1 December 2023

Main Road and Stokesby New Road, Fleggburgh – Local Safety Scheme

Essential resurfacing, vegetation clearance and sign improvement work on the A1064 Main Road is programmed to start from Monday 4th December 2023 and will take up to two weeks to complete. The road will also be resurfaced and new signs installed, or original ones replaced, where needed.

To make sure the clearance and signage work can be completed safely, traffic lights will be in place on the A1064 Main Road from the 4th-8th December. The Stokesby New Road junction with the Main Road will also be closed during this time.

For the resurfacing work to take place, the A1064 Main Road and Stokesby New Road will be closed for overnight on 11th and 12th December between 8pm and 6am. The diversion route will be via the A47 Acle Straight.

On completion of the work, the new road surface will be smoother and safer, and visibility will be improved.

The County Council would like to thank people for their patience while this essential work is carried out.

The work will cost £56,000 and will be carried out by Norfolk County Council's Community and Environmental Services Department and their contractors.
