## **Temporary Road closure on B1105 Wells Road, Walsingham for Surface Dressing Works**

Work is due to start on Friday 19<sup>th</sup> April to surface dress a section of the B1105 Wells Road. To allow the work to be carried out safely and swiftly it will be necessary to close the road to through traffic on a number of dates when the surfacing is underway, line painting is being carried out, and cat's eyes (road studs) are being renewed. Access to properties will be maintained at all times.

The work, which is weather dependant, will be carried out in phases with any road closures only in place for a number of hours at a time on the following dates:

19 April (road stud removal) evening / overnight works 19:00 start  
30 April (first surface dressing) daytime 09:00-16:00 Road Closure  
17 May (second surface dressing) daytime 09:00-16:00 Road Closure  
22 May (lining/road stud replacement) evening / overnight works 19:00 Start

A fully signed diversion route will be in operation for the duration of the works. The County Council thanks people for their patience while this essential road maintenance work is carried out.

The work is part of a £11.7 million maintenance budget and will be carried out by Norfolk County Council's Community and Environmental Services Department and their contractors Tarmac and Keir Highway Services.

### **For further information**

This year 280 miles of Norfolk's roads will get a new seal to extend the life of the road. The new seal consists of a thin layer of bitumen and chippings which is laid onto the road. This helps prevent water penetration and helps stop potholes opening up.

The action of vehicles passing over the new surface plays an important part in helping the new surface to settle in. People are urged to drive slowly and considerately across the new surface until it is bedded in and highway teams return a few days later to sweep up the loose stones.
