### Flood Depth

<0.1m  
 0.1m to 0.25m  
 0.25m to 0.5m  
 0.5m to 1.0m  
 1.0m to 1.5m  
 1.5m to 2m  
 >2m

### Notes

1. This map only shows the predicted likelihood of surface water flooding (this includes flooding from sewers, drains, small watercourses and ditches that occurs in heavy rainfall) for defined areas, and due to the coarse nature of the source data used, are not detailed enough to account for precise addresses.
2. Users of this map should refer to section 2.3 of the Surface Water Management Plan for a complete description of limitations and accuracy of the flood/hazard extents shown.
3. This map provides a strategic overview of surface water flood risk and may be subject to further analysis in the future.
