## **Introduction**

This document provides the Applicant's responses in respect of selected issues raised by Anglian Water in their Written Representation to the Examining Authority dated 17 June 2014. The Written Representation covers many issues. Some of these have been addressed elsewhere (including the Applicant's comments on Relevant Representations, and the Applicant's comments on other Written Representations). Therefore a limited selection of issues raised have been extracted and comments provided.

The points have been responded to where possible in the order they were raised. Each issue, or in some cases a summary of it, is shown in italics.

## Applicant's comment on Written Representations

---

### Representation

1.1. *Comments on draft DCO and proposed Protective Provisions 14.AWS require amendment to Article 17 of the draft DCO in order that paragraphs 17 (1) and 17 (3) of the draft DCO are consistent.*

### Applicant's comment

1.1.1. The Applicant agrees that the additional text (as set out within the Anglian Water Written Representation) is helpful in ensuring consistency between these two paragraphs. The next version of the draft DCO, to be submitted by noon on 21 July 2014, will include this additional text.

### Representation

1.2. *For the protection of Anglian Water, the listed provisions shall, unless otherwise agreed in writing between the undertaker and Anglian Water, have effect.*

### Applicant's comment

1.2.1. A draft has been supplied by Anglian Water and an amended draft has been sent by the Applicant to Anglian Water's solicitors. Anglian Water's proposed wording (as set out within the Anglian Water Written Representation) is broadly acceptable and the changes suggested are relatively minor. It is unlikely that final agreement between the Applicant and Anglian Water will be reached before 21 July. However the version of the protective provisions to be included in the next version of the draft DCO will include the amendments suggested by the Applicant.
