Eastern Close, Thorpe St Andrew – Pavement Reconstruction

Essential reconstruction of the worn-out pavement along Eastern Close, is currently programmed to start from 8 January 2024 and should take up to 6 weeks to complete. The existing damaged surfaces will be removed and replaced with a new level surface, and broken kerbs will be replaced where needed.

To ensure that work can be completed safely, it will be necessary to temporarily close the roads to through traffic during this time - Eastern Crescent for the 6 week duration.

Access to properties will be maintained, with a short diversion route in place. There may be some brief periods where vehicle access to an individual property is restricted while work takes place in front of a driveway, but residents will be notified in advance by the works' contractor in these instances, where possible.

On completion of the work, the new pavement surface should improve ease of access for all users and reduce maintenance costs.

The County Council thanks people for their patience while this essential reconstruction work is carried out.

The work which will cost £80,082 will be carried out by Norfolk County Council's Community and Environmental Services Department and their contractors.
