14526/10 Staden Park, Trimingham – Essential Footway Resurfacing

Work will begin on Tuesday 13 May 2024 to resurface the entire footway on Staden Park, Trimingham. The works will see the damaged and worn-out road surface removed and replaced and are expected to take approximate 10 weeks to complete, subject to suitable weather conditions.

The work will see the old, cracked and worn pavement replaced with new surfacing and edging, with new kerbing also being installed at the driveway entrances.

The works are to include the entire of the Staden Park cul-de-sac. Access to properties will be maintained, however there will be times when vehicle access to properties is restricted as work takes place in front of driveways. During these times residents may need to park their vehicles at alternative locations. Anyone who has any specific access requirements, can contact us using the email address below or speak to the team on site, so these access requirements can be accommodated.

The work which will cost approximately £78,000 will be carried out by Norfolk County Council's Community and Environmental Services Department and their contractors.

The County Council thanks people for their patience while this surface improvement work is carried out.
