

Glasdon Gateway creates an attractive display for signage on approaches to towns and villages. It is also perfect for traffic calming purposes, alerting motorists of a speed change and encouraging drivers to slow down.

Glasdon Gateway is manufactured from Everwood™ material, a unique, realistic timber grain polymer. Standard wooden gateways remain popular, but without regular treatment wood will split and rot. Non-porous Everwood material will never need painting and will not rot, warp or crack.

Glasdon Gateway is extremely robust, vandal and weather resistant and requires minimal maintenance.

**REALISTIC  
TIMBER GRAIN  
EFFECT**

2 Light Oak Glasdon Gateways (2000mm x 2300mm height) with 3 slats, optional crossbar and signage.

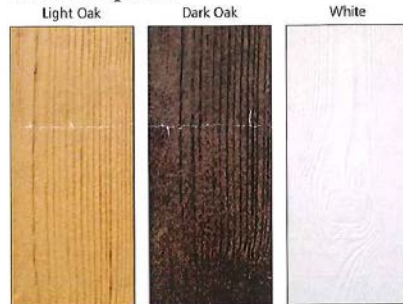

Dark Oak Glasdon Gateway (2000mm x 2300mm height) with 3 slats and signage.

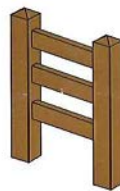

White Glasdon Gateway (1500mm x 2300mm height) with 4 slats and signage.
