| <span style="display: inline-block; width: 20px; height: 10px; background-color: white; border: 1px solid black; margin-right: 5px;"></span> < 0.1m            | <span style="display: inline-block; width: 20px; height: 10px; background-color: blue; margin-right: 5px;"></span> 0.5m to 1.0m   |
| <span style="display: inline-block; width: 20px; height: 10px; background-color: lightblue; border: 1px solid black; margin-right: 5px;"></span> 0.1m to 0.25m | <span style="display: inline-block; width: 20px; height: 10px; background-color: purple; margin-right: 5px;"></span> 1.0m to 1.5m |
| <span style="display: inline-block; width: 20px; height: 10px; background-color: darkblue; border: 1px solid black; margin-right: 5px;"></span> 0.25m to 0.5m  | <span style="display: inline-block; width: 20px; height: 10px; background-color: red; margin-right: 5px;"></span> > 1.5m          |

**Notes**

1. This map only shows the predicted likelihood of surface water flooding (this includes flooding from sewers, drains, small watercourses and ditches that occurs in heavy rainfall) for defined areas, and due to the coarse nature of the source data used, are not detailed enough to account for precise addresses.
