

Legend

- Hydraulic Model Boundary
- Administrative Boundary
- Main River
- Ordinary Watercourse
- Culverted Watercourse
- Assessed Settlements
- Proposed Sites
- Strategic Growth
- Permanent Water Bodies

Flood Hazard Rating

- Caution (Very Low Hazard)
- Moderate (Danger for Some)
- Significant (Danger for Most)
- Extreme (Danger for All)

Notes

1. This map only shows the predicted likelihood of surface water flooding (this includes flooding from sewers, drains, small watercourses and ditches that occurs in heavy rainfall) for defined areas, and due to the coarse nature of the source data used, are not detailed enough to account for precise addresses.
2. Flood Hazard has been defined based upon the joint EA and Defra R&D Technical Report FD2320 (January 2006).
