Dear Sirs

Please find attached a revised version (Revision 6A) of the Norwich Northern Distributor Road Monitoring and Evaluation Plan: One Year After Report. This supersedes earlier revisions provided to the Council.

This report has been compiled in accordance with the methodology agreed with the Department for Transport, and forms an evaluator's view on the overall performance of the scheme when all the indicators of performance are taken into account. The contents of the report should be considered within the context of an agreed 15-year monitoring and evaluation framework.

This revised report has been amended from the previous version to include the assessment of new data for Water Quality. It also provides clarification on a couple of the sub-sectional assessments for ecology and diversity. The changes made in this revision are captured in Appendix C.

If you have any questions arising from this revised report please do not hesitate to contact me.

Yours sincerely

For and on behalf of Mott MacDonald Ltd

Stephen Cox

Head of Economic and Social Development
