) The removal of 220 metres of the northerly grassed verge, between its junction with Long Dale (U51249), along the southern frontage of the premises of Kieft &amp; Sons (growers, storage and packaging), and its replacement with a footway/cycleway along that length of verge.</p>
	Drayton Restricted Byway No.6/Dog Lane (U5176)/ Horsford Restricted Byway No.4	(i) The provision of a new diverted length of Restricted Byway (J on the Street Plans (Sheet 3 of 12)), which will provide a new south westerly connection for Drayton Restricted Byway No.6 with the NDR classified road

<i>(1)</i> <i>Street Plans</i> <i>Number/Title/Area</i>	<i>(2)</i> <i>Street subject to alteration of</i> <i>layout</i>	<i>(3)</i> <i>Description of alteration</i>
		Reepham Road Roundabout;  (ii) The resurfacing of the length between the diverted route described in (i) above, north eastwards, then eastwards, to a point 30 metres east of the junction with Horsford Restricted Byway No.5.
	Horsford Restricted Byway No.5	(i) The provision of a new diverted route between Dog Lane (U57176) and the C261 Reepham Road (K on the Street Plans (Sheet 3 of 12)).
Street Plans (Sheet 4 of 12)/ East of Bell Farm Track to Drayton Lane/  In the Parishes of Horsford, and Drayton  In the District of Broadland  In the County of Norfolk	C282 Drayton Lane (North)	(i) An increase in width, together with associated carriageway tie-in works, on its west side, from the southern boundary of the curtilage of 'Rookery North', southwards for 28 metres, so as to provide a turning head, at the northerly point of the stopped up C282 Drayton Lane.
	B1149 Holt Road	(i) An increase in width, and the realignment of its carriageway and adjoining verges, from a point 40 metres north west of its junction with the Access to Glebe Farm, north westwards to its junction with the C253 Church Street, including the provision of a new roundabout junction ('Holt Road/Drayton Lane Roundabout'), at a point 100 metres south east of its junction with the C253 Church Street;  (ii) The provision of a footway/cycleway on the north eastern side of and joining with its carriageway, from a point 20 metres south east of its junction with the C253 Church Street, south eastwards for 160 metres.
	C261 Reepham Road	(i) An increase in width, and realignment of its carriageway and verges, on its north side, and for part of its length on its south side in relation to verge, over a 420 424 metres length, so as to provide a major/minor priority T junction with the new street and incorporating a new

(1) <i>Street Plans Number/Title/Area</i>	(2) <i>Street subject to alteration of layout</i>	(3) <i>Description of alteration</i>
		<p>roundabout junction, Reepham Road/Drayton Lane Roundabout, at its junction with the new street (P on the Street Plans (Sheet 4b of 12)) which is to be constructed (as a realignment of the C282 Drayton Lane) and with Drayton Lane (South), thereby creating a 4-arm roundabout junction at the convergence of those streets between the C261 Reepham Road and the NDR classified road Drayton Lane Roundabout.</p>
	C282 Drayton Lane (South)	(i) An increase in width, on both its west and east sides, over a 100 metres length on its northerly approach to the realigned C261 Reepham Road and its Reepham Road/Drayton Lane roundabout, where it will provide the fourth arm of a 4-arm roundabout.
<p>Street Plans (Sheet 5 of 12)/ Cromer Road Interchange to Old Norwich Road/</p> <p>In the Parishes of Horsford, and Horsham St. Faith and Newton St. Faith</p> <p>In the District of Broadland</p> <p>In the County of Norfolk</p>	B1149 Holt Road	(i) An increase in width, on its south west side, from the south easterly boundary of the Access to New Holme Farm, south eastwards for 26 metres, so as to provide a turning head at the north westerly point of the stopped up B1149 Holt Road, on the north side of the NDR classified road.
	Holly Lane (U57142)	(i) An increase in width, on its south side, from a point 10 metres east of the Access to Manor Farm, eastwards for 26 metres, so as to provide a turning head at the westerly point of stopped up Holly Lane (U57142), at what will become its easterly termination point on the south side of the NDR classified road.
	B1149/A140 Holt Road	<p>(i) A reconfiguration of its carriageway and verges and of the Cromer Road Roundabout South, from a point some 30 metres south of its junction with the Access to Harts Hill Farm, north westwards for 330 metres;</p> <p>(ii) The provision of an</p>

## SCHEDULE 5

### CLASSIFICATION OF ROADS

Article 11

#### PART 1

##### The New A47 Trunk Road Postwick Interchange Slip Roads

**1. New A47 Trunk Road Eastbound Diverge Slip Road:** A new, bifurcated, slip road, from a point on the existing A47 Trunk Road eastbound diverge slip road, where it is proposed to be improved, at Postwick Interchange, 250 metres generally east of where the A47 Trunk Road crosses over the Norwich to Yarmouth & Lowestoft Railway line, extending generally eastwards to connect –

- (a) for its first bifurcated part with the NDR classified road Postwick North East Roundabout; and
- (b) for its second bifurcated part with the northbound carriageway of the NDR classified road, some 60 metres north of the NDR classified road Postwick North East Roundabout,

identified on the street plans ((Sheet 12 of 12)/Smee Lane and Postwick Interchange) by the symbol indicated on those plans for ‘The New A47 Trunk Road Postwick Interchange Slip Roads’ and annotated on that sheet as ‘New A47 Trunk Road Eastbound Diverge Slip Road’, and as is identified on the Classification of Highways Plan by a solid green line.

**2. New A47 Trunk Road Eastbound Merge Slip Road:** A new slip road, from the NDR classified road Postwick North East Roundabout, extending eastwards to connect with the existing A47 Trunk Road eastbound merge slip road, where it is proposed to be improved, at a point 125 metres west of the private access to ‘The Grange’,

identified on the street plans ((Sheet 12 of 12)/Smee Lane and Postwick Interchange) by the symbol indicated on those plans for ‘The New A47 Trunk Road Postwick Interchange Slip Roads’ and annotated on that sheet as ‘New A47 Trunk Road Eastbound Merge Slip Road’, and as is identified on the Classification of Highways Plan by a solid green line.

#### PART 2

##### The NDR Classified Road

A 19.8 kilometre highway, to be constructed as the A1270 Principal Road –

- (a) commencing from its junction with the proposed roundabout, which will be constructed as an improvement of the A1067 Fakenham Road (‘Fakenham Road Roundabout’), 390 metres west north-west of its junction with Attlebridge Restricted Byway No.3;
- (b) then extending in a generally north easterly, then easterly, direction to its at-grade roundabout junction with the C262 Fir Covert Road (‘Fir Covert Road Roundabout’), situated to the north of the Taverham Garden Centre and to the south of the property ‘Chestnut House’;
- (c) then extending generally eastwards, crossing under Marriott’s Way, then crossing and severing Furze Lane (U57168)/Breck Farm Lane (U57168), to the south of the property ‘The Warren’, to its at-grade roundabout junction with the C261 Reepham Road (‘Reepham Road Roundabout’), 450 metres north west of the junction of the C261 Reepham Road with Drewray Drive (U51248);
- (d) then extending east south-eastwards, crossing under Bell Farm Track/Horsford Restricted Byway No.5, midway along its length, to its at-grade roundabout junction (‘Drayton Lane Roundabout’), with two new highway connections to the B1149 Holt Road and the C261 Reepham Road which

will replace the former C282 Drayton Lane, just to the south west of the property 'The Homestead';

- (e) then continuing east south-eastwards to its grade-separated dumb-bell interchange, incorporating two eastbound diverge and merge slip roads connecting with the A140 Cromer Road Roundabout North, just to the south of New Holme Farm, and two westbound diverge and merge slip roads connecting with the A140 Cromer Road Roundabout South, and with the B1149 Holt Road (also to become the A1270), respectively, just to the north of Manor Park Sports Club;
- (f) then continuing eastwards, passing to the south of the City of Norwich Aviation Museum and to the north of the Norwich International Airport Control Tower, then north eastwards, to its roundabout junction at the north west corner of Norwich International Airport ('Airport Roundabout'), 160 metres north east of The Petans Training Centre at Bullock Hill;
- (g) then turning south eastwards, crossing and severing Quaker Lane (U57188) and the C251 St Faiths Road where those two highways connect, then eastwards, crossing under the new and realigned C246 Buxton Road, to the north east of No. 318 Buxton Road and to the south of Quaker Lane (U57188), then north eastwards, to its at-grade roundabout junction with the B1150 North Walsham Road ('North Walsham Road Roundabout'), to the north of the HFG Farm Shop and Garden Centre;
- (h) then extending eastwards, then east south-eastwards, to its at-grade roundabout junction with the A1151 Wroxham Road ('Wroxham Road Roundabout'), 140 metres south west of its junction with Sloe Lane (U57095);
- (i) then extending generally south eastwards, crossing under a proposed private access/bridleway bridge, 200 metres south west of the junction of Newman Road (U57490) with Long's Crescent (U57852), to its at-grade roundabout junction with the C283 Salhouse Road ('Salhouse Road Roundabout'), 310 metres south west of its crossroads junction with the C258 Green Lane East and C258 Green Lane West;
- (j) then continuing south eastwards, crossing over, by bridges, the Norwich to Cromer & Sheringham railway line and the C874 Plumstead Road, just to the north east of the existing railway crossing on the C874 Plumstead Road, to its new roundabout junction ('Plumstead Road Roundabout South'), with a new connecting Link Road with, and 270 metres south east of, the improved C874 Plumstead Road;
- (k) then extending generally southwards, crossing under the C442 Middle Road, just to the west of Oaks Farm;
- (l) then continuing southwards, crossing and severing Low Road (U59392), 70 metres to the west of the curtilage of the property 'The Red House';
- (m) then continuing southwards, crossing and severing Smea Lane (U59400), 90 metres west of the curtilage of Apple Tree Farm;
- (n) then continuing south south-eastwards to a new roundabout junction ('Business Park Roundabout'), 550 metres east of the C829/C830 Broadland Way/C831 Peachman Way Roundabout;
- (o) then turning south westwards to a new roundabout junction ('Postwick North East Roundabout'), on the northern side of the A47 Trunk Road Norwich Southern Bypass; and

- (p) then continuing south westwards, on overbridge across the A47 Trunk Road Norwich Southern Bypass, terminating at its junction with the A1042 Yarmouth Road, where it is to be improved to provide a signalised junction, just east of the Postwick Park and Ride Site,

identified on the street plans, by the symbol indicated on those plans for ‘The NDR classified road’, and as is identified on the Highway Classifications Plan by a solid red line.

### **PART 3**

#### **Holt Road**

A 200 metre length of the B1149 Holt Road, to be classified as the A1270 Principal Road, as extends north westwards from its junction with the A140 Cromer Road roundabout junction (‘Cromer Road Roundabout South’),

identified by cross hatching on the street plans ((Sheet 5 of 12)/Cromer Road Interchange to Old Norwich Road), as the north westerly arm off the Cromer Road Roundabout South, and as is identified on the Highway Classifications Plan by a red pecked line.

### **PART 4**

#### **The A140 Cromer Road Classified Road**

A 450 metre length of new highway, to be constructed as the A140 Principal Road, from its junction with the B1149 Holt Road/A140 Cromer Road roundabout junction (‘Cromer Road Roundabout South’), extending generally northwards, and incorporating a new roundabout (‘Cromer Road Roundabout North’) at a point 280 metres north along its length, to its junction with the existing A140 Cromer Road, at a point 110 metres north of its junction with the unnamed highway (Cromer Road to West Lane (U57647)),

identified on the street plans ((Sheet 5 of 12)/Cromer Road Interchange to Old Norwich Road) as new highway W, and as is identified on the Highway Classifications Plan by a solid pink line.

### **PART 5**

#### **The Broadland Gate Link Road**

- (a) A 550 metre length of new highway (‘Broadland Gate Link Road’), to be constructed as the A1194 Principal Road, from its junction with the C829/C830 Broadland Way/C831 Peachman Way roundabout junction, extending eastwards to its junction with the NDR classified road Business Park Roundabout,

identified on the street plans ((Sheet 12 of 12)/Smee Lane and Postwick Interchange) as new highway SS, and as is identified on the Highway Classifications Plan by a solid purple line.

#### **Broadland Way**

- (b) A 385 metre length, being the whole of the C829 Broadland Way, to be classified as the A1194 Principal Road, from its junction with the A1042 Yarmouth Road roundabout junction (‘Postwick North West Roundabout’), extending northwards to and including its roundabout junction with the C830 Broadland Way North and C831 Peachman Way,

as appears on the street plans ((Sheet 12 of 12)/Smee Lane and Postwick Interchange), and as is identified on the Highway Classifications Plan by a pecked purple line.

**SCHEDULE 6**

Article 12

In relating this Schedule 6 to its corresponding Street Plans, the provisions described herein are shown on the Street Plans in the following manner –

- (a) Streets to be stopped up, described in column (3) of Part 1 of this Schedule, are shown by thick black hatching, over the extent of stopping up described in column (4) of that Part;
- (b) New Streets to be substituted for a Street to be stopped up, or are otherwise to be provided, other than the NDR classified road and/or the New A47 Trunk Road Eastbound Diverge Slip Road and the New A47 Trunk Road Eastbound Merge Slip Road in relation to which those other new Streets are to be constructed, as are included in column (5) of Part 1 of this Schedule, are shown by stipple and given a reference letter(s), and will be a road unless the word “Bridleway”, “Cycle Track with a right of way on foot” or “Restricted Byway” appears in brackets beneath its reference letter in that column;
- (c) Private Accesses to be stopped up, described in column (3) of Parts 2 and 3 of this Schedule, are shown by a solid black band, over the extent of stopping up described in column (4) of each of those Parts, and are given a reference number, preceded by ‘PMA’, commencing with ‘PMA 0’; and
- (d) New Private Accesses to be substituted for a Private Access to be stopped up, or are otherwise to be provided in relation to the NDR classified road and/or the New A47 Trunk Road Eastbound Diverge Slip Road and the New A47 Trunk Road Eastbound Merge Slip Road, as are included in column (5) of Part 2 of this Schedule, are shown by thin diagonal hatching, and are given a reference number, preceded by ‘X’, commencing with ‘X0’.

## SCHEDULE 7

### PUBLIC RIGHTS OF WAY

Article 13

#### PART 1

##### **Attlebridge Restricted Byway No.3**

- (a) That length of Attlebridge Restricted Byway No.3, from its junction with the A1067 Fakenham Road, extending north westwards for a distance of 386 metres, shown by thick black diagonal hatching on the Street Plans ((Sheet 1 of 12)/Fakenham Road).
- (b) An alternative section of Attlebridge Restricted Byway No.3, to be co-existent with a private means of access to premises, from the proposed Fakenham Road Roundabout on the A1067 Fakenham Road, extending east north-eastwards, then north westwards, for a distance of 315 metres, shown by stipple and given the reference letter A on the Street Plans ((Sheet 1 of 12)/Fakenham Road – Inset 1/2).

#### PART 2

##### **Drayton Restricted Byway No.6**

- (a) That length of Drayton Restricted Byway No.6, from its junction with the C261 Reepham Road, extending north eastwards for a distance of 90 metres, shown by thick black diagonal hatching on the Street Plans ((Sheet 3 of 12)/Reepham Road to Bell Farm Track).
- (b) An alternative section of Drayton Restricted Byway No.6, to be co-existent with a private means of access to premises, from the NDR classified road Reepham Road Roundabout, extending generally north eastwards, for a distance of 70 metres, shown by stipple and given the reference letter J on the Street Plans ((Sheet 3 of 12)/Reepham Road to Bell Farm Track).

#### PART 3

##### **Horsford Restricted Byway No.5**

- (a) The whole of Horsford Restricted Byway No.5, from its junction with the C261 Reepham Road, generally northwards to its junction with Dog Lane (U57176), a distance of 736 metres, shown by thick diagonal hatching on the Street Plans ((Sheet 3 of 12)/Reepham Road to Bell Farm Track).
- (b) An alternative section of Horsford Restricted Byway No.5, to be co-existent with a private means of access to premises, from the same point at its junction with the C261 Reepham Road as its former route, extending generally northwards, deviating from its former route along its central section, to its junction with Dog Lane (U57176) at the same point as its former route, shown by stipple and given the reference letter K on the Street Plans ((Sheet 3 of 12)/Reepham Road to Bell Farm Track – Inset 3/3).

## SCHEDULE 8

### TEMPORARY PROHIBITION OR RESTRICTION OF THE USE OF STREETS

Article 14

In relating this Schedule 8 to its corresponding street plans, the lengths of street to be subject to temporary prohibition or restriction of driving/use, as described in column (4) of this Schedule, are given a reference number, preceded by 'TEMP TR', commencing with 'TEMP TR 1', and that reference appears in column (4) at the end of the described length.

<i>(1)</i> <b>Street Plans Number/Title</b>	<i>(2)</i> <b>Area</b>	<i>(3)</i> <b>Temporary prohibition or restriction of use of streets</b>	<i>(4)</i> <b>Extent of temporary prohibition or restriction of use of streets</b>
<b>Street Plans (Sheet 1 of 12)/  Fakenham Road</b>	In the Parishes of Attlebridge, and Taverham  In the District of Broadland  In the County of Norfolk	A1067 Fakenham Road  <i>Prohibition and/or restriction of driving/use, as will be directed by traffic signs/signal control.</i>	1.1  <u><i>Prohibition/Restriction:</i></u> From its junction with Attlebridge Restricted Byway No.4, south eastwards for 1,120 metres, to where it meets the north western boundary of the curtilage of the property 'Peacehaven' (marked TEMP TR 1 on the Street Plans (Sheet 1 of 12)).  Access to and from frontage properties (1 & 2 Old Hall Cottages, 'Woodstock', Old Hall Farm, and Agricultural Access opposite to 'Woodstock') will be maintained at all times.  <u><i>Purpose of Prohibition/Restriction:</i></u> Works are proposed to be executed on or near that length of street, which will provide the north westerly most tie-in point of the A1067 Fakenham Road highway improvement with the NDR classified road.  <u><i>Alternative Route:</i></u> An alternative route between the two end points marked TEMP TR 1 on the Street Plans (Sheet 1 of 12) will be available (including, in part, an area of non-highway land on the north eastern side of the existing carriageway for temporary use for traffic management purposes), for the purpose of continuity of use by two-way directional traffic.
<b>Street Plans (Sheet 2 of 12)/  Fir Covert Road to Breck Farm Lane and Marriott's Way</b>	In the Parishes of Attlebridge, and Taverham  In the District of Broadland  In the County of Norfolk	C262 Fir Covert Road  <i>Prohibition and/or restriction of driving/use, as will be directed by traffic signs/signal control.</i>	2.1  <u><i>Prohibition/Restriction:</i></u> From a point 18 metres south south-west of its junction with the access to the property 'Fir Covert', south south-westwards for 375 metres (marked TEMP TR 2 on the Street Plans (Sheet 2 of 12)).  <u><i>Purpose of Prohibition/Restriction:</i></u> Works are proposed to be executed on or near that length of street, which will provide its

<b>(1)</b> <b>Street Plans</b> <b>Number/Title</b>	<b>(2)</b> <b>Area</b>	<b>(3)</b> <b>Temporary</b> <b>prohibition or</b> <b>restriction of use of</b> <b>streets</b>	<b>(4)</b> <b>Extent of temporary prohibition or restriction</b> <b>of use of streets</b>
			<p>north easterly and south westerly approach ties to the NDR classified road Fir Covert Road Roundabout.</p> <p><i>Alternative Route:</i> An alternative route between the two end points marked TEMP TR 2 on the Street Plans (Sheet 2 of 12) will be available, for the purpose of continuity of use by two-way directional traffic.</p>
<p><b>Street Plans (Sheet 2 of 12)/</b></p> <p><b>Fir Covert Road to Breck Farm Lane and Marriott's Way</b></p> <p><b>(Cont'd)</b></p>	<p>In the Parishes of Attlebridge, and Taverham</p> <p>In the District of Broadland</p> <p>In the County of Norfolk</p>	<p>Marriott's Way (Recreational public amenity path)</p> <p><i>Prohibition and/or restriction of use, as will be directed by traffic signs.</i></p>	<p>2.2</p> <p><i>Prohibition/Restriction:</i> From a point 125 metres south east of where the existing Breck Farm Lane/Furze Lane (U57168) bridge crosses over the Marriott's Way, north westwards for 470 metres (marked TEMP TR 3 on the Street Plans (Sheet 2 of 12)).</p> <p><i>Purpose of Prohibition/Restriction:</i> Works are proposed to be executed on or near that length of recreational public amenity path, to raise its level to carry it over the NDR classified road on a new overbridge.</p> <p><i>Alternative Route:</i></p> <p><i>During times of Restriction of Use:</i> An alternative route between the two end points marked TEMP TR 3 on the Street Plans (Sheet 2 of 12) will be available, for the purpose of continuity of use by travellers proceeding north west and south east along the recreational public amenity path; and</p> <p><i>During (expected minimal) times of Prohibition of Use:</i></p> <ul style="list-style-type: none"> <li>- The route will remain available north west and south east of its closure points, but not as a through route;</li> <li>- Through route traffic will be directed, by notices posted on the C262 Fir Covert Road, in the north west, and on Pendleshurst Road (U51205), in the south east, to the alternative route to take to rejoin Marriott's Way at those two highways, whilst the prohibition of use is in force.</li> </ul>
<p><b>Street Plans (Sheet 3 of 12)/</b></p> <p><b>Reepham Road to Bell</b></p>	<p>In the Parishes of Taverham, Drayton, and Horsford</p>	<p>C261 Reepham Road</p> <p><i>Prohibition and/or</i></p>	<p>3.1</p> <p><i>Prohibition/Restriction:</i> From a point 200 metres north west of its junction with Drewray</p>

<b>(1)</b> <b>Street Plans</b> <b>Number/Title</b>	<b>(2)</b> <b>Area</b>	<b>(3)</b> <b>Temporary</b> <b>prohibition or</b> <b>restriction of use of</b> <b>streets</b>	<b>(4)</b> <b>Extent of temporary prohibition or restriction</b> <b>of use of streets</b>
<b>Farm Track</b>	<p>In the District of Broadland</p> <p>In the County of Norfolk</p>	<p><i>restriction of driving/use, as will be directed by traffic signs/signal control.</i></p>	<p>Drive (U51248), north westwards for 595 metres (marked TEMP TR 4 on the Street Plans (Sheet 3 of 12)).</p> <p><u>Purpose of Prohibition/Restriction:</u> Works are proposed to be executed on or near that length of street, which will provide its north westerly and south easterly approach realignment tie-ins with the NDR classified road Reepham Road Roundabout.</p> <p><u>Alternative Route:</u> An alternative route between the two end points marked TEMP TR 4 on the Street Plans (Sheet 3 of 12) will be available (including, in part, an area on non-highway land on the south western side of the existing carriageway for temporary use for traffic management purposes), for the purpose of continuity of use by two-way directional traffic.</p>
		<p>Drayton Restricted Byway No.6/Dog Lane (U57176)/Horsford Restricted Byway No.4</p> <p><i>Prohibition and/or restriction of use, as will be directed by traffic signs.</i></p>	<p>3.2</p> <p><u>Prohibition/Restriction:</u> From the junction of the diverted Drayton Restricted Byway No.6 with the NDR classified road Reepham Road Roundabout, eastwards, then north eastwards, then generally eastwards, for a distance of 1225 metres, to a point 30 metres east of the junction with Horsford Restricted Byway No.5 (marked TEMP TR 5 on the Street Plans (Sheet 3 of 12)).</p> <p><u>Purpose of Prohibition/Restriction:</u> Works are proposed to be executed on the undiverted part of that length of the Restricted Byways, to provide an improved highway surface.</p> <p><u>Alternative Route:</u> C261 Reepham Road and Horsford Restricted Byway No.5.</p>
			<p>Note: <u>Prohibitions/Restrictions</u> of use of 3.2 and 3.3 will not operate at the same time.</p>

## SCHEDULE 9

### CONSTRUCTION ACCESS TO AND FROM WORKS

Article 15

<i>(1)</i> <i>Area</i>	<i>(2)</i> <i>Description of access</i>
In the District of Broadland In the County of Norfolk	Access from the A1067 Fakenham Road (from the location of the proposed Fakenham Road Roundabout) to travel east along the line of the NDR classified road.
	Access from the southern length, leading off the A1067 Fakenham Road, of the C262 Fir Covert Road (from the location of the proposed Fir Covert Road Roundabout), to travel east and west along the line of the NDR classified road.
	Access along Furze Lane (U57168) to the Marriott's Way bridge compound.
	Access along Breck Farm Lane (U57168) in order to construct the turning head on that lane at Breck Farm.
	Access from the south side of the C261 Reepham Road (from the location of the proposed Reepham Road Roundabout) to travel east and west along the line of the NDR classified road.
	Access along Bell Farm Track (private means of access/Horsford Restricted Byway No.5) from the C261 Reepham Road to the compound on the south west side of the proposed bridge crossing of the access and restricted byway over the NDR classified road.
	Access along the C282 Drayton Lane from the C261 Reepham Road to travel (from the location of the proposed Drayton Lane Roundabout) east and west along the line of the NDR classified road and to access the compound situated north west of the aforementioned roundabout.
	Access along the B1149 Holt Road from its junction with A140 Cromer Road in order to construct the new junction with the new Drayton Lane Link Road and the turning head on the B1149 Holt Road at what is to become its south east termination point on the north side of the NDR classified road.
	Access from the A140 Cromer Road along the route of the private means of access (from Cromer Road Roundabout North) to the compound situated on Norwich International Airport land.
	Access along the A140 Cromer Road and the B1149 Holt Road (from the location of the proposed NDR Cromer Road grade separated junction) to access west along the line of the NDR classified road and east to the new Cromer Road overbridge.
	Access along Holly Lane (U57142) to construct the turning head on that lane at Manor Farm.
	Access along the C251 Bullock Hill to construct the turning head on that street at what is to become its south east termination point on the north side of the NDR classified road.
	Access along Quaker Lane (U57188) to construct the turning head on that street at what is to become its westerly termination point on the north side of the NDR classified road.
Access along the C251 St Faiths Road to construct the turning head on that street at what is to become its northerly termination point on the south side of the NDR classified road.	
Access along the C246 Buxton Road from the south to travel (from the location of the Buxton Road overbridge crossing) east and west along the line of the NDR classified road.	

<i>(1)</i> <i>Area</i>	<i>(2)</i> <i>Description of access</i>
In the District of Broadland In the County of Norfolk (cont.)	Access from the southern length of the C246 Buxton Road to the bridge compound and batching plant.
	Access along the B1150 North Walsham Road from the south to travel (from the location of the proposed North Walsham Road Roundabout) east and west along the line of the NDR classified road.
	Access along the A1151 Wroxham Road from the south to travel (from the location of the proposed Wroxham Road Roundabout) north west and south south-east along the line of the NDR classified road.
	Access from the C258 Green Lane West and Newman Road (U57852) to Gazebo Farm office and the bridge compound.
	Access along the C283 Salhouse Road from the C258 Green Lane West/Green Lane East to travel (from the location of the proposed Salhouse Road Roundabout) north west and south south-east along the line of the NDR classified road.
	Access along the C874 Plumstead Road from the C258 Broad Lane to the temporary compounds, east and west of the NDR classified road, and (from the location of the proposed Plumstead Road Roundabout North) to provide access south towards the proposed Plumstead Road Roundabout South.
	Access along the C442 Middle Road to the bridge compound on the south side of the lane and on the east side of the NDR classified road and to the new Middle Road overbridge.
	Access along Low Road (U59392) to construct the turning heads on that street on each side of the NDR classified road.
	Access along Smee Lane (U59400) in order to construct the turning heads on that street on each side of the NDR classified road.
	Access from the C830 Broadland Way at the C829/C830 Broadland Way/C831 Peachman Way roundabout east towards the Broadland Gate Roundabout.
	Access from the C830 Broadland Way at the Postwick North West Roundabout to the new A47(T) eastbound diverge slip road.
	A47(T) Eastbound Diverge Slip Road - access from the slip road along the route of the new slip road.
	A47(T) Eastbound Diverge Slip Road - access from the slip road to construct the north pier of the new A47(T) overbridge.
	Access along Oaks Lane (U59329) to the site compound on the proposed park and ride site.
Access along the A1042 Yarmouth Road to construct the south pier and abutment of the new A47(T) overbridge and the new signalised controlled junction with the park and ride site and to the existing Postwick Bridge.	

**SCHEDULE 10**

	Plot 12/42	The right to construct, inspect, and maintain a bridge, to carry the NDR classified road over the A47(T) Norwich Southern Bypass.

## SCHEDULE 11

Article 24

### MODIFICATION OF COMPENSATION AND COMPULSORY PURCHASE ENACTMENTS FOR CREATION OF NEW RIGHTS

#### *Compensation enactments*

1. The enactments for the time being in force with respect to compensation for the compulsory purchase of land apply, with the necessary modifications as respects compensation, in the case of a compulsory acquisition under this Order of a right by the creation of a new right as they apply as respects compensation on the compulsory purchase of land and interests in land.

2.—(1) Without prejudice to the generality of paragraph 1, the Land Compensation Act 1973 has effect subject to the modifications set out in sub-paragraph (2) and (3).

(2) In section 44(1) (compensation for injurious affection), as it applies to compensation for injurious affection under section 7 of the 1965 Act as substituted by paragraph 4—

- (a) for the words “land is acquired or taken” substitute the words “a right or restrictive covenant over land is purchased from or imposed on”; and
- (b) for the words “acquired or taken from him” substitute the words “over which the right is exercisable or the restrictive covenant enforceable”.

(3) In section 58(1) (determination of material detriment where part of house etc. proposed for compulsory acquisition), as it applies to determinations under section 8 of the 1965 Act as substituted by paragraph 5—

- (a) for the word “part” in paragraph (a) and (b) substitute the words “a right over or restrictive covenant affecting land consisting”;
- (b) for the word “severance” substitute the words “right or restrictive covenant over or affecting the whole of the park or garden”;
- (c) for the words “part proposed” substitute the words “right or restrictive covenant proposed”;  
and
- (d) for the words “part is” substitute the words “right or restrictive covenant is”.

#### *Application of the 1965 Act*

3.—(1) The 1965 Act has effect with the modifications necessary to make it apply to the compulsory acquisition under this Order of a right by the creation of a new right, or to the imposition under this Order of a restrictive covenant, as it applies to the compulsory acquisition under this Order of land, so that, in appropriate contexts, references in that Act to land are read (according to the requirements of the particular context) as referring to, or as including references to—

- (a) the right acquired or to be acquired; or
- (b) the land over which the right is or is to be exercisable.

(2) Without prejudice to the generality of sub-paragraph (1), Part 1 of the 1965 Act applies in relation to the compulsory acquisition under this Order of a right by the creation of a new right with the modifications specified in the following provisions of this Schedule.

4. For section 7 of the 1965 Act (measure of compensation) substitute the following section—

“7. In assessing the compensation to be paid by the acquiring authority under this Act, regard must be had not only to the extent (if any) to which the value of the land over which the right is

to be acquired or the restrictive covenant is to be imposed is depreciated by the acquisition of the right or the imposition of the covenant but also to the damage (if any) to be sustained by the owner of the land by reason of its severance from other land of the owner, or injuriously affecting that other land by the exercise of the powers conferred by this or the special Act.”.

5. For section 8 of the 1965 Act (provisions as to divided land) substitute the following section—

“8.—(1) Where in consequence of the service on a person under section 5 of this Act of a notice to treat in respect of a right over land consisting of a house, building or manufactory or of a park or garden belonging to a house (“the relevant land”)—

- (a) a question of disputed compensation in respect of the purchase of the right or the imposition of the restrictive covenant would apart from this section fall to be determined by the Upper Tribunal (“the tribunal”); and
- (b) before the tribunal has determined that question the tribunal is satisfied that the person has an interest in the whole of the relevant land and is able and willing to sell that land and—
  - (i) where that land consists of a house, building or manufactory, that the right cannot be purchased or the restrictive covenant imposed without material detriment to that land; or
  - (ii) where the land consists of such a park or garden, that the right cannot be purchased or the restrictive covenant imposed without seriously affecting the amenity or convenience of the house to which that land belongs,

The Norwich Northern Distributor Road (A47 to A1067) Order 201[ ](a)(“the Order”) will, in relation to that person, cease to authorise the purchase of the right and be deemed to authorise the purchase of that person’s interest in the whole of the relevant land including, where the land consists of such a park or garden, the house to which it belongs, and the notice is to be deemed to authorise the purchase of that person’s interest in the whole of the relevant land including, where the land consists of such a park or garden, the house to which it belongs, and the notice is to be deemed to have been served in respect of that interest on such date as the tribunal directs.

(2) Any question as to the extent of the land in which the Order is deemed to authorise the purchase of an interest by virtue of subsection (1) of this section is to be determined by the tribunal.

(3) Where in consequence of a determination of the tribunal that it is satisfied as mentioned in subsection (1) of this section the Order is deemed by virtue of that subsection to authorise the purchase of an interest in land, the acquiring authority may, at any time within the period of 6 weeks beginning with the date of the determination, withdraw the notice to treat in consequence of which the determination was made; but nothing in this subsection prejudices any other power of the authority to withdraw the notice.”.

6. The following provisions of the 1965 Act (which state the effect of a deed poll executed in various circumstances where there is no conveyance by persons with interests in the land), that is to say—

- (a) section 9(4) (failure by owners to convey);
- (b) paragraph 10(3) of Schedule 1 (owners under incapacity);
- (c) paragraph 2(3) of Schedule 2 (absent and untraced owners); and
- (d) paragraphs 2(3) and 7(2) of Schedule 4 (common land),

is modified as to secure that, as against persons with interests in the land which are expressed to be overridden by the deed, the right which is to be compulsorily acquired or the restrictive covenant which is to be imposed is vested absolutely in the acquiring authority.

7. Section 11 of the 1965 Act (powers of entry) is modified as to secure that, as from the date on which the acquiring authority has served notice to treat in respect of any right it has power, exercisable in equivalent circumstances and subject to equivalent conditions, to enter for the purpose of exercising that right or enforcing that restrictive covenant (which is to be deemed for this purpose to have been created on that date of service of the notice); and sections 12 (penalty for unauthorised entry) and 13 (entry on warrant in the event of obstruction) of the 1965 Act is modified correspondingly.

8. Section 20 of the 1965 Act (protection for interests of tenants at will, etc.) applies with the modifications necessary to secure that persons with such interests in land as are mentioned in that section are compensated in a manner corresponding to that in which they would be compensated on a compulsory acquisition under this Order of that land, but taking into account only the extent (if any) of such interference with such an interest as is actually caused, or likely to be caused, by the exercise of the right or the enforcement of the restrictive covenant in question.

9. Section 22 of the 1965 Act (protection of acquiring authority's possession where by inadvertence an estate, right or interest has not been got in) is modified so as to enable the acquiring authority, in circumstances corresponding to those referred to in that section, to continue to be entitled to exercise the right acquired, subject to compliance with that section as respects compensation.

**SCHEDULE 13**  
**PROTECTIVE PROVISIONS**

Article 40

PART I

FOR THE PROTECTION OF RAILWAY INTERESTS

1. The following provisions of this Part of the Schedule have effect, unless otherwise agreed in writing between the undertaker and Network Rail and, in the case of paragraph 15, any other person on whom rights or obligations are conferred by that paragraph.

2. In this Part of this Schedule—

"construction" includes execution, placing, alteration and reconstruction and "construct" and "constructed" have corresponding meanings;

"the engineer" means an engineer appointed by Network Rail for the purposes of this Order;

"network licence" means the network licence, as the same is amended from time to time, granted to Network Rail Infrastructure Limited by the Secretary of State in exercise of his powers under section 8 of the Railways Act 1993;

"Network Rail" means Network Rail Infrastructure Limited and any associated company of Network Rail Infrastructure Limited which holds property for railway purposes, and for the purpose of this definition "associated company" means any company which is (within the meaning of section 1159 of the Companies Act 2006 the holding company of Network Rail Infrastructure Limited, a subsidiary of Network Rail Infrastructure Limited or another subsidiary of the holding company of Network Rail Infrastructure Limited;

"plans" includes sections, designs, design data, software, drawings, specifications, soil reports, calculations, descriptions (including descriptions of methods of construction), staging proposals, programmes and details of the extent, timing and duration of any proposed occupation of railway property;

"railway operational procedures" means procedures specified under any access agreement (as defined in the Railways Act 1993) or station lease;

"railway property" means any railway belonging to Network Rail and-

(a) any station, land, works, apparatus and equipment belonging to Network Rail or connected with any such railway; and

(b) any easement or other property interest held or used by Network Rail for the purposes of such railway or works, apparatus or equipment; and

"specified work" means so much of any of the authorised development as is situated upon, across, under, over or within 15 metres of, or may in any way adversely affect, railway property.

3. (1) Where under this Part of the Schedule Network Rail is required to give its consent, agreement or approval in respect of any matter, that consent, agreement or approval is subject to the condition that Network Rail complies with any relevant railway operational procedures and any obligations under its network licence or under statute.

(2) In so far as any specified work or the acquisition or use of railway property is or may be subject to railway operational procedures, Network Rail must—

(a) co-operate with the undertaker with a view to avoiding undue delay and securing conformity as between any plans approved by the engineer and requirements emanating from those procedures; and

- (b) use their reasonable endeavours to avoid any conflict arising between the application of those procedures and the proper implementation of the authorised development pursuant to this Order.
4. (1) The undertaker must not exercise the powers conferred by article 18 (Protective work to buildings), 19 (Authority to survey and investigate land), 20 (Compulsory Acquisition of Land), 22 (Power to override easements and other rights), 24 (Compulsory acquisition of rights), 25 (Private rights), 30 (Temporary use of land for carrying out the authorised development) or 31 (Temporary use of land for maintaining authorised development) or the powers conferred by section 11(3) of the 1965 Act (powers of entry) in respect of any railway property unless the exercise of such powers is with the consent of Network Rail.
- (2) The undertaker must not in the exercise of the powers conferred by this Order prevent pedestrian or vehicular access to any railway property, unless preventing such access is with the consent of Network Rail.
- (3) The undertaker must not exercise the powers conferred by sections 271 or 272 of the 1990 Act in relation to any right of access of Network Rail to railway property, but such right of access may be diverted with the consent of Network Rail.
- (4) The undertaker must not under the powers of this Order acquire or use or acquire new rights over any railway property except with the consent of Network Rail.
- (5) Prior to commencement of construction of the authorised development the undertaker must submit to Network Rail for its approval the design, specification, programme of works and method statement for the implementation of any works in respect of the railway crossing of the Norwich to Cromer and Sheringham railway line at Rackheath, Norwich, approximately 110 metres (measured along the railway line) north of the level crossing on the C874 Plumstead Road and the undertaker will thereafter comply with the provisions of the approved design, specification, programme of works and method statement.
- (6) Prior to commencement of construction of the authorised development the undertaker must submit to Network Rail for its approval the design, specification, programme of works and method statement for the implementation of any works in respect of the bridge crossing the C874 Plumstead Road, Norwich (approximately [ ] east of the railway crossing referred to in paragraph 4(5)(a)) provided that Network Rail may only approve those aspect of the design and specification that could affect the free, uninterrupted and safe use of any railway of Network Rail or the traffic thereon and the use by passengers of railway property and the undertaker will thereafter comply with the provisions of the approved design, specification, programme of works and method statement.
- (7) Where Network Rail is asked to give its consent or agreement pursuant to this paragraph, such consent or agreement must not be unreasonably withheld but may be given subject to reasonable conditions.
5. (1) The undertaker must before commencing construction of any specified work supply to Network Rail proper and sufficient plans of that work for the reasonable approval of the engineer and the specified work must not be commenced except in accordance with such plans as have been approved in writing by the engineer or settled by arbitration.
- (2) The approval of the engineer under sub-paragraph (1) must not be unreasonably withheld, and if by the end of the period of 28 days beginning with the date on which such plans have been supplied to Network Rail the engineer has not intimated disapproval of those plans and the grounds of disapproval the undertaker may serve upon the engineer written notice requiring the engineer to intimate approval or disapproval within a further period of 28 days beginning with the date upon which the engineer receives written notice from the undertaker. If by the expiry of the further 28 days the engineer has not intimated approval or disapproval, the engineer is to be deemed to have approved the plans as submitted.
- (3) If by the end of the period of 28 days beginning with the date on which written notice was served upon the engineer under sub-paragraph (2), Network Rail gives notice to the undertaker that Network Rail desires itself to construct any part of a specified work which in the opinion of the engineer will or may affect the stability of railway property or the safe operation of traffic on the railways of Network Rail then, if the undertaker desires such part of the specified work to be constructed, Network Rail must construct it with all reasonable dispatch on behalf of and

to the reasonable satisfaction of the undertaker in accordance with the plans approved or deemed to be approved or settled under this paragraph, and under the supervision (where appropriate and if given) of the undertaker.

(4) When signifying approval of the plans the engineer may specify any protective works (whether temporary or permanent) which in the engineer's opinion should be carried out before the commencement of the construction of a specified work to ensure the safety or stability of railway property or the continuation of safe and efficient operation of the railways of Network Rail or the services of operators using the same (including any relocation de-commissioning and removal of works, apparatus and equipment necessitated by a specified work and the comfort and safety of passengers who may be affected by the specified works), and such protective works as may be reasonably necessary for those purposes must be constructed by Network Rail or by the undertaker, if Network Rail so desires, and such protective works are to be carried out at the expense of the undertaker in either case with all reasonable dispatch and the undertaker must not commence the construction of the specified works until the engineer has notified the undertaker that the protective works have been completed to his reasonable satisfaction.

6. (1) Any specified work and any protective works to be constructed by virtue of paragraph 5(4) must, when commenced, be constructed—

- (a) with all reasonable dispatch in accordance with the plans approved or deemed to have been approved or settled under paragraph 5;
- (b) under the supervision (where appropriate and if given) and to the reasonable satisfaction of the engineer;
- (c) in such manner as to cause as little damage as is possible to railway property; and
- (d) so far as is reasonably practicable, so as not to interfere with or obstruct the free, uninterrupted and safe use of any railway of Network Rail or the traffic thereon and the use by passengers of railway property.

(2) If any damage to railway property or any such interference or obstruction is caused by the carrying out of, or in consequence of the construction of a specified work, the undertaker must, notwithstanding any such approval, make good such damage and must pay to Network Rail all reasonable expenses to which Network Rail may be put and compensation for any loss which it may sustain by reason of any such damage, interference or obstruction.

(3) Nothing in this Part of the Schedule imposes any liability on the undertaker with respect to any damage, costs, expenses or loss attributable to the negligence of Network Rail or its servants, contractors or agents or any liability on Network Rail with respect of any damage, costs, expenses or loss attributable to the negligence of the undertaker or its servants, contractors or agents.

7. The undertaker must-

- (a) at all times afford reasonable facilities to the engineer for access to a specified work during its construction; and
- (b) supply the engineer with all such information as the engineer may reasonably require with regard to a specified work or the method of constructing it.

8. Network Rail must at all times afford reasonable facilities to the undertaker and its agents for access to any works carried out by Network Rail under this Schedule during their construction and must supply the undertaker with such information as it may reasonably require with regard to such works or the method of constructing them.

9. (1) If any permanent or temporary alterations or additions to railway property, are reasonably necessary in consequence of the construction of a specified work, or during a period of 24 months after the completion of that work in order to ensure the safety of railway property or the continued safe operation of the railway of Network Rail, such alterations and additions may be carried out by Network Rail and if Network Rail gives to the undertaker reasonable notice of its intention to carry out such alterations or additions (which must be specified in the notice), the undertaker must pay to Network Rail the reasonable cost of those alterations or additions including, in respect of any such alterations and additions as are to be permanent, a capitalised sum representing the increase of the costs which may be expected to be reasonably incurred by

Network Rail in maintaining, working and, when necessary, renewing any such alterations or additions.

(2) If during the construction of a specified work by the undertaker, Network Rail gives notice to the undertaker that Network Rail desires itself to construct that part of the specified work which in the opinion of the engineer is endangering the stability of railway property or the safe operation of traffic on the railways of Network Rail then, if the undertaker decides that part of the specified work is to be constructed, Network Rail will assume construction of that part of the specified work and the undertaker must, notwithstanding any such approval of a specified work under paragraph 5(3), pay to Network Rail all reasonable expenses to which Network Rail may be put and compensation for any loss which it may suffer by reason of the execution by Network Rail of that specified work.

(3) The engineer must, in respect of the capitalised sums referred to in this paragraph and paragraph 10(a) provide such details of the formula by which those sums have been calculated as the undertaker may reasonably require.

(4) If the cost of maintaining, working or renewing railway property is reduced in consequence of any such alterations or additions a capitalised sum representing such saving is to be set off against any sum payable by the undertaker to Network Rail under this paragraph.

10. The undertaker must repay to Network Rail all reasonable fees, costs, charges and expenses reasonably incurred by Network Rail—

(a) in constructing any part of a specified work on behalf of the undertaker as provided by paragraph 5(3) or in constructing any protective works under the provisions of paragraph 5(4) including, in respect of any permanent protective works, a capitalised sum representing the cost of maintaining and renewing those works;

(b) in respect of the approval by the engineer of plans submitted by the undertaker and the supervision by him of the construction of a specified work;

(c) in respect of the employment or procurement of the services of any inspectors, signalmen, watchmen and other persons whom it is reasonably necessary to appoint for inspecting, signalling, watching and lighting railway property and for preventing, so far as may be reasonably practicable, interference, obstruction, danger or accident arising from the construction or failure of a specified work;

(d) in respect of any special traffic working resulting from any speed restrictions which may in the opinion of the engineer, require to be imposed by reason or in consequence of the construction or failure of a specified work or from the substitution of diversion or services which may be reasonably necessary for the same reason; and

(e) in respect of any additional temporary lighting of railway property in the vicinity of the specified works, being lighting made reasonably necessary by reason or in consequence of the construction or failure of a specified work.

11. (1) In this paragraph-

“EMI” means, subject to sub-paragraph (2), electromagnetic interference with Network Rail apparatus generated by the construction and operation of the authorised development where such interference is of a level which adversely affects the safe operation of Network Rail’s apparatus; and

“Network Rail’s apparatus” means any lines, circuits, wires, apparatus or equipment (whether or not modified or installed as part of the authorised development) which are owned or used by Network Rail for the purpose of transmitting or receiving electrical energy or of radio, telegraphic, telephonic, electric, electronic or other like means of signalling or other communications.

(2) This paragraph will apply to EMI only to the extent that such EMI is not attributable to any change to Network Rail’s apparatus carried out after approval of plans under paragraph 5(1) for the relevant part of the authorised development giving rise to EMI (unless the undertaker has been given notice in writing before the approval of those plans of the intention to make such change).

- (3) Subject to sub-paragraph (5), the undertaker must in the design and construction of the authorised development take all measures necessary to prevent EMI and must establish with Network Rail (both parties acting reasonably) appropriate arrangements to verify their effectiveness.
- (4) In order to facilitate the undertaker's compliance with sub-paragraph (3)-
- (a) the undertaker must consult with Network Rail as early as reasonably practicable to identify all Network Rail's apparatus which may be at risk of EMI, and thereafter must continue to consult with Network Rail (both before and after formal submission of plans under paragraph 5(1)) in order to identify all potential causes of EMI and the measures required to eliminate them;
  - (b) Network Rail must make available to the undertaker all information in the possession of Network Rail reasonably requested by the undertaker in respect of Network Rail's apparatus identified pursuant to sub-paragraph (a); and
  - (c) Network Rail must allow the undertaker reasonable facilities for the inspection of Network Rail's apparatus identified pursuant to sub-paragraph (a).
- (5) In any case where it is established that EMI can only reasonably be prevented by modifications to Network Rail's apparatus, Network Rail must not withhold its consent unreasonably to modifications of Network Rail's apparatus, but the means of prevention and the method of their execution is to be selected in the reasonable discretion of Network Rail, and in relation to such modifications paragraph 5(1) is to have effect subject to this sub-paragraph.
- (6) If at any time prior to the opening for traffic of the authorised development and notwithstanding any measures adopted pursuant to sub-paragraph (3), the testing or commissioning of the authorised development causes EMI then the undertaker must immediately upon receipt of notification by Network Rail of such EMI either in writing or communicated orally (such oral communication to be confirmed in writing as soon as reasonably practicable after it has been issued) forthwith cease to use (or procure the cessation of use of) the undertaker's apparatus causing such EMI until all measures necessary have been taken to remedy such EMI by way of modification to the source of such EMI or (in the circumstances, and subject to the consent, specified in sub-paragraph (5)) to Network Rail's apparatus.
- (7) In the event of EMI having occurred –
- (a) the undertaker must afford reasonable facilities to Network Rail for access to the undertaker's apparatus in the investigation of such EMI;
  - (b) Network Rail must afford reasonable facilities to the undertaker for access to Network Rail's apparatus in the investigation of such EMI; and
  - (c) Network Rail must make available to the undertaker any additional material information in its possession reasonably requested by the undertaker in respect of Network Rail's apparatus or such EMI.
- (8) Where Network Rail approves modifications to Network Rail's apparatus pursuant to sub-paragraphs (5) or (6) –
- (a) Network Rail must allow the undertaker reasonable facilities for the inspection of the relevant part of Network Rail's apparatus;
  - (b) any modifications to Network Rail's apparatus approved pursuant to those sub-paragraphs must be carried out and completed by the undertaker in accordance with paragraph 6.
- (9) To the extent that it would not otherwise do so, the indemnity in paragraph 15(1) will apply to the costs and expenses reasonably incurred or losses suffered by Network Rail through the implementation of the provisions of this paragraph (including costs incurred in connection with the consideration of proposals, approval of plans, supervision and inspection of works and facilitating access to Network Rail's apparatus) or in consequence of any EMI to which sub-paragraph (6) applies.

(10) For the purpose of paragraph 10(a) any modifications to Network Rail's apparatus under this paragraph are to be deemed to be protective works referred to in that paragraph.

(11) In relation to any dispute arising under this paragraph the reference in article [47] (Arbitration) to the Institution of Civil Engineers is to be read as a reference to the Institution of Electrical Engineers.

12. If at any time after the completion of a specified work, not being a work vested in Network Rail, Network Rail gives notice to the undertaker informing it that the state of maintenance of any part of the specified work appears to be such as adversely affects the operation of railway property, the undertaker must, on receipt of such notice, take such steps as may be reasonably necessary to put that specified work in such state of maintenance as not adversely to affect railway property.
13. The undertaker must not provide any illumination or illuminated sign or signal on or in connection with a specified work in the vicinity of any railway belonging to Network Rail unless it has first consulted Network Rail and it must comply with Network Rail's reasonable requirements for preventing confusion between such illumination or illuminated sign or signal and any railway signal or other light used for controlling, directing or securing the safety of traffic on the railway.
14. Any additional expenses which Network Rail may reasonably incur in altering, reconstructing or maintaining railway property under any powers existing at the making of this Order by reason of the existence of a specified work must, provided that 56 days' previous notice of the commencement of such alteration, reconstruction or maintenance has been given to the undertaker, be repaid by the undertaker to Network Rail.
15. (1) The undertaker must pay to Network Rail all reasonable costs, charges, damages and expenses not otherwise provided for in this Schedule which may be occasioned to or reasonably incurred by Network Rail—
  - (a) by reason of the construction or maintenance of a specified work or the failure thereof or
  - (b) by reason of any act or omission of the undertaker or of any person in its employ or of its contractors or others whilst engaged upon a specified work;

and the undertaker must indemnify and keep indemnified Network Rail from and against all claims and demands arising out of or in connection with a specified work or any such failure, act or omission: and the fact that any act or thing may have been done by Network Rail on behalf of the undertaker or in accordance with plans approved by the engineer or in accordance with any requirement of the engineer or under his supervision does not (if it was done without negligence on the part of Network Rail or of any person in its employ or of its contractors or agents) excuse the undertaker from any liability under the provisions of this sub-paragraph.

(2) Network Rail must give the undertaker reasonable notice of any such claim or demand and no settlement or compromise of such a claim or demand is to be made without the prior consent of the undertaker.

(3) The sums payable by the undertaker under sub-paragraph (1) include a sum equivalent to the relevant costs.

(4) Subject to the terms of any agreement between Network Rail and a train operator regarding the timing or method of payment of the relevant costs in respect of that train operator, Network Rail must promptly pay to each train operator the amount of any sums which Network Rail receives under sub-paragraph (3) which relates to the relevant costs of that train operator.

(5) The obligation under sub-paragraph (3) to pay Network Rail the relevant costs is, in the event of default, enforceable directly by any train operator concerned to the extent that such sums would be payable to that operator pursuant to sub-paragraph (4).

(6) In this paragraph—

"the relevant costs" means the costs, direct losses and expenses (including loss of revenue) reasonably incurred by each train operator as a consequence of any restriction of the use of

Network Rail's railway network as a result of the construction, maintenance or failure of a specified work or any such act or omission as mentioned in subparagraph (1); and

"train operator" means any person who is authorised to act as the operator of a train by a licence under section 8 of the Railways Act 1993.

16. Network Rail must, on receipt of a request from the undertaker, from time to time provide the undertaker free of charge with written estimates of the costs, charges, expenses and other liabilities for which the undertaker is or will become liable under this Part of the Schedule (including the amount of the relevant costs mentioned in paragraph 15) and with such information as may reasonably enable the undertaker to assess the reasonableness of any such estimate or claim made or to be made pursuant to this Part of the Schedule (including any claim relating to those relevant costs).
17. In the assessment of any sums payable to Network Rail under this Part of this Schedule no account is to be taken of any increase in the sums claimed that is attributable to any action taken by or any agreement entered into by Network Rail if that action or agreement was not reasonably necessary and was taken or entered into with a view to obtaining the payment of those sums by the undertaker under this Part of the Schedule or increasing the sums so payable.
18. The undertaker and Network Rail may, subject in the case of Network Rail to compliance with the terms of its network licence, enter into, and carry into effect, agreements for the transfer to the undertaker of—
  - (a) any railway property shown on the works and land plans and described in the book of reference;
  - (b) any lands, works or other property held in connection with any such railway property; and
  - (c) any rights and obligations (whether or not statutory) of Network Rail relating to any railway property or any lands, works or other property referred to in this paragraph.
19. Nothing in this Order, or in any enactment incorporated with or applied by this Order, prejudices or affects the operation of Part I of the Railways Act 1993.
20. The undertaker must give written notice to Network Rail when any application is proposed to be made by the undertaker for the decision-maker's consent, under article 41 (Certification of plans) of this Order and any such notice must be given no later than 28 days before any such application is made and must describe or give (as appropriate)—
  - (a) the nature of the application to be made;
  - (b) the extent of the geographical area to which the application relates; and
  - (c) the name and address of the person acting for the decision-maker to whom the application is to be made.
20. The undertaker must no later than 28 days from the date that the plans submitted to and certified by the decision-maker in accordance with article 41 (Certification of plans) are certified, provide a set of those plans to Network Rail in the form of a computer disc with read only memory.

## PART 2

### FOR THE PROTECTION OF NATIONAL GRID

For the protection of National Grid and any associated undertaking of National Grid which holds property for operational purposes any successors as a licence holder or any other associated and successor undertaker to National Grid, the undertaker and National Grid have entered into an agreement dated [●] containing provisions for the protection and benefit of National Grid and any such associated successors or associated undertaker to National Grid in relation to the exercise operation and use of the authorised development by the undertaker. The provisions of that agreement have effect unless otherwise varied or amended in writing between the undertaker and National Grid.

## PART 3

### FOR THE PROTECTION OF ANGLIAN WATER

1. The following provisions of this Part of the Schedule have effect, unless otherwise agreed in writing between the undertaker and Anglian Water.

2. In this Part of the Schedule -

"alternative apparatus" means alternative apparatus adequate to enable Anglian Water to fulfil its statutory functions in a manner no less efficient than previously;

"apparatus" means any works, mains, pipes or other apparatus belonging to or maintained by Anglian Water for the purposes of water supply and sewerage and

(a) any drain or works vested in Anglian Water under the Water Industry Act 1991; and

(b) any sewer which is so vested or is the subject of a notice of intention to adopt given under section 102 (4) of that Act or an agreement to adopt made under section 104 of that Act,

and includes a sludge main, disposal main or sewer outfall and any manholes, ventilating shafts, pumps or other accessories forming part of any sewer, drain or works (within the meaning of section 219 of that Act) and any structure in which apparatus is or is to be lodged or which gives or will give access to apparatus.

"functions" includes powers and duties

"in" in a context referring to apparatus or alternative apparatus in land includes a reference to apparatus or alternative apparatus under, over or upon land; and

"plan" includes sections, drawings, specifications and method statements.

3. The undertaker must not interfere with, build over or near to any apparatus within the Order land or execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within the standard protection strips, which are the strips of land falling the following distances to either side of the medial line of any relevant pipe or apparatus: 2.25 metres where the diameter of the pipe is less than 150 millimetres; 3 metres where the diameter of the pipe is between 150 and 450 millimetres; 4.5 metres where the diameter of the pipe is between 450 and 750 millimetres; and 6 metres where the diameter of the pipe exceeds 750 millimetres, unless otherwise agreed in writing with Anglian Water, such agreement not to be unreasonably withheld or delayed, and such provision being brought to the attention of any agent or contractor responsible for carrying out the authorised development on behalf of the undertaker.

4. The alteration, extension, removal or re-location of any apparatus must not be implemented until

(a) any requirement for any permits under the Environmental Permitting Regulations 2010 or other legislation and any other associated consents are obtained, and any approval or agreement required from Anglian Water on alternative outfall locations as a result of such re-location are approved, such approval or agreement from Anglian Water not to be unreasonably withheld or delayed; and

(b) the undertaker has made the appropriate application required under the Water Industry Act 1991 together with a plan and section of the works proposed and Anglian Water has agreed all of the contractual documentation required under that Act, such agreement not to be unreasonably withheld or delayed; and such works to be executed only in accordance with the plan, section and description submitted and in accordance with such reasonable requirements as may be made by Anglian Water for the alteration or otherwise for the protection of the apparatus, or for securing access to it.

5. In the situation where, in exercise of the powers conferred by the Order, the undertaker acquires any interest in any land in which apparatus is placed and such apparatus is to be

relocated, extended, removed or altered in any way, no alteration or extension may take place until Anglian Water has established to its reasonable satisfaction in a timely manner, contingency arrangements in order to conduct its functions for the duration of the works to relocate, extend, remove or alter the apparatus or provide alternative apparatus.

6. Regardless of any provision in this Order or anything shown on any plan, the undertaker must not acquire any apparatus otherwise than by agreement, and before extinguishing any existing rights for Anglian Water to use, keep, inspect, renew and maintain its apparatus in the Order land, the undertaker must, with the agreement of Anglian Water, create a new right to use, keep, inspect, renew and maintain the alternative apparatus that is reasonably convenient for Anglian Water such agreement not to be unreasonably withheld or delayed, and to be subject to arbitration under article 47.

7. If the undertaker is unable to create the new rights referred to in paragraph 6, Anglian Water must, on receipt of a written notice to that effect from the undertaker, as soon as reasonably possible, use its best endeavours to obtain the necessary rights.

8. If in consequence of the exercise of the powers conferred by the Order the access to any apparatus is materially obstructed the undertaker must provide such alternative means of access to such apparatus as will enable Anglian Water to maintain or use the apparatus no less effectively than was possible before such obstruction.

9. If in consequence of the exercise of the powers conferred by the Order, previously unmapped sewers, lateral drains or other apparatus are identified by the undertaker, notification of the location of such assets will immediately be given to Anglian Water and afforded the same protection as other Anglian Water assets.

10. If for any reason or in consequence of the construction of any of the works referred to in paragraphs 3, 4 and 5 above any damage is caused to any apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of Anglian Water, or there is any interruption in any service provided, or in the supply of any goods, by Anglian Water, the undertaker must,

(a) bear and pay the cost reasonably incurred by Anglian Water in making good any damage or restoring the supply; and

(b) make reasonable compensation to Anglian Water for any other expenses, loss, damages, penalty or costs incurred by Anglian Water

by reason or in consequence of any such damage or interruption.

11. (1) Nothing in paragraph 10 imposes any liability on the undertaker in respect of any damage or interruption to the extent that it is attributable to the neglect or default of Anglian Water, its officers, servants, contractors or agents; and

(2) Anglian Water must give the undertaker reasonable notice of any claim or demand pursuant to paragraph 10 and must consider its representations before proceeding further in respect of the claim or demand.

12. This Part of this Schedule does not apply to apparatus in respect of which the relations between the undertaker and Anglian Water are regulated by the provisions of Part 3 of the 1991 Act.

#### PART 4

#### FOR THE PROTECTION OF ELECTRICITY SUPPLIERS

1. The following provisions of this Part of the Schedule have effect unless otherwise agreed in writing between the undertaker and the electricity supplier.

2. In this Part of the Schedule—

“alternative apparatus” means alternative apparatus adequate to enable the electricity supplier to fulfil its statutory functions in a manner no less efficient than previously;

“apparatus” means electric lines or electrical plant (as defined in the Electricity Act 1989), belonging to or maintained by the electricity supplier;

“electricity supplier” means any licence holder within the meaning of Part I of the Electricity Act 1989 for the area of the authorised development;

“functions” includes powers and duties;

“in” in a context referring to apparatus or alternative apparatus in land includes a reference to apparatus or alternative apparatus under, over or upon land; and

“plan” or “plans” include all designs, drawings, specifications, method statements, soil reports, programmes, calculations, risk assessments and other documents that are reasonably necessary properly and sufficiently to describe the works to be executed.

#### *On street apparatus*

3. This Part of this Schedule does not apply to apparatus in respect of which the relations between the undertaker and the electricity supplier are regulated by the provisions of Part 3 of the 1991 Act.

#### *Apparatus in temporarily stopped up streets*

4. Notwithstanding the temporary stopping up or diversion of any highway under the powers of article 14 (temporary prohibition or restriction on use of streets), an electricity supplier is to be at liberty at all times to take all necessary access across any such stopped up highway and/or to execute and do all such works and things in, upon or under any such highway as may be reasonably necessary or desirable to enable it to maintain any apparatus which at the time of the stopping up or diversion was in that highway.

#### *Protective works to buildings*

5. The undertaker, in the case of the powers conferred by article 18 (protective work to buildings), must exercise those powers so as not to obstruct or render less convenient the access to any apparatus.

#### *Acquisition of land*

6. Regardless of any provision in this Order or anything shown on the land plans, the undertaker must not acquire any apparatus otherwise than by agreement, such agreement not to be unreasonably withheld or delayed.

#### *Removal of apparatus*

7. (1) If, in the exercise of the powers conferred by this Order, the undertaker acquires any interest in any land in which any apparatus is placed or requires that the electricity supplier’s apparatus is relocated or diverted, that apparatus must not be removed under this part of this Schedule and any right of the electricity supplier to maintain that apparatus in that land is not extinguished until alternative apparatus has been constructed and is in operation to the reasonable satisfaction of the electricity supplier in accordance with sub-paragraphs (2) to (7).

(2) If, for the purpose of executing any works in, on or under any land purchased, held, appropriated or used under this Order, the undertaker requires the removal of any apparatus placed in that land, he must give to the electricity supplier 28 days’ written notice of that requirement, together with a plan of the work proposed, and of the proposed position of the alternative apparatus to be provided or constructed and in that case (or if in consequence of the exercise of any of the powers conferred by this Order the electricity supplier reasonably needs to remove any of its apparatus) the undertaker must, subject to sub-paragraph (3), afford to the electricity supplier the necessary facilities and rights for the construction of alternative apparatus in other land of the undertaker and subsequently for the maintenance of that apparatus.

(3) If alternative apparatus or any part of such apparatus is to be constructed elsewhere than in other land of the undertaker, or the undertaker is unable to afford such facilities and rights as are mentioned in sub-paragraph (2) in the land in which the alternative apparatus or part of such apparatus is to be

constructed, the electricity supplier must, on receipt of a written notice to that effect from the undertaker, as soon as reasonably possible use its best endeavours to obtain the necessary facilities and rights in the land in which the alternative apparatus is to be constructed.

(4) Any alternative apparatus to be constructed in land of the undertaker under this part of this Schedule must be constructed in such manner and in such line or situation as may be agreed between the electricity supplier and the undertaker or in default of agreement settled by arbitration in accordance with article 47 (arbitration).

(5) The electricity supplier must, after the alternative apparatus to be provided or constructed has been agreed or settled by arbitration in accordance with article 47, and after the grant to the electricity supplier of any such facilities and rights as are referred to in sub-paragraph (2) or (3), proceed without unnecessary delay to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by the undertaker to be removed under the provisions of this part of this Schedule.

(6) Regardless of anything in sub-paragraph (5), if the undertaker gives notice in writing to the electricity supplier that it desires itself to execute any work, or part of any work in connection with the construction or removal of apparatus in any land of the undertaker, that work, instead of being executed by the electricity supplier, must be executed by the undertaker without unnecessary delay under the superintendence, if given, and to the reasonable satisfaction of the electricity supplier.

(7) Nothing in sub-paragraph (6) authorises the undertaker to execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within 300 millimetres of the apparatus.

#### *Facilities and rights for alternative apparatus*

8. (1) Where, in accordance with the provisions of this Part of this Schedule, the undertaker affords to the electricity supplier facilities and rights for the construction and maintenance in land of the undertaker of alternative apparatus in substitution for apparatus to be removed, those facilities and rights are to be granted upon such terms and conditions as may be agreed between the undertaker and the electricity supplier or in default of agreement settled by arbitration in accordance with article 47 (arbitration).

(2) If the facilities and rights to be afforded by the undertaker in respect of any alternative apparatus, and the terms and conditions subject to which those facilities and rights are to be granted, are in the opinion of the arbitrator less favourable on the whole to the electricity supplier than the facilities and rights enjoyed by it in respect of the apparatus to be removed and the terms and conditions to which those facilities and rights are subject, the arbitrator must make such provision for the payment of compensation by the undertaker to the electricity supplier as appears to the arbitrator to be reasonable having regard to all the circumstances of the particular case.

#### *Retained apparatus*

9. (1) Not less than 28 days before starting the execution of any works in, on or under any land purchased, held, appropriated or used under this Order that are near to, or will or may affect, any apparatus the removal of which has not been required by the undertaker under paragraph 7(2), the undertaker must submit to the electricity supplier a plan of the works to be executed.

(2) Those works must be executed only in accordance with the plan submitted under sub-paragraph (1) and in accordance with such reasonable requirements as may be made in accordance with sub-paragraph (3) by the undertaker for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and the electricity supplier is entitled to watch and inspect the execution of those works.

(3) Any requirements made by the electricity supplier under sub-paragraph (2) must be made within a period of 21 days beginning with the date on which a plan under sub-paragraph (1) was submitted to it.

(4) If the electricity supplier in accordance with sub-paragraph (3) and in consequence of the works proposed by the undertaker, reasonably requires the removal of any apparatus and gives written notice

to the undertaker of that requirement, paragraphs 1 to 3 and 6 to 8 apply as if the removal of the apparatus had been required by the undertaker under paragraph 7(2).

(5) Nothing in this paragraph precludes the undertaker from submitting at any time or from time to time, but in no case less than 28 days before commencing the execution of any works, a new plan instead of the plan previously submitted, and having done so the provisions of this paragraph apply to and in respect of the new plan.

(6) The undertaker is not to be required to comply with sub-paragraph (1) in a case of emergency but in that case it must give to the electricity supplier notice as soon as is reasonably practicable and a plan of those works as soon as reasonably practicable subsequently and must comply with sub-paragraph (3) in so far as is reasonably practicable in the circumstances.

(7) In relation to works which will or may be situated on, over, under or within 10 metres measured in any direction of any apparatus, or involve embankment works within 10 metres of any apparatus, the plan to be submitted to the electricity supplier under sub-paragraph (1) must be detailed including a method statement and describing—

- (a) the exact position of the works;
- (b) the level at which these are proposed to be constructed or renewed;
- (c) the manner of their construction or renewal;
- (d) the position of all electricity apparatus; and
- (e) by way of detailed drawings, every alteration proposed to be made to such apparatus.

#### *Expenses and costs*

10. (1) Subject to the following provisions of this paragraph, the undertaker must repay to the electricity supplier all expenses reasonably incurred by the electricity supplier in, or in connection with, the inspection, removal, alteration or protection of any apparatus or the construction of any new apparatus which may be required in consequence of the execution of any such works as are referred to in paragraph 7(2).

(2) There is to be deducted from any sum payable under sub-paragraph (1) the value of any apparatus removed under the provisions of this Schedule, that value being calculated after removal.

(3) If in accordance with the provisions of this Part of this Schedule

- (a) apparatus of better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimensions; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was situated,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by the undertaker or, in default of agreement, is not determined by arbitration in accordance with article 46 (arbitration) to be necessary, then, if such placing involves cost in the construction of works under this Part of this Schedule exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this sub-paragraph would be payable to the electricity supplier by virtue of sub-paragraph (1) is to be reduced by the amount of that excess.

(4) For the purposes of sub-paragraph (3)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus is not to be treated as a placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a pipe or cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole is to be treated as if it also had been agreed or had been so determined.

(5) An amount which apart from this sub-paragraph would be payable to an electricity supplier in respect of works by virtue of sub-paragraph (1) must, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the electricity supplier any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, be reduced by the amount which represents that benefit.

11. (1) Subject to sub-paragraphs (2) and (3), if by reason or in consequence of the construction of the authorised development, any damage is caused to any apparatus or alternative apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of the electricity supplier, or there is any interruption in any service provided, or in the supply of any goods, by the electricity supplier, the undertaker is to—

(a) bear and pay the cost reasonably incurred by the electricity supplier in making good such damage or restoring the supply; and

(b) make reasonable compensation to the electricity supplier for any other expenses, loss, damages, penalty or costs incurred by the electricity supplier,

by reason or in consequence of any such damage or interruption.

(2) The fact that any act or thing may have been done by an electricity supplier on behalf of the undertaker or in accordance with a plan approved by an undertaker or in accordance with any requirement of an undertaker or under its supervision does not, subject to sub-paragraph (3), excuse the undertaker from liability under the provisions of sub-paragraph (1).

(3) Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of the electricity supplier, its officers, servants, contractors or agents.

(4) An electricity supplier must give the undertaker reasonable notice of any such claim or demand and no settlement or compromise is to be made without the consent of the undertaker and, if he withholds such consent, he is to have the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

#### *Cooperation*

12. Where in consequence of the proposed construction of any of the authorised development, the undertaker or the electricity supplier requires the removal of apparatus under paragraph 7(2) or the electricity supplier makes requirements for the protection or alteration of apparatus under paragraph 9, the undertaker must use its best endeavours to co-ordinate the execution of the works in the interests of safety and the efficient and economic execution of the authorised development and taking into account the need to ensure the safe and efficient operation of the electricity supplier's undertaking and the electricity supplier must use its best endeavours to co-operate with the undertaker for that purpose.

### PART 5

#### FOR THE PROTECTION OF OPERATORS OF ELECTRONIC COMMUNICATIONS CODE NETWORKS

1. The following provisions have effect for the protection of any operator, unless otherwise agreed in writing between the undertaker and the operator.

2. In this Part of this Schedule—

“the 2003 Act” means the Communications Act 2003;

“conduit system” has the same meaning as in the electronic communications code and references to providing a conduit system is to be construed in accordance with paragraph 1(3A) of that code;

“electronic communications apparatus” has the same meaning as in the electronic communications code;

“the electronic communications code” has the same meaning as in Chapter 1 of Part 2 of the 2003 Act;

“electronic communications code network” means—

- (a) so much of an electronic communications network or conduit system provided by an electronic communications code operator as is not excluded from the application of the electronic communications code by a direction under section 106 of the 2003 Act; and
- (b) an electronic communications network which the Secretary of State is providing or proposing to provide;

“electronic communications code operator” means a person in whose case the electronic communications code is applied by a direction under section 106 of the 2003 Act; and

“operator” means the operator of an electronic communications code network.

3. The exercise of the powers of article 33 (statutory undertakers) are subject to paragraph 23 of Schedule 2 to the Telecommunication Act 1984 (undertaker’s works).

4. (1) Subject to sub-paragraphs (2) to (4), if as the result of the authorised development or their construction, or of any subsidence resulting from any of those works—

- (a) any damage is caused to any electronic communications apparatus belonging to an operator (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works, or other property of an operator); or
- (b) there is any interruption in the supply of the service provided by an operator,

the undertaker must bear and pay the cost reasonably incurred by the operator in making good such damage or restoring the supply and make reasonable compensation to that operator for any other expenses, loss, damages, penalty or costs incurred by it, by reason, or in consequence of, any such damage or interruption.

(2) Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of an operator, its officers, servants, contractors or agents.

(3) The operator must give the undertaker reasonable notice of any such claim or demand and no settlement or compromise of the claim or demand may be made without the consent of the undertaker which, if it withholds such consent, is to have the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

(4) Any difference arising between the undertaker and the operator under this Part of this Schedule is to be referred to and settled by arbitration under article 46 (arbitration).

5. This Part of this Schedule is not to apply to—

- (a) any apparatus in respect of which the relations between the undertaker and an operator are regulated by the provisions of Part 3 of the 1991 Act; or
- (b) any damages, or any interruptions, caused by electro-magnetic interference arising from the construction or use of the authorised development.

## SCHEDULE 14

### SPEED LIMITS AND TRAFFIC REGULATION MEASURES

Article 44

#### PART 1

#### SPEED LIMITS

Parish	Road name, number and length	Speed Limit
Taverham	C262 Fir Covert Road  From its junction with the A1067 Fakenham Road northwards to a point 45 metres south of its junction with the NDR classified road.	40 miles per hour
	From its junction with the C261 Reepham Road southwards to a point 45 metres north of its junction with the NDR classified road.	40 miles per hour
Horsford & Drayton	C261 Reepham Road  From a point 75 metres northwest of the centreline of its junction with the U57388 Drayton Wood Road north-westwards to a point 168 metres north-west of the centreline of its junction with the U51248 Drewray Drive.	50 miles per hour
Horsford	B1149 Holt Road  From a point 50 metres southeast of the centreline of its junction with the proposed Drayton Lane Link Road north-westwards to a point 25 metres north-west of the centreline of its junction with the U57634 Olive Crescent (including the entire area of the roundabout).	30 miles per hour (Partly lit)
	C282 Drayton Lane  From its junction with the B1149 Holt Road westwards and southwards for a distance of 224 metres.	30 miles per hour (Unlit)
	Drayton Lane Link Road (northern leg)  From its junction with the B1149 Holt Road south-westwards for a distance of 30 metres.	30 miles per hour (Unlit)
	From a point 30 metres south-west of it's the junction with the B1149 Holt Road south-westwards for a distance of 460 metres.	40 miles per hour
	Drayton Lane Link Road (southern leg)  From the centreline of its junction with the C261 Reepham Road northwards for a distance of 330 metres.	50 miles per hour

<b>Parish</b>	<b>Road name, number and length</b>	<b>Speed Limit</b>
Spixworth	C246 Buxton Road  From a point 103 metres south of the centreline of its junction with the U57187 Beeston Road northwards to a point 325 metres north of the centreline of its junction with the C250 Church Lane.	30 miles per hour (Partly lit)
	U57187 Beeston Lane  From its junction with the C246 Buxton Road eastwards for a distance of 13 metres.	30 miles per hour (Unlit)
Spixworth and Old Catton	C246 Buxton Road/Spixworth Road  From a point 103 metres south of the centreline of its junction with the U57187 Beeston Road southwards to a point 91 metres north of the centreline of its junction with the U51004 The Paddocks.	40 miles per hour
Rackheath and Sprowston	A1151 Wroxham Road  From a point 400 metres northeast of the centreline of its junction with the U57617 Chenery Drive north-eastwards to a point 40 metres south-west of its junction with the NDR classified road.	50 miles per hour
Rackheath	A1151 Wroxham Road  From a point 47 metres north-east of its junction with the NDR classified road to a point 265 metres north-east of the centreline of its junction with the U57143 Stonehouse Road.	50 miles per hour
Rackheath & Great and Little Plumstead	C874 Norwich Road/Plumstead Road  From a point 198 metres north-east of the centreline of its junction with the C258 Broad Lane south-westward to a point 62 metres south-west of the centreline of its junction with the proposed Plumstead Road Link Road (including the entire area of the roundabout).	40 miles per hour
	Plumstead Road Link Road  From its junction with the NDR classified road northwards to its junction with the C874 Plumstead Road.	40 miles per hour
Great and Little Plumstead	C442 Middle Road  From a point 200 metres east of its junction with the U59278 Green Lane North eastwards to its junction with the C258 ChurchRoad/U59392 Low Road.	30 miles per hour (Unlit)
	U59392 Low Road	40 miles per hour

<b>Parish</b>	<b>Road name, number and length</b>	<b>Speed Limit</b>
	From a point 140 metres west of its junction with the C258 Church Road westwards to its western most end on the east side of the NDR classified road.	
	U59400 Smea Lane From its junction with the C258 Church Lane westwards to its western most end on the east side of the NDR classified road.	40 miles per hour
	U59400 Smea Lane From its junction with the C380 Broadland Way eastwards for a distance of 190 metres.	40 miles per hour
	U59284 Toad Lane From its junction with the C442 Middle Road northwards for a distance of 245 metres.	30 miles per hour
Rackheath and Salhouse	C283 Salhouse Road From a point 40 metres northeast of its junction with the NDR classified road north-eastwards to a point 470 metres north-east of the centreline of its junction with the U51493 Eva Road.	30 miles per hour (Partly lit)
Postwick with Witton	A1194 Broadland Gate Link From its junction with the C829 Broadland Way eastwards for its entire length (including the entire area of the Broadland Gate and Business Park Roundabouts).	40 miles per hour
	A1270 Business Park Link From its junction with the A1194 Broadland Gate Link southwards for its entire length (including the Postwick North East Roundabout).	40 miles per hour
	A1270 Business Park Link (segregated left turn lane) From its junction with the A1270 Business Park Link main carriageway south-westwards for a distance of 112 metres (to the boundary with the Trunk Road).	40 miles per hour
	New Postwick Bridge From its junction with the A1042 Yarmouth Road north-eastwards for its entire length (including the entire area of the Postwick Park and Ride signalised junction).	40 miles per hour
	A1042 Yarmouth Road	40 miles per hour

<b>Parish</b>	<b>Road name, number and length</b>	<b>Speed Limit</b>
	From a point 95 metres east of the centreline of its junction with the U59329 Oaks Lane westwards and north-westwards to its junction with the A1042 Postwick North West roundabout (including the Postwick North West roundabout).	
	A1042 Yarmouth Road  From its junction with the Postwick North West roundabout westwards to a point 7 metres west of the centreline of its junction with the UP93 Griffin Lane	40 miles per hour
	U59329 Oaks Lane  From its junction with the A1042 Yarmouth Road southwards for a distance of 30 metres.	40 miles per hour
	Stub Arm off Broadland Gate Roundabout  From its junction with the A1194 Broadland Gate Link southwards for its entire length.	40 miles per hour
	A1270 Norwich Northern Distributor Road  From its junction with the A1194 Broadland Gate Link north-westwards for a distance of 35 metres.	40 miles per hour
	A47 Southern Bypass Trunk Road Postwick Eastbound Diverge Slip Road)  From its junction with the proposed Postwick North East Roundabout westwards for a distance of 96 metres.	40 miles per hour
	A47 Southern Bypass Trunk Road Postwick Eastbound Diverge Slip Road (segregated left turn lane)  From a point 96 metres west of its junction with the Postwick North East Roundabout north-eastwards for a distance of 191 metres.	40 miles per hour
	A47 Southern Bypass Trunk Road (Postwick westbound merge slip road)  From its junction with the A1042 Yarmouth Road westwards for a distance of 80 metres.	40 miles per hour

## PART 2

### TRAFFIC REGULATION MEASURES

Parish(es)	Road name, number and length	Measure

Great and Little Plumstead	C258 Broad Lane  From its junction with the C874 Norwich Road north-westwards for a distance of 4 metres.	Prohibition of motor vehicles
Postwick with Witton	U99800 Postwick Park and Ride western entry  From its junction with the A1042 Yarmouth Road southwards for a distance of 5 metres.	Prohibition of motor vehicles (except buses)

**PART 3**

**SPEED LIMIT REVOCATIONS AND VARIATIONS**

<b>Parish(es)</b>	<b>Road name, number and length</b>	<b>Title of Order</b>
Taverham	C262 Fir Covert Road  From its junction with the A1067 Fakenham Road to its junction with the C261 Reepham Road.	The Norfolk County Council (Taverham, C262 Fir Covert Road) (40 mph Speed Limit) Order 2002. (3081)
Horsford & Drayton	C261 Reepham Road  From a point 75 metres north-west of the centreline of its junction with the U57388 Drayton Wood Road north-westwards to a point 168 metres north-west of the centreline of its junction with the U51248 Drewray Drive a distance of 3953 metres.	The Norfolk County Council (Horsford and Drayton, Reepham Road) (50 mph Speed Limit) Order 2003. (3368)
Horsford	B1149 Holt Road  From a point 63 metres south-east of the centreline of its junction with Drayton Lane north-westwards to a point 25 metres north-west of the centreline of its junction with the U57634 Olive Crescent.	The Norfolk County Council (Horsford, Holt Road, Drayton Lane and Church Street) (30 mph Speed Limit) Order 2011. (4664)
	C282 Drayton Lane  From its junction with the B1149 Holt Road westwards for a distance of 144 metres.	The Norfolk County Council (Horsford, Holt Road, Drayton Lane and Church Street) (30 mph Speed Limit) Order 2011. (4664)
Spixworth	C246 Buxton Road  From a point 30 metres south of the centreline of its junction with the U51200 Arthurton Road northwards to a point 325 metres north of the centreline of its junction with the C250 Church Lane.	The Norfolk County Council (Spixworth, Buxton Road and Church Lane) (30 mph Speed Limit) Order 2007. (4105)
Spixworth and Old Catton	C246 Buxton Road/Spixworth Road  From a point 30 metres south of its junction with the U51200 Arthurton Road to a point 91 metres north of its junction with The Paddocks.	The Norfolk County (Spixworth, Old Catton and Sprowston) (30 mph and 40 mph Speed Limits) Order 1999. (2641)
Rackheath	A1151 Wroxham Road  From a point 400 metres northeast of the centreline of its junction with the U57617 Chenery Drive north-eastwards to a point 265 metres north-east of the centreline of its junction with the U57143 Stonehouse Road.	The Norfolk County (Sprowston and Rackheath, A1151 Wroxham Road) (30 mph and 50 mph Speed Limits) Order 2003. (3277)
Rackheath & Great and Little Plumstead	C874 Norwich Road/Plumstead Road  From a point 100 metres south-west of the centreline of its junction with the C258 Broad Lane north-eastwards for a distance of 300 metres.	The Norfolk County (Rackheath and Great and Little Plumstead) (40 mph Speed Limit) Order 2011. (4663)

<b>Parish(es)</b>	<b>Road name, number and length</b>	<b>Title of Order</b>
Great and Little Plumstead	C442 Middle Road  From a point 128 metres west of the centre of its junction with the C258 Church Road for a distance of 175m in a westerly direction.	The Norfolk County (Great and Little Plumstead) (30 mph Speed Limit) Order 1996. (2067)
	U59392 Low Road  From a point 138 metres west of its junction with the Church Road (C258) for its entire length.	The Norfolk County (Great and Little Plumstead) (40 mph Speed Limit) Order 2007. (4236)
	U59400 Smea Lane  For its entire length	The Norfolk County (Great and Little Plumstead) (40 mph Speed Limit) Order 2007. (4236)
Rackheath and Salhouse	C283 Salhouse Road  From a point 100 metres south-west of its junction with the C258 Green Lane East north-eastwards to a point 470 metres northeast of its junction with the U51493 Eva Road.	The Norfolk County Council (Rackheath, Salhouse Road (No.2)) (30 mph Speed Limit) Order 2005 (3848)
Postwick with Witton and Thorpe St. Andrew	A47 (eastbound slip road leaving the A47)  From its junction with the A1042 flyover northern roundabout for a distance of 60 metres in a southerly direction.	The Norfolk County (Postwick and Thorpe St. Andrew, A1042 Yarmouth Road) (40 mph Speed Limit) Order 1999. (2589)
	A1042 Yarmouth Road  From a point 87 metres east of its junction with the A1042 flyover southern roundabout to a point 7 metres west of the centreline of Griffin Lane.	The Norfolk County (Postwick and Thorpe St. Andrew, A1042 Yarmouth Road) (40 mph Speed Limit) Order 1999. (2589)
	The carriageway forming the northern arm of the A1042 flyover northern roundabout  From its junction with the A1042 flyover northern roundabout to the roundabout junction located approximately 360 metres to the north  The roundabout junction located approximately 360 metres north of the A1042 flyover northern roundabout.	The Norfolk County (Postwick and Thorpe St. Andrew, A1042 Yarmouth Road) (40 mph Speed Limit) Order 1999. (2589)
	A1042 Yarmouth Road – north east side  From a point 18 metres south-east of the A1042 northern flyover roundabout in a south easterly direction for 160 metres.	The Norfolk County (Postwick and Thorpe St. Andrew, A1042) (Cycle Lane) Order 1999. (2552)
	A1042 Yarmouth Road – north east side  From a point 13 metres south-east of the A1042 northern flyover roundabout in a south easterly direction for 165 metres.	The Norfolk County (Postwick and Thorpe St. Andrew, A1042) (Cycle Lane) Order 1999. (2552)

**PART 4**

**WEIGHT LIMIT VARIATIONS**

<b>Parish</b>	<b>Road name, number and length</b>	<b>Title of Order</b>	<b>Variation</b>
Spixworth and Crostwick	U57188 Quaker Lane For its entire length	The Norfolk County Council (Horsham St Faiths and Newton St Faiths, Hainford, Frettenham, Spixworth, Old Catton and Horstead with Stanninghall) (7.5T Weight Restriction) Order 2006. (4042)	U57188 Quaker Lane  From its junction with the C246 Buxton Road westwards to its western end where it meets the northern side of the NDR classified road.
Spixworth and Crostwick and Old Catton	C251 St Faiths Road From its junction with the U57188 Quaker Lane to its junction with the U57057 Lodge Lane	The Norfolk County Council (Horsham St Faiths and Newton St Faiths, Hainford, Frettenham, Spixworth, Old Catton and Horstead with Stanninghall) (7.5T Weight Restriction) Order 2006. (4042)	C251 St Faiths Road  From its junction with the U57057 Lodge Lane northwards to its northern most end where it meets the southern side of the NDR classified road.
Great and Little Plumstead	U59392 Low Road For its entire length	The Norfolk County Council (Thorpe St Andrew, Great and Little Plumstead, Postwick with Witton, Blofield, Hemblington, Woodbastwick, Lingwood and Burlingham and South Walsham) (7.5T Weight Restriction) Order 2007 (4208)	U59392 Low Road  From its junction with the C258 Church Road westwards to its western most end where it meets the eastern side of the NDR classified road.  U59392 Low Road  From its junction with the U59278 Green Lane North eastwards to its eastern most end, where it meets the western side of the NDR classified road.
	U59400 Smee Lane For its entire length	The Norfolk County Council (Thorpe St Andrew, Great and Little Plumstead, Postwick with Witton, Blofield, Hemblington, Woodbastwick, Lingwood and Burlingham and South Walsham) (7.5T Weight Restriction) Order 2007 (4208)	U59400 Smee Lane  From its junction with the C258 Church Road westwards to its western most end where it meets the eastern side of the NDR classified road.  U59400 Smee Lane  From its junction with the C830 Broadland Way eastwards to its eastern most end, where it meets the western side of the NDR classified road.

## **EXPLANATORY NOTE**

*(This note is not part of the Order)*

This Order authorises Norfolk County Council (referred to in this Order as the undertaker) to construct and operate a new predominantly dual carriageway road starting at Fakenham Road (A1067) and ending at the A47 Trunk Road and to carry out associated works. The Order would permit the undertaker to acquire, compulsorily or by agreement, land and rights in land and to use land for this purpose. The Order also makes provision in connection with the maintenance of the authorised development.

A copy of the Order plans and the book of reference mentioned in this Order and certified in accordance with article 42 (certification of plans etc.) may be inspected free of charge during working hours at [●].

# Appendix B

Table from paragraph 1.4.2 of Second Written Question Q1.4 has been updated to include Do Minimum forecast flows:

**Forecast Annual  
Average Daily  
Traffic (two-way)**

<b>Scenario Location/ Year</b>	<b>DM</b>		<b>T-junction</b>		<b>4-arm Roundabout junction</b>	
	<b>2017</b>	<b>2032</b>	<b>2017</b>	<b>2032</b>	<b>2017</b>	<b>2032</b>
Holt Road	7,900	7,900	11,100	11,500	11,100	11,500
Holly Lane	5,200	6,300	0	0	0	0
Hall Lane North	6,100	7,200	1,700	1,700	1,800	1,800
Hall Lane South	7,400	8,800	6,600	7,400	6,900	8,200
Drayton Lane South	1,300	1,600	4,800	5,700	5,200	6,600
School Road	11,400	12,600	10,500	10,800	10,900	11,700
Reepham Road (Site A76)	8,700	10,000	2,800	2,200	3,700	3,200
Reepham Road (Site A77)	9,700	10,700	13,000	13,200	11,100	11,500
Drayton High Road (Site A32)	19,600	20,200	18,200	18,200	18,300	18,300
Fakenham Road (Site A54)	10,000	11,400	6,500	8,500	6,600	8,300
C262 Fir Covert Road (Site 82)	6,700	8,800	5,000	8,400	4,800	8,000
NDR between Drayton Lane & Holt Road (Site 66)	0	0	22,500	30,600	23,900	31,600
NDR between Drayton Lane & Brand's Lane (Site 91)	0	0	18,400	26,100	16,900	24,200
NDR between Brand's Lane and Taverham Road (Site 90)	0	0	13,300	20,300	12,900	19,700

- The Applicant has considered further the content of section 1 on page 5 of the Applicant's Response to Examining Authority's Second Written Questions in Sections 1-3 (Document Ref NCC/EX/52).
- A minor modification to incorporate a 4 arm roundabout would lower the forecast traffic flow on School Road when compared to a future scenario without the NDR. It would also reduce the number of personal injury accidents (pia) by 72 over the appraisal period with a resultant increase in benefits of £5.76m compared to the current scheme.
- The Applicant considers the above proposed change to the application would be minor and would not materially affect the scheme which is the subject of the DCO application so as to amount to a different application.
- Drayton Parish Council has requested a 4 arm roundabout and indicated that safety is their top priority. Given the accident benefit and the views expressed by the Parish Council and local residents the Applicant is proposing a change to incorporate the 4-arm roundabout option as a minor modification to the Scheme.
- This would be subject to acceptance from the landowners affected that they would need to be willing to include the additional land required for the proposed modification within the DCO, as required by section 123(3), or the procedure prescribed in the Infrastructure Planning (Compulsory Acquisition) Regulations 2010 (regulations 5 - 19) to be followed.
