For immediate release

24 May 2024

A140 Cromer Road, Hellesdon Road Rejuvenation works

The A140 Cromer Road at Hellesdon will be closed on 7th, 10th, 11th and 12th June between the hours of 09:30 and 15:30. This closure will include a suspension of parking from the Cromer Road/ Mayfield Avenue junction to the northern Norwich City Airport Park & Ride entrance. It is intended to apply a road rejuvenator which is sprayed onto the road surface and requires time to soak into the top layer.

Southbound traffic will be open for the duration of these works. Vehicle/ pedestrian access to properties will be maintained although delays may be possible.

Through this early intervention approach the road surface will last a number of years longer than without. Norfolk is following a regime of preserving our asphalt surfaces which is both good for the environment and good value for money.

The north bound diversion route follows the A1042 Mile Cross Lane, A1042 Chartwell Road, A1151 Wroxham Road, A1270 Broadland Northway onto the A140 Cromer Road.

The County Council thanks people for their patience while this work is carried out.

The work which will cost £83,234 will be carried out by Norfolk County Council's Infrastructure Department and their contractors.

For further information

John Hunter, Asset Engineer, 0344 800 8020.

This is an ongoing treatment used on parts of Norfolk's classified Network to prevent the surface layer deteriorating. The rejuvenator has a very low carbon footprint and is used to elongate the life of the very expensive surface asphalt layer.

Up-to-date information about roadworks in Norfolk is available on the County Council website at www.norfolk.gov.uk/roadworks
