

#### Legend

- Norwich SWMP Area
- District Council Boundary
- EA MODFLOW model (water level agl)
- EA MODFLOW model (water level < 5 mbgl)
- BGS Groundwater Flooding Susceptibility**
  - Very High
  - High
  - Moderate
  - Low
- Council identified areas where groundwater flooding may occur

#### NOTES

The MODFLOW water levels are representative of conditions in December 1993 (a period of high groundwater levels). The depth to groundwater plot only extends to approximate easting 616500.

The 'very low' BGS category has been removed for clarity.
